**RE: ANC 5E Zoning Committee: BZA case #20777, 206 P St. NW, Review**

Good afternoon,

I live at 210 P ST NW #4. I'm writing to convey support for support of the proposed conversion of the two third-floor windows at 206 P St NW into a single dormer covering the same space and believe that the project will have no adverse impact on the neighborhood or the appearance of neighborhood homes such as mine.

In general, we support the renovations and rehabilitation work that has been occurring in the neighborhood.

Please feel free to reach me at any time should you have any questions.

Best,

Clint Cavanaugh
