RE: Case No: 20569 – Bradley Halligan – 5182 Fulton St NW

I am a neighbor of Mr. Halligan, living directly across the street from his home. I have reviewed plans for his two-story addition, deck, and improved parking area. I have also reviewed the justification provided to the BZA seeking relief from current zoning requirements.

I believe that Mr. Halligan's plans will not only enhance his property, but, indeed, the 5100 block of Fulton St. I fully support granting zoning relief for this project. Mr. Halligan should receive whatever available consideration there is to allow him to move forward in an expedited manner to begin work on his plan.

Please contact me with any questions you may have.

Thank you for your consideration.
