Hi Rachel!

Thanks for sending these plans over. We sent them to our architect since we don't have an eye for these things (even with all our recent experience lol). His only question was if there were any additional structural drawings you might have?

But we are very much in support of your expansion and these drawings. We are excited for you!!

Hi Jeff and Becca

I will be applying for a Zoning Variance with the BZA (Board of Zoning Adjustments) to add a rear addition to my home.

Please see attached my design drawings. Please reply back to this email that you have received the drawings and approve.

Thank you,
Rachel
