

# Petition to Tell Zoning Commission to Rezone Meridian Hill in Accordance with DC Law!

Petition summary and background	Meridian International Center has teamed up with a developer to turn their leafy lot on 16th Street into a nine-story luxury apartment building and conference center. This project will lead to increased congestion, traffic, and the destruction of dozens of mature and heritage trees. Despite overwhelming community opposition, including several unanimous resolutions by the ANC, which is legally entitled to "great weight" consideration by D.C. agencies, the powers that be in D.C. government have approved this project. However, we believe it can - and should - be stopped.
Action petitioned for	We, the undersigned, are concerned citizens who urge our leaders to act now to: <b>Rezoning the vacant lot to RA-2 to comply with D.C.'s Comprehensive Plan</b>
