**FOR THE PURPOSE OF CONSIDERING THE FOLLOWING:**

**Case No. 06-22 (District of Columbia Sports and Entertainment Commission –  
Construction of a Major League Baseball Ballpark)**

**THIS CASE IS OF INTEREST TO ANC 6D**

On May 3, 2006, the Office of Zoning received an application from the District of Columbia Sports and Entertainment Commission (“Applicant”), pursuant to 11 DCMR §§ 1606 and 3101.1, for the construction and operation of a Major League Baseball stadium (the “Ballpark”) and ancillary uses in Squares 702 through 706 and Reservation 247 (the “Ballpark Site”) for use by the Washington Nationals Baseball Club and for entertainment and associated uses. Pursuant to 11 DCMR § 3011.1, the Applicant included a written report of the Office of Planning certifying that the application is generally compliant with the standards of Section 1606 of the Zoning Regulations, thereby allowing for this hearing to be scheduled without a “setdown” proceeding.

The Applicant has specific legislative authority to construct and lease the Ballpark that is the subject of the application.

The Applicant proposes to construct the Ballpark, which will contain retail space along its exterior perimeter frontage as well as throughout the Ballpark. All buildings currently on the Ballpark Site will be removed. The Ballpark will occupy approximately 500,000 square feet within the central portion of the Ballpark Site. Certain program elements within the Ballpark will be oriented to allow for non-game-day use, including a restaurant, conference center, Washington Nationals ticket office, and the perimeter retail. In addition, two plaza areas will be constructed to the north and south of the Ballpark. The south plaza will contain a historical timeline element that will include

milestone dates for Baseball in Washington along with other noteworthy events in the history of the District. The north plaza will be the main pedestrian entry to the Ballpark for patrons traveling from the north from various Metrorail stations and will be flanked by restaurants and retail uses. The open end of the Ballpark is oriented towards the northeast. The Ballpark height will be 110 feet. The total gross floor area of the Ballpark is approximately 1,209,874 square feet (exclusive of parking areas). The FAR of the Ballpark is 1.42 and the overall FAR, inclusive of parking, is 2.02. The Ballpark Site will contain 1,225 parking spaces located to the north and south of the Ballpark.

The Applicant has requested approval for three different options for construction of the Ballpark, identified as a Base Plan, Option One, and Option Two. The Base Plan, Option One and Option Two differ primarily with regard to the presence and location of preferred uses along the First Street, SE façade of the Ballpark.

The Applicant has requested relief from 11 DCMR § 1606.7 for the Base Plan, Option One and Option Two so as to be able to construct a portion of the parking in two above-ground structures instead of constructing the parking underground.

The Applicant has requested, for the Base Plan, relief from 11 DCMR § 1606.14 requirements for percentage of Ballpark perimeter dedicated to retail, service, arts, or entertainment uses ("preferred uses").

The Applicant also requests, pursuant to 11 DCMR § 1606.22, (i) relief from the strict applicability of the setback requirements of 11 DCMR § 1606.16 in order to accommodate the pedestrian ramp to be located at the northern end of the Ballpark along South Capitol Street, (ii) relief from the strict applicability of the height requirement set forth at 11 DCMR § 1606.14(d) for a portion of the space within the Ballpark perimeter allocated for preferred uses, and (iii) relief from the strict applicability of the average depth requirement set forth at 11 DCMR § 1606.14(e) for the space within the Ballpark perimeter allocated for preferred uses.

The Property consists of Squares 702, 703, 704, 705, and 706 and Reservation 247 and is already zoned for a ballpark use pursuant to Section 1606 of the Zoning Regulations. The property consists of approximately 13.83 acres, either owned or to be owned by the District of Columbia prior to the conclusion of this proceeding and the approximately 2 acres of Reservation 247, the federally owned parcel currently controlled by the District through a transfer of jurisdiction from the federal government, exclusive of existing streets, alleys and sidewalks, which have been approved for closure by the Council of the District of Columbia as part of the consolidation of the property, in accordance with the Street and Alley Closing and Acquisitions Procedures Act, D.C. Official Code § 9-201.01 *et seq.* The total area of the Ballpark Site is approximately 852,907 square feet, and consists today of 63 separate parcels of land. The property is bounded by South Capitol Street on the west, N Street, S.E. on the north, First Street, S.E. on the east, and Potomac Avenue, S.E. on the south.

The Ballpark Site is zoned CG/CR, which, pursuant to 11 DCMR § 1606.5, permits a Ballpark (as defined in 11 DCMR § 1606.2) to have a height of 130 feet as a matter of right, inclusive of the “scoreboard, roof, cantilevered sunscreen, or parapet, with the exception of [mechanical penthouses, antennae and architectural embellishments],” utilizing South Capitol Street as the measuring street for determination of height. Pursuant to 11 DCMR §§ 1606.4 and 1601.1, buildings within the Ballpark Site are allowed to be developed for non-residential purposes to a maximum of 60 FAR.

The scope of this hearing is limited solely to the issues of whether the Applicant has met its burden of demonstrating compliance with §§ 1606.19 & 1606.20, as required by § 1606.18, and whether the relief sought from the parking and set back requirements of §§ 1606.7 and 1606.16 should be granted. For the convenience of the public, these provisions are re-stated below.
