As Gregg and I used to say, you are "smile and wave neighbors." I have never so much as had a two sentence conversation with you, and I have never been introduced to you properly. I also have never receive the letter that you should have sent me about this addition. I had no idea this was being planned until I saw the signs on your house. I do not believe discussing this BZA issue with you will accomplish anything.

I believe I made my stand very clear in the BZA submission: if you wanted to build up and not out, blocking my view shed and air flow, I would stand down.

On the another hand, you might look to purchase 2928 Upton and end this situation, which will damage the look of the neighborhood.

Au Revoir,

James Gasser
