

This is to notify you that adjoining neighbors will be attending the public meeting on February 6th at 9:30AM. Our primary interest is establishing a setback for any fence or structure along the rear property line. The plans propose a fence on the property line and we, the adjoining neighbors, are requesting a two (2) foot setback of the fence from the rear property line. Also, we're asking this setback requirement to go in perpetuity with the property as Special Exception case. This setback will stay with the property for it's entirety regardless of ownership.
