Dear Ed,

Our 39th Street neighbors Richard and Linda Hall shared their construction plans for a proposed 2nd-story rear bedroom at [1959 39th Street NW](#).

We support their request for a special exception to zoning regulations that would allow them to incorporate a 2nd-story bay window that extends 18 inches into the rear yard area. Approval of this very minor extension would have no negative effect on neighbors and would enhance the Halls' enjoyment of wooded views across the alley.

Thank you for your positive consideration of the Halls' request in BZA case #19698.

Ann Carper and Beth McKinnon
