November 25, 2002

Dear Mr. Griffins,

As Chair of ANC 3E I respectfully request that the Zoning Commission change the date of the December 12 hearing of Stonebridge Associates proposal for 5401 Western Avenue, NW, the Washington Clinic site, Zoning Commission No. 02-17C. The Zoning Commission has scheduled the hearing for this project on a day that conflicts with ANC 3E's regularly scheduled monthly meeting in December. Since ANC 3E represents the neighborhood in which this project is located, and because of the controversial nature of this project, several ANC 3E commissioners feel it is particularly important to testify before the Zoning Commission.

I would like to point out that ANC 3E was unable to attend the November 14 meeting of the Zoning Commission because that date also conflicted with our monthly meeting. As Chair I left a voice mail message for Alberto Bastida notifying him that we would not be able to attend because of the date conflict. I am requesting that the Zoning Commission change the date of its hearing on ZC Case No. 02-17C to a date that does not conflict with our monthly ANC meeting, which is held on the second Thursday of every month.

Respectfully submitted,

Jill Diskan  
Chair, ANC 3E
