8. Evening courses improve access to continuing education and professional development for people who work during the day. Would you support Howard University's development of and improvement in its evening academic offerings?

Yes	152	93%
No	11	7%
Total	163	100%

-Brings more activity to the neighborhood providing safety and activity when it is needed most.  
 -Both credit and non-credit; life-long learning would be excellent.  
 -I don't want to have to deal with the parking hassles your business creates. It's bad enough already.  
 -If this doesn't cause parking problems in the neighborhood it's a good idea but you have to provide the parking on your campus.  
 -Unless traffic could be confined to the campus and parking in the neighborhood would not be affected AT ALL, then I would not support added cars and persons in the neighborhood.  
 -It just depends. If Howard needs to expand the campus toward the East or South then I would be against. Parking most likely would be a problem since parking has gotten very tight over the last 5 years.  
 -Will soon retire.  
 -The neighborhood is under a lot of stress with cars and traffic causing noise and disruptions. More cars from evening students would be just more noise. So not just the day but the evening as well. NO THANKS!  
 -Education should be accessible to all those interested.  
 -I think they are good, but I do not have an interest in evening classes at this time; I'm already taking a weekend grad course at AU.  
 -Parking will become even harder to find.  
 -At main campus.

9. Would you be interested in participating in evening programs if provided?

Yes	117	72%
No	46	28%
Total	163	100%

10. Are you aware of any negative impacts on your community from evening and/or weekend events that currently take place on campus?

Yes	42	26%
No	119	74%
Total	161	100%

-Illegal parking by visitors and students in the residential areas. (x26)  
 -Street closures (x3)  
 -Traffic and congestion (x12)  
 -Litter and trash (x7)  
 -Spillover from parties into residential areas. (x6)  
 -Noise, loudness and rowdiness (x9)  
 -Should encourage public transit and install bike racks (x3)  
 -Loitering, more people in the community, lack of police/security presence (x4)  
 -Increase crime (x4)  
 -Property damage  
 -"I don't see them as negative, but they impact the community -- things like homecoming, parade, the Caribbean festival, etc..... These things are good, and the neighborhood just needs to adjust when they come up."
