

Thurston Hall is located at 1900 F Street, N.W. (Square 122, Lot 30) on a lot containing approximately 27,600 square feet of land area and located in the MU-2 zone. The existing building was constructed in 1929 and needs a full renovation. Thurston Hall provides approximately 1,080 beds for almost exclusively first-year students. The proposed renovations are designed to improve the student experience and include:

- (1) an overhead canopy to partially enclose the courtyard and permit three-season use;
- (2) habitable penthouse space containing communal gathering spaces; and
- (3) the addition of a dining facility in the below-grade level of the building.

Following the completion of the proposed renovations, Thurston will provide approximately 825 beds. Thurston Hall will remain a height of 86.5 feet and have a gross floor area of approximately 186,789 square feet and a floor area ratio of 6.77. The proposed use, height, and density are all consistent with the approved Campus Plan. Loading access will continue to be provided from 19th Street, N.W.

Although the base footprint of each floor of Thurston Hall will be approximately 73.3%, within the 80% lot occupancy limit in the MU-2 zone (Subtitle G § 304.1), the proposed roof over the enclosed courtyard at ground level will result in a total lot occupancy of approximately 83.8%, for which special exception relief is requested pursuant to Subtitle G §§ 308 and 1200.

The renovated Thurston Hall will also incorporate 19-foot tall cooling towers on the roof. In order to meet the penthouse setback requirements, the cooling towers will be surrounded by lower screening walls than are required by the penthouse regulations (Subtitle C § 1500.8). The cooling towers will be significantly taller than the rest of the proposed rooftop mechanical equipment rather than the uniform height required by the regulations (Subtitle C § 1500.9).

The proposed canopy on the roof of Thurston Hall will also require relief from the uniform height requirements (Subtitle C § 1500.9). The canopy will also require relief from the penthouse setback requirements to allow it to extend fully and cover the terrace and courtyard below (Subtitle C § 1504). Penthouse special exception relief for both the cooling towers and canopy is sought pursuant to Subtitle C § 1504.

In order to maintain student accommodation during the renovation, GW has created a temporary housing plan to be used for 24 months. The temporary housing plan proposes to house first-year students who would otherwise be housed in Thurston Hall at other residence halls on GW's campus and shift the campus residence population as follows:

- 220 undergraduate beds for third-year and fourth-year students in The Aston, located at 1129 New Hampshire Avenue, N.W. (This requires relief from Condition P-8(b) of Z.C. Order No. 06-12 which otherwise does not permit undergraduates at The Aston.);
- 330 third-year and fourth-year undergraduate students in hotel rooms at the One Washington Circle hotel, located at 1 Washington Circle, NW.;
- Second-year students in the residence hall located at 1959 E Street NW. (This requires a modification of Condition 8 of Z.C. Order No. 746-C for Z.C. Case No. 01-17.); and
- A temporarily reduction in the number of required on-campus beds and the inclusion of the beds at The Aston and One Washington Circle in that number of required on-campus beds, provided that the number of on-campus beds is within 99 beds of the requirement. (This requires a modification of Condition C-6 of Z.C. Order No. 06-11.)
