Re: Case No. 04-33G Petitioner's Request to follow DC BIA's presentation at July 13 hearing

We respectfully request that we follow DC BIA's presentation rather than present first. We ask for this change in order to be in a position to better address new information DC BIA will be providing. Given that the DC BIA requested an additional hearing to present new information through oral presentation, we believe it would be fair to allow them to present first and the petitioner to speak second and attempt to respond.

Thank you for your consideration.

Sincerely,
