BZA Application Number 20209
REF: Uzoma Ogbuokiri

To Whom It May Concern:

I, JoAnn Highsmith am submitting written testimony to object to the special privilege of Mr Uzoma Ogbuokiri is requesting outside of the Zoning District approved policy. I do not feel this man has the right to come into a serene neighborhood where the houses are the same height and where homeowners have respect for the already established zoning regulations. If Mr. Ogbuokiri, wants to build a house on a house, then he should have considered a detached home where there are pop-ups.

The D.C. zoning regulations is established and for decades every home owner in this zone has respected those regulations: and thus we have benefited in regards to ease of parking. This is a senior community where parking can be detrimental to those limited in mobility. As for aesthetics, pop-ups are attractive when all properties are symmetrical. This type of uplifting a community as Mr. Ogbuokiri has stated is definitely outside of the zoning regulations and I do not agree to it and never will.
