

STATEMENT OF OUTREACH

We, the applicants, formally presented our plans to our Advisory Neighborhood Commission (ANC 6D) at their public meeting on July 9, 2018. The ANC voted unanimously to support our proposal. We are awaiting a formal letter from the ANC to forward to the BZA.

We have reviewed our proposal with the two homeowners adjacent to us on either side. Both have provided written statements of support (see attachments).

We have reached out in person or by email to all homeowners within 200 feet of 600 H St. Of these 40 homeowners, we have already obtained 29 signatures of support for our proposal. We are waiting to hear from those who are away or are non-resident homeowners. We have not heard a single word of opposition to our proposal.

Our homeowner's association, Townhouse Management 1, supports our proposal. We are awaiting a formal letter to confirm this.

We have also reached out to Waterfront Village, which is very active in our community, working to enable seniors to age in place. The President and the Executive Director of Waterfront Village enthusiastically support our proposal. The President made a public statement of support at the ANC 6D meeting which considered our proposal.

We have also spoken to neighbors beyond the 200 foot radius from the house. We have found broad support for and no opposition to the project. Many of our senior neighbors have wished us well as they see our project as possible solution to aging in place in a three story row house.

We made preliminary contact with the Office of Planning when we were filing for our building permit. We will schedule a meeting for further discussion in the near future.

We will submit the signatures and letters of support to reflect the above no less than 14 days before our hearing date.
