ANALYSIS

The proposed construction of this project of 8-unit apartment building on subject lots will be conforming since this lot meets RA1 zoning requirements. However, in the RA-1 zone, all new residential developments, except those comprising all one-family detached and semi-detached dwellings, shall be reviewed by the Board of Zoning Adjustment as Special Exceptions under Subtitle X, in accordance with the standards and requirements in this section.

Under Subtitle X, Chapter 901.2, the Board of Zoning Adjustment is authorized under § 8 of the Zoning Act, D.C.Official Code § 6-641.07(g)(2), to grant special exceptions, as provided in this title, where, in the judgment of the Board of Zoning Adjustment, the special exceptions:

- (a) Will be in harmony with the general purpose and intent of the Zoning Regulations and Zoning Maps;
- (b) Will not tend to affect adversely, the use of neighboring property in Accordance with the Zoning Regulations and Zoning Maps; and
- (c) Will meet such special conditions as may be specified in this title.

Our project at 1735 28th St SE will be in harmony with the community and will not tend to affect adversely. Also, there will be no street congestion for parking on the street since we will provide 2 off street parking at rear of this building which can be accessed by public alley. Special Exception to build

proposed 8-unit apartment building would not limit the light and air to adjacent properties or to other dwellings in the neighborhood.

CONCLUSION

The proposal will contribute to the continued improvement of Randle Highland area by developing one of the vacant infill lots. The improvement of this infill lot would be for the public good, as it would remove a vacant property and prevent the use of the property negative purposes. Special Exception from BZA for new residential Development of this 8 unit apartment building will not have a negative impact on the zoning regulations and would allow the property to be developed with apartment building that will be consistent with the development pattern in the area.
