Child Care Facility Issues

To [REDACTED]

[REDACTED]

Someone forwarded me a copy of your letter and I totally agree that your neighborhood has a strong interest in assessing the affect of the proposed day care facility on traffic and parking issues. Malia had her reasons for not opening it up before her ANC, but you are correct that whatever impact there might be from the facility will fall mostly on your neighborhood.

To that end, I am talking to [REDACTED] this afternoon about scheduling a meeting for the neighborhood with the relevant principals in this project so that you can be better informed and ask your questions. I think we can arrange for the consultant who did the traffic study to also attend. Hopefully we can work something out for the end of August or early September. The BZA hearing is scheduled for September 12 and it would be good to surface any remaining issues and work out potential solutions before then.
