A GOVERNMENT OF THE DISTRICT OF COLUMBIA Board of Zoning Adjustment

This self-certified application was submitted May, 1. 2018, by Tywania Fletcher-Langley (“Applicant”), the owner of the property that is the subject of the application. The application requests a special exception under section X,901.2 of the Zoning Regulations to allow development of a new four-unit apartment building in the R-A-1- district at 4212 Livingston Road SE (Square 6219, Lots 0015 and 61).

Party Status. In addition to the Applicant, ANC 8D-03 was notified December 12, 2017 requesting to be scheduled to meet with the homeowners of that ward within 200 feet BZA APPLICATION NO. 19783

Applicant’s Case. The Applicant presented evidence and testimony describing plans to open a 8-10 unit MALE transitional Program.(Nonstructural) with public street parking spaces provided. Clients will only use back yard with in the lot and square footage in a lot at the rear of the property. The Applicant indicated there is no public alley at the rear of the subject property, consistent with the requirements of the District Department of Transportation, to provide vehicular access to the parking lot. According to the Applicant, approval of the requested special exception would improve the current condition of the subject property and would not adversely affect the use of neighboring property.

Government Reports. By memorandum dated May 8, 2007, the Office of Planning (“OP”) recommended approval of the requested special exception, concluding that the project would satisfy the requirements of sections 353 and 3104.1. OP cited policy support in the District Elements of the Comprehensive Plan for the National Capital (“Comprehensive Plan”) for new infill housing, and noted that “an adequate number of Treatment programs and Oxford housing and transitional housing and public schools” were located within 1-5 miles of the proposed development to accommodate future clients who might reside there.

By memorandum dated July 3, 2007, the District Department of Transportation (“DDOT”) indicated no objections to the Applicant’s proposal, provided that the Applicant would construct the public alley at the rear of the subject property to DDOT standards to give access to the project’s parking lot. DDOT noted that the alley is currently unimproved and not in a condition suitable for automobile traffic.

ANC Report. Advisory Neighborhood Commission 8-D-03 did not submit a written report in this proceeding. It therefore could not be given great weight by the Commission.
