Dear Mrs. Bolling,

It has come to my attention, Advisory Neighborhood Commission 7C SMD 7C05 that the tax classification for 413 60th St NE (Square 5261, Lot 0803) was recently changed to Class 4 (blighted). The owner AMM2 Investments LLC (Mr. Mubashir Khan) approached ANC right after purchasing property and briefed us about his developmental plans. We are very excited and supportive to see this eye-sore property which has been sitting for many years, now seems to be in the process of undergoing redevelopment to enhance the neighborhood.

Mr. Khan met with ANC Commissioner multiple times in the last few months and showed his development plans. In reviewing his plans, he made changes as per our recommendations. Mr Khan is also working with DCRA and BZA and preparing necessary plans and documents needed. He have received demo permit and filed for raze permit. According to his plans and approach, we think he is moving in the right direction to develop this property.

It is very unfortunate to raise tax class of this property to vacant and blighted instead of keeping it to residential (class 1). As per owner, he budgeted for class1 taxes. These high taxes may risk him to foreclose property, like previous owners. If that happens again, this property will continue to stay as un-developed.

I strongly support the owner's blighted and vacant appeals to reinstate property to tax class 1 for Tax Year 2018. Please feel free to reach me for any questions or concerns.

Sincerely yours,

A handwritten signature in cursive script that reads "Mary L. Gaffney".
