V. OP ANALYSIS

Subtitle F Chapter 5201 ADDITION TO A BUILDING OR ACCESSORY STRUCTURE

- 5201.1 The Board of Zoning Adjustment may grant special exception relief from the following development standards of this subtitle, subject to the provisions of this section and the general special exception criteria at Subtitle X.
 - (a) Lot occupancy;
 - (b) Yards;
 - (c) Green area ratio.

The application requests relief from lot occupancy and rear yard

- 5201.2 Special exception relief under this section is applicable only to the following:
 - (a) An addition to an existing residential building; or
 - (b) A new or enlarged accessory structure that is accessory to such a building.

The application requests relief to permit an addition to an existing residential building.

- 5201.3 An applicant for special exception under this section shall demonstrate that the proposed addition or accessory structure shall not have a substantially adverse effect on the use or enjoyment of any abutting or adjacent dwelling or property, in particular:
 - (a) The light and air available to neighboring properties shall not be unduly compromised;

The application proposes the construction of a rear deck over an existing driveway. As the deck would be off the main level of the house and an open structure with no walls or ceiling, light and air available to neighboring properties should not be unduly compromised.

- (b) The privacy of use and enjoyment of neighboring properties shall not be unduly compromised;
 - The subject property and adjoining row houses were constructed with sliding glass doors, outdoor light fixtures and exterior electrical outlets designed for use with a future rear deck. The applicant proposes the construction of a rear deck consistent with this intent, similar to others constructed within the development. Therefore, use and enjoyment of neighboring properties should be unduly compromised.
- (c) The addition or accessory structure, together with the original building, as viewed from the street, alley, and other public way, shall not substantially visually intrude upon the character, scale, and pattern of houses along the subject street frontage;
 - The deck would be visible from Kimi Gray Court and the rear public alley, and would be similar in design, scale, and height above the ground to other rear decks constructed along the same alley and within the development. Therefore, it would not visually intrude upon the character, scale and pattern of houses along the street frontage.
- (d) In demonstrating compliance with paragraphs (a), (b), and (c) of this subsection, the applicant shall use graphical representations such as plans, photographs, or elevation and section drawings sufficient to represent the relationship of the proposed addition or accessory structure to adjacent buildings and views from public ways; and
 - The applicant submitted plans, photographs and section drawings sufficient to represent the relationship of the proposed addition to adjacent buildings and views from public ways.
- 5201.4 The Board of Zoning Adjustment may require special treatment in the way of design, screening, exterior or interior lighting, building materials, or other features for the protection of adjacent and nearby properties.
 - OP makes no recommendations for special treatment.
- 5201.5 This section may not be used to permit the introduction or expansion of a nonconforming use as a special exception.
 - The subject application would not result in the introduction or expansion of a nonconforming use.
- 5201.6 This section shall not be used to permit the introduction or expansion of nonconforming height or number of stories as a special exception.
 - The subject application would not result in the introduction or expansion of a nonconforming height or number of stories.
