Dear Board of Zoning Adjustment

My clients Mr. & Ms. Trevor & Jennifer Selman would like to expand their Bakery / Pastry Shop business by opening a Restaurant on the Second Floor of their business establishment with a Roof Deck. It is therefore essential to have a second means of egress from the restaurant and the roof deck. The proposed dumbwaiter is to better serve their customers on both the restaurant and roof deck levels.

Please contact our office if you require any additional information. Thank you.

Sincerely Yours

Architectural Solutions LLC

Neil P. Cruickshank
Principal / Architect.
