RE: BZC Case No. 19832

Dear Members of the Commission:

At a regularly scheduled and properly noticed meeting on January 10, 2019, the Advisory Neighborhood Commission 7C ("ANC7C" or "Commission") considered the above-referenced matter. With all 7 Commissioners in attendance, our Commission voted 7-0 to oppose the variance request for applicant's development at 308 63rd ST NE.

The Commission and neighbors near the proposed development site are concerned the its development will reduce the overall width in the alleyway and not allow emergency response vehicles to maneuver in that area.

By opposing this request for a variance, ANC7C want to ensure that emergency response vehicles have adequate access in the alleyway. Thank you again for providing ANC7C an opportunity to exercise "Great Weight" on this matter.

Sincerely,

Antawan Holmes
Chairperson
