

PLANTING

A multi-season plant palette will enliven the space and offer different experiences by season. High canopy, broad-leafed trees such as Catalpa will cool shade in the summer. Strong fall colors for deciduous trees such as ginkgo and spicebush, among others, will complement the consistent colors and varied textures of evergreens, including Chinese juniper and sweetbay magnolia. Different varieties of winter blooming witch hazel and showy summer blooming plants such as fothergilla and golden raintree will also contribute to the sense that the landscape offers something special to see in every season.

Carpinus betulus 'Fastigiata'

Koelruteria paniculata

Hamamelis jelena

Viburnum rhytidophylloides

Catalpa speciosa

Ginkgo biloba

Magnolia virginiana 'Green Shadow'

Juniperus chinensis 'Torulosa'

Fothergilla x intermedia 'Mount Airy'

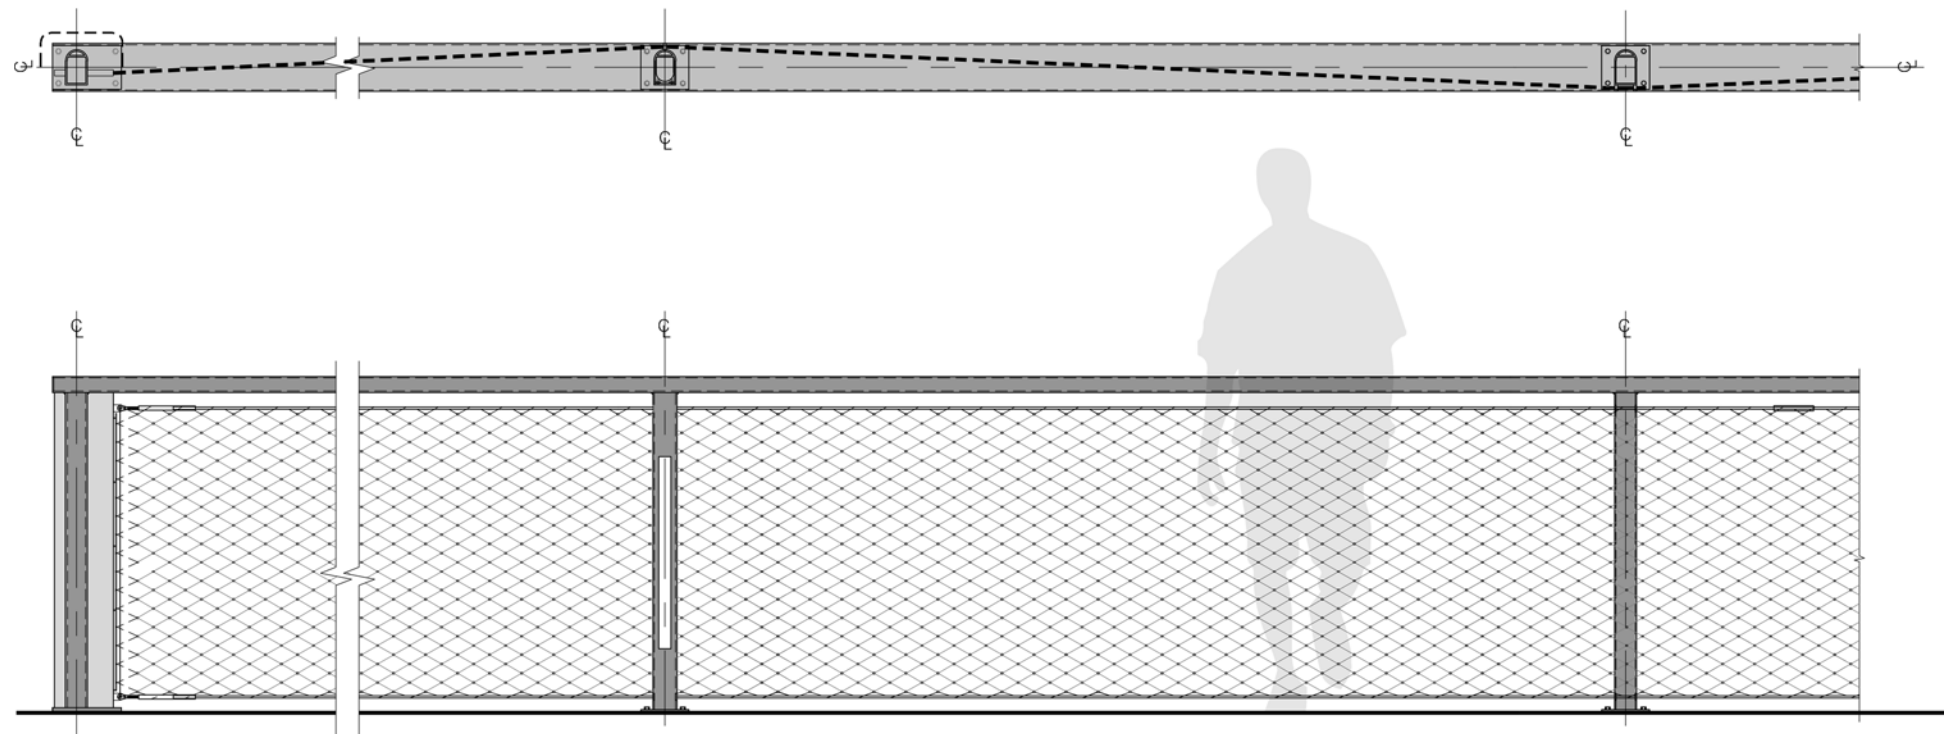

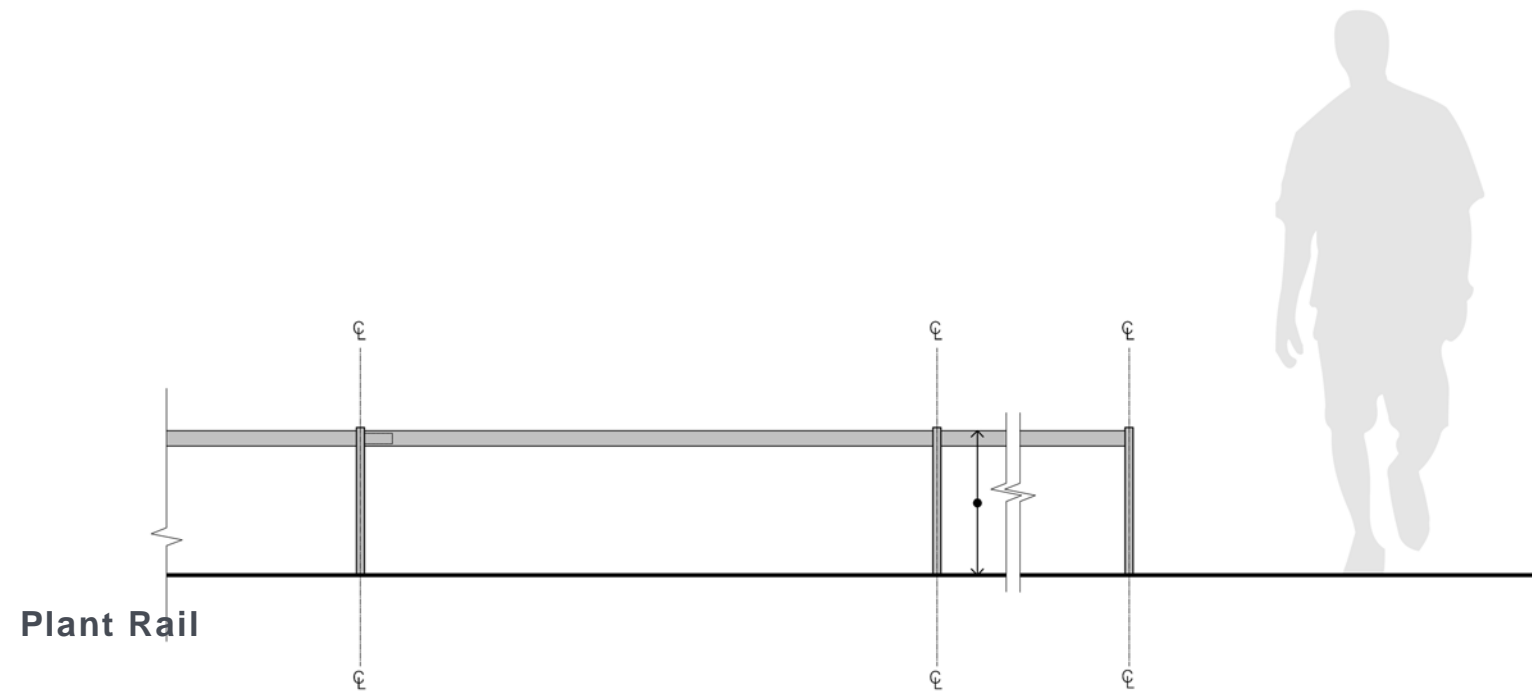

Hamamelis intermedia 'Arnold Promise'

Callicarpa americana

Lindera glauca

Guardrail at the Waters Edge

Light Pole

Litter and Recycling

Bike Rack

Precast Concrete Benches

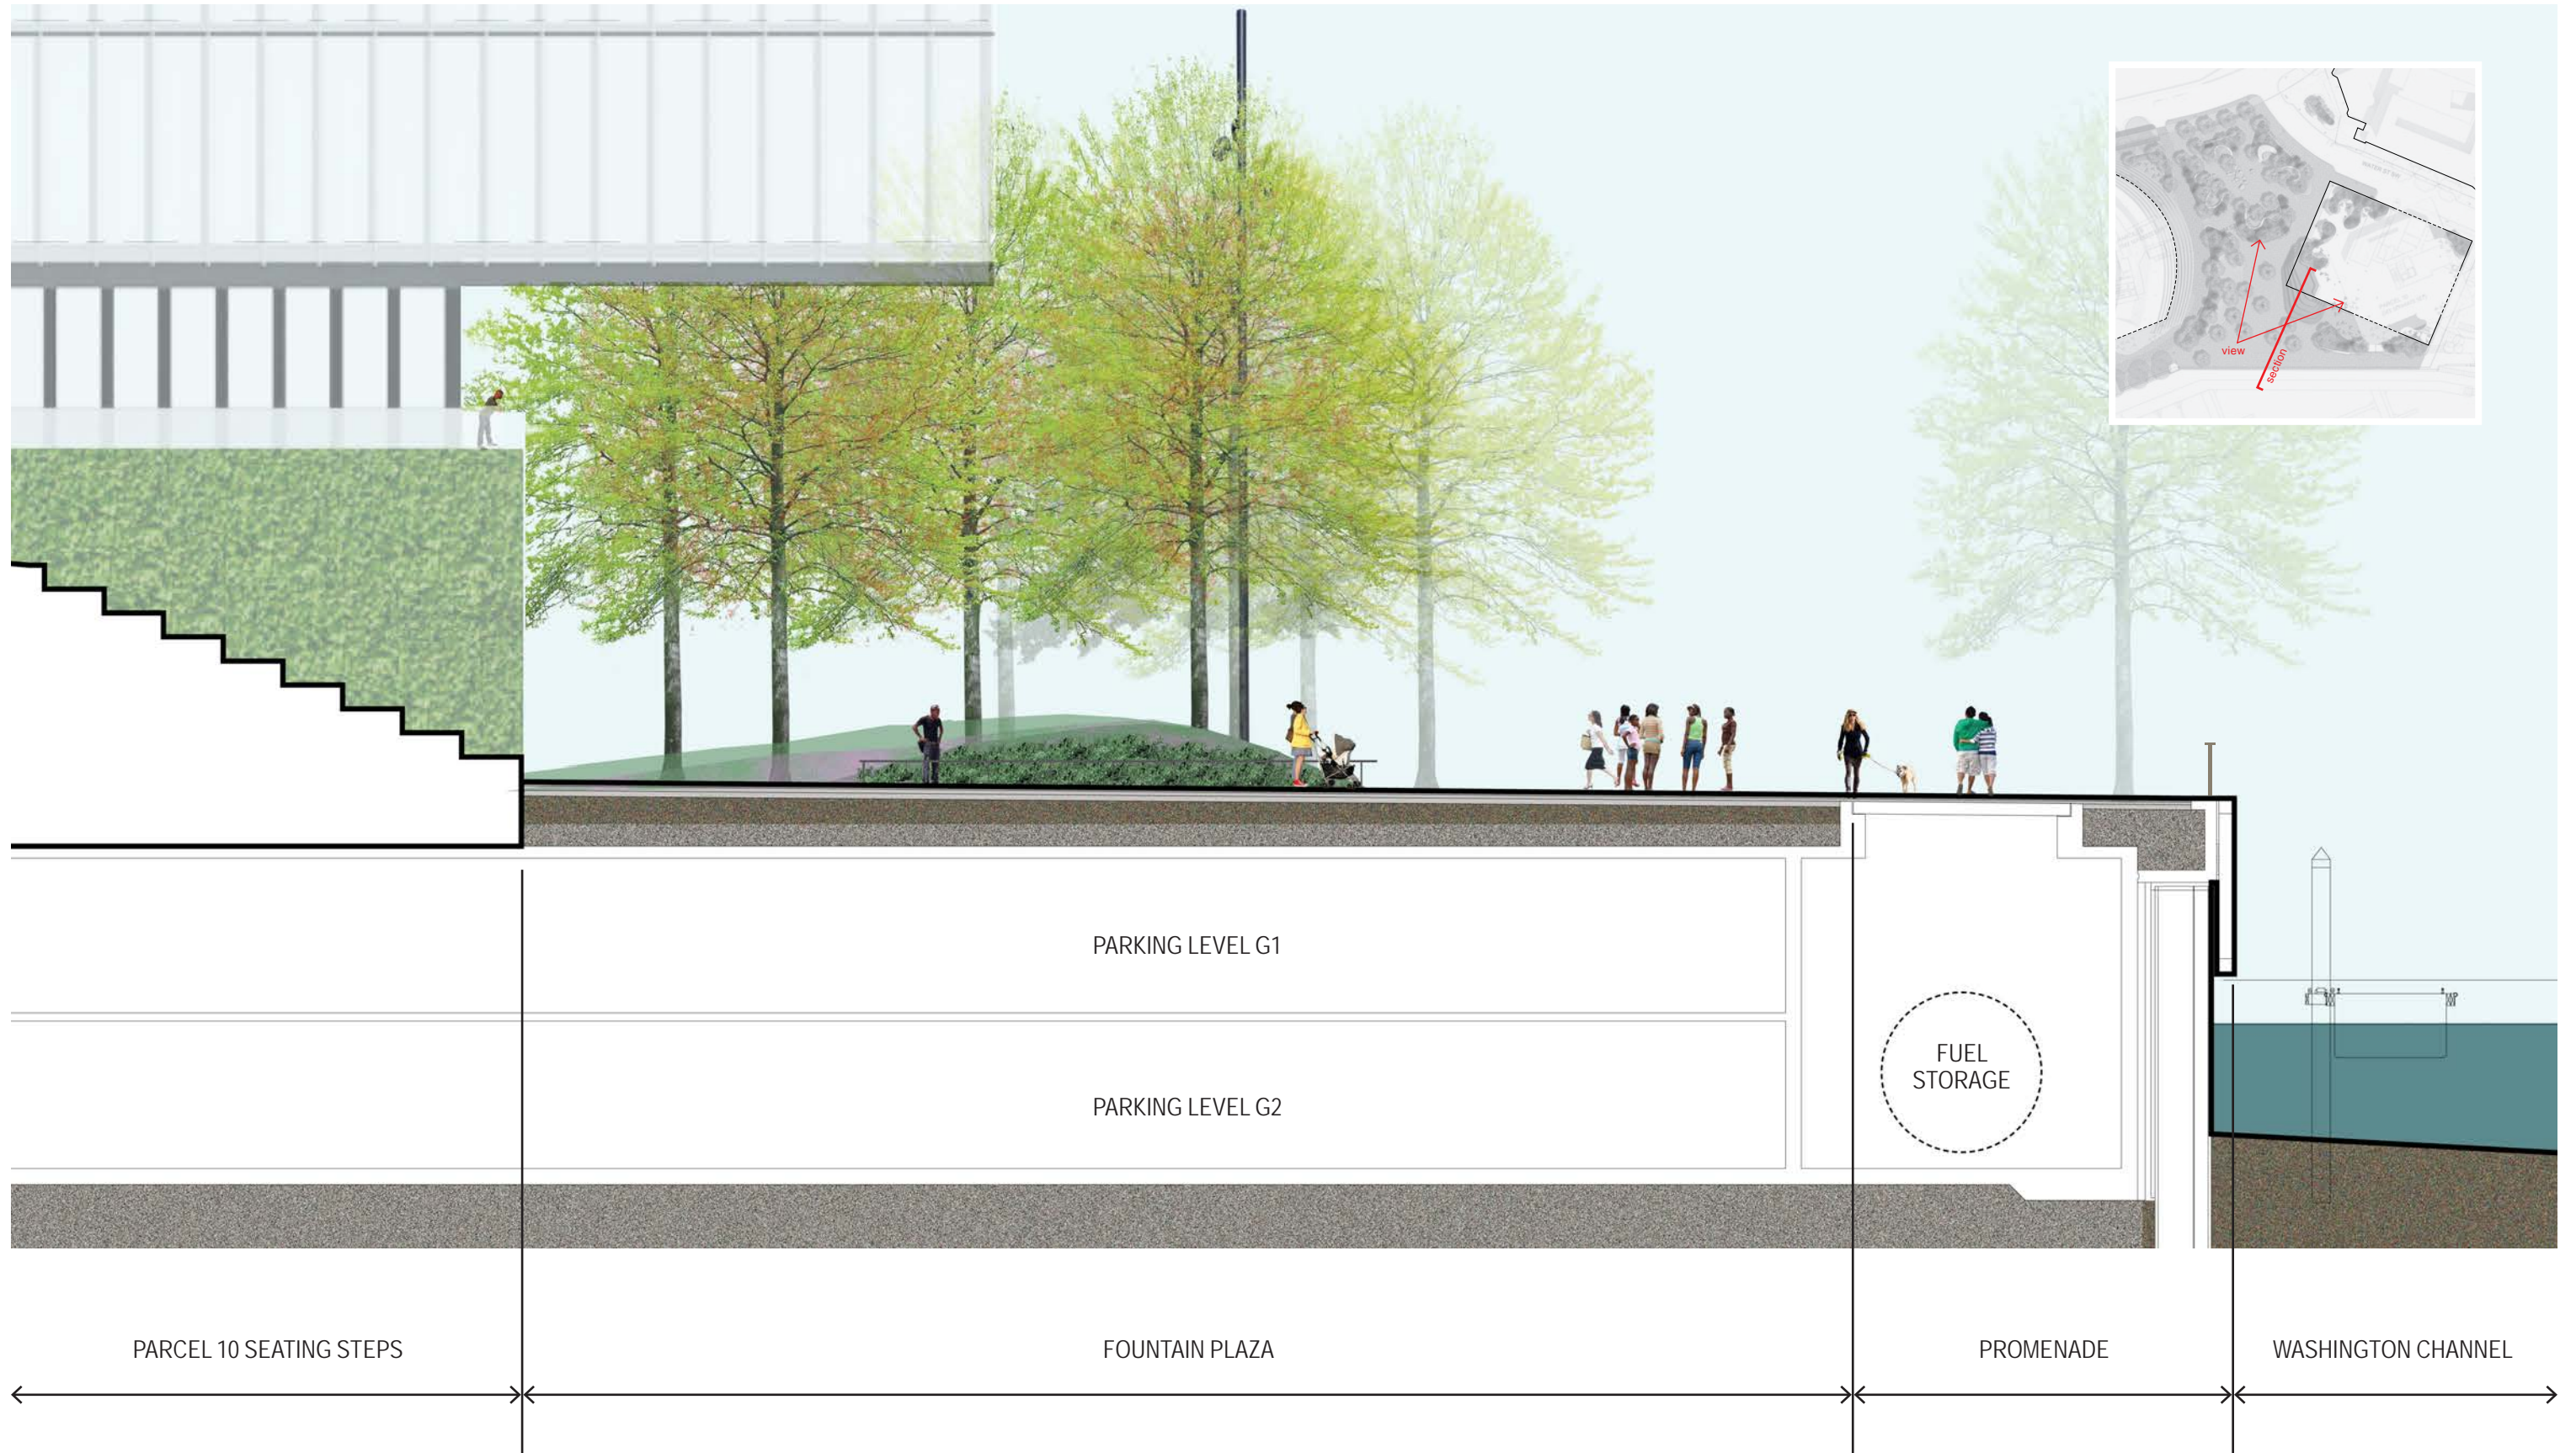

Bollard

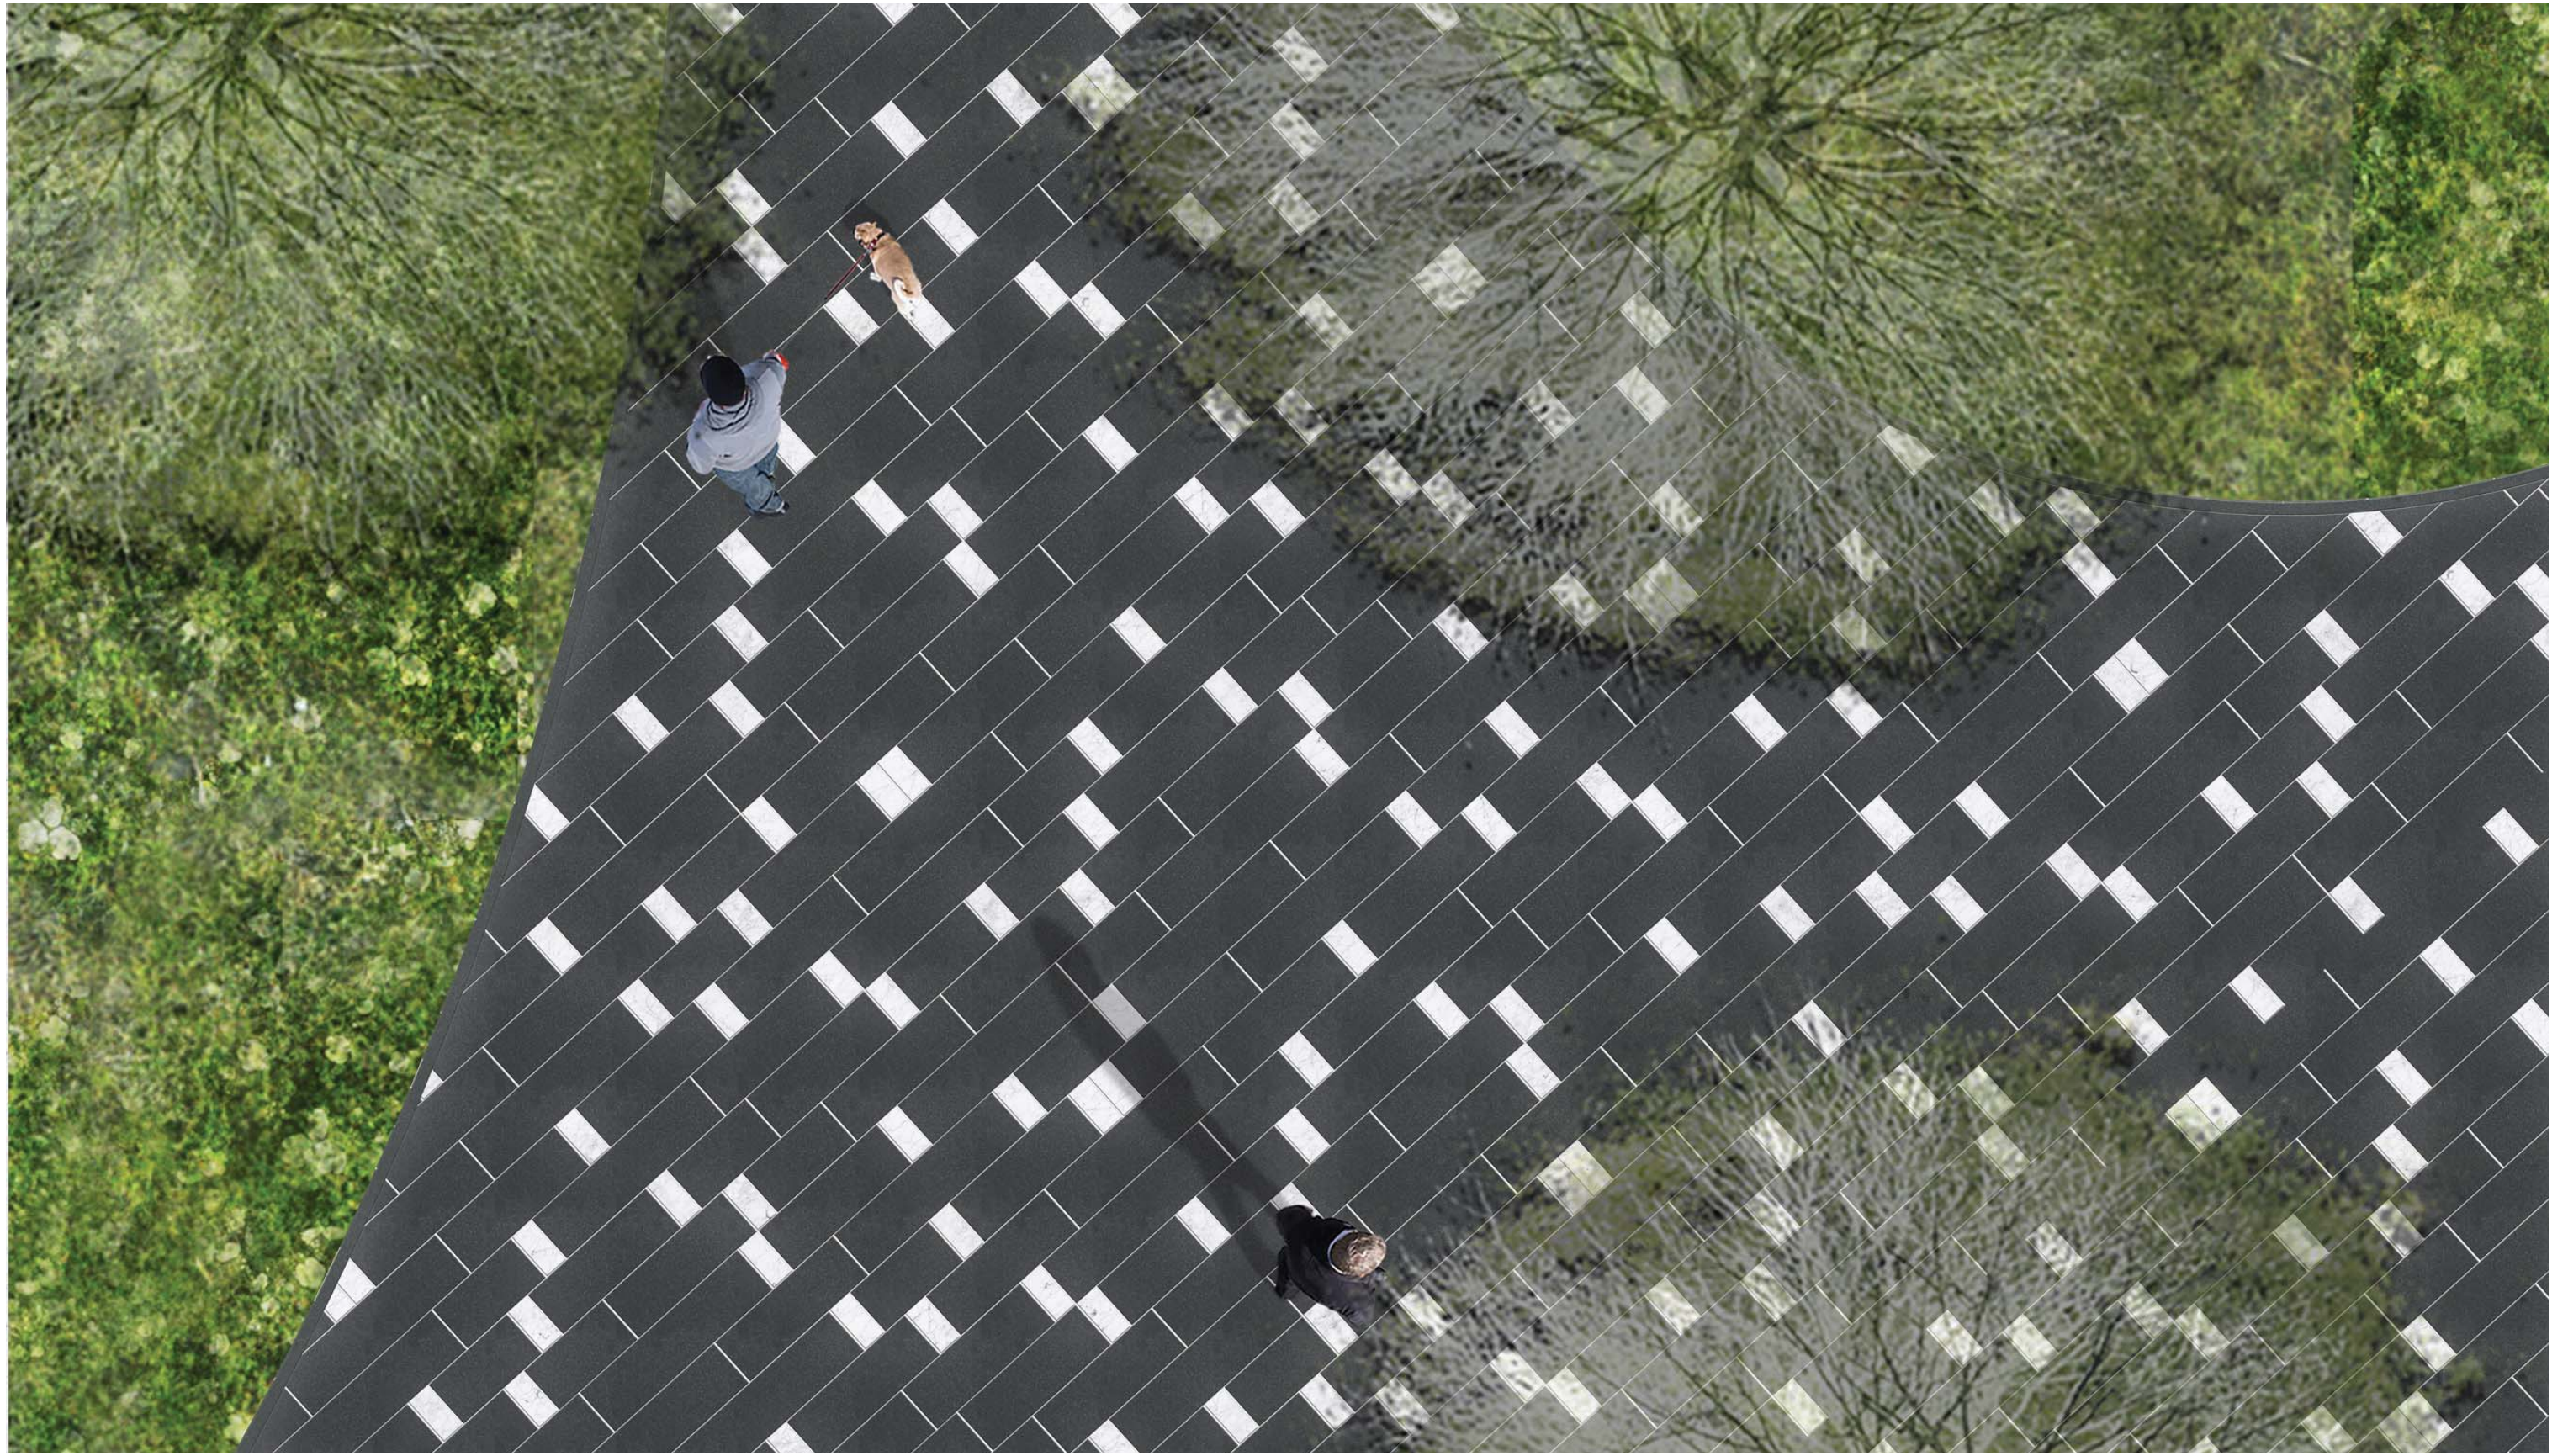

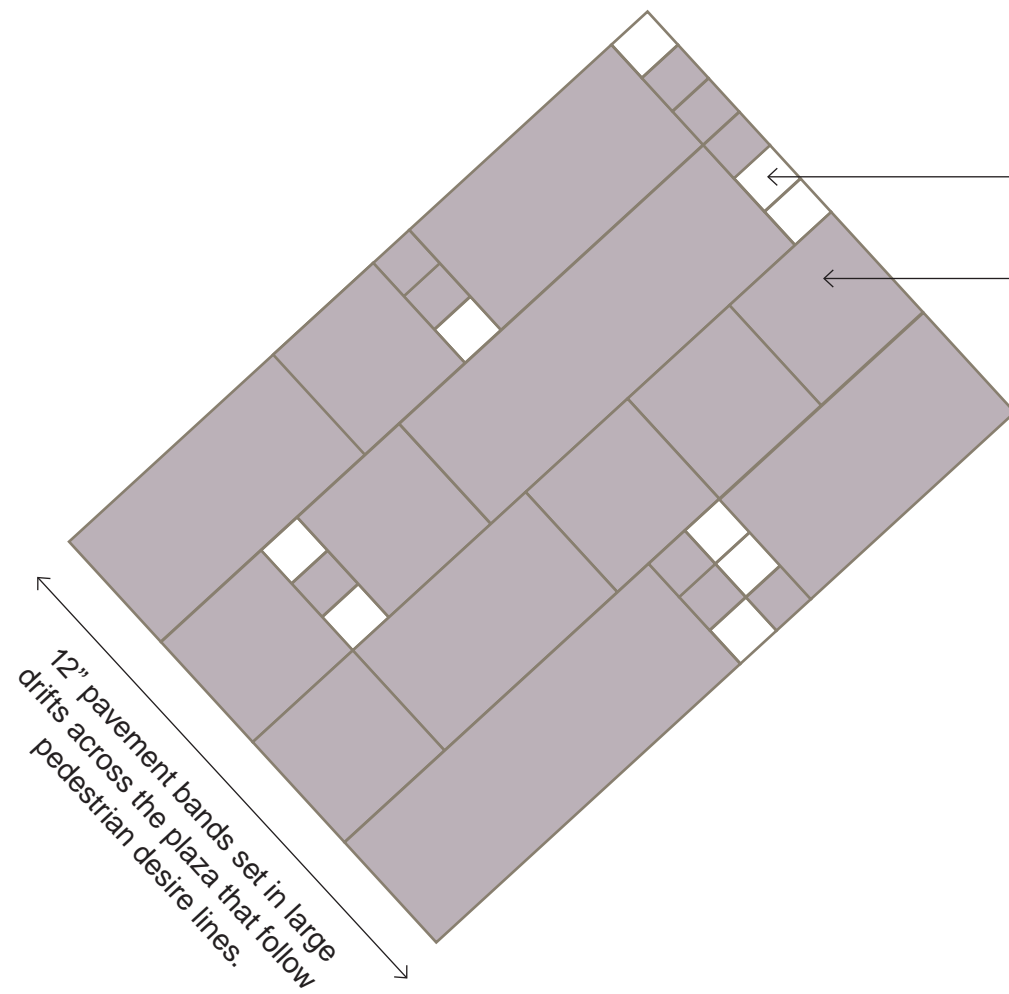

Capital Bikeshare

Movable Chairs and Tables

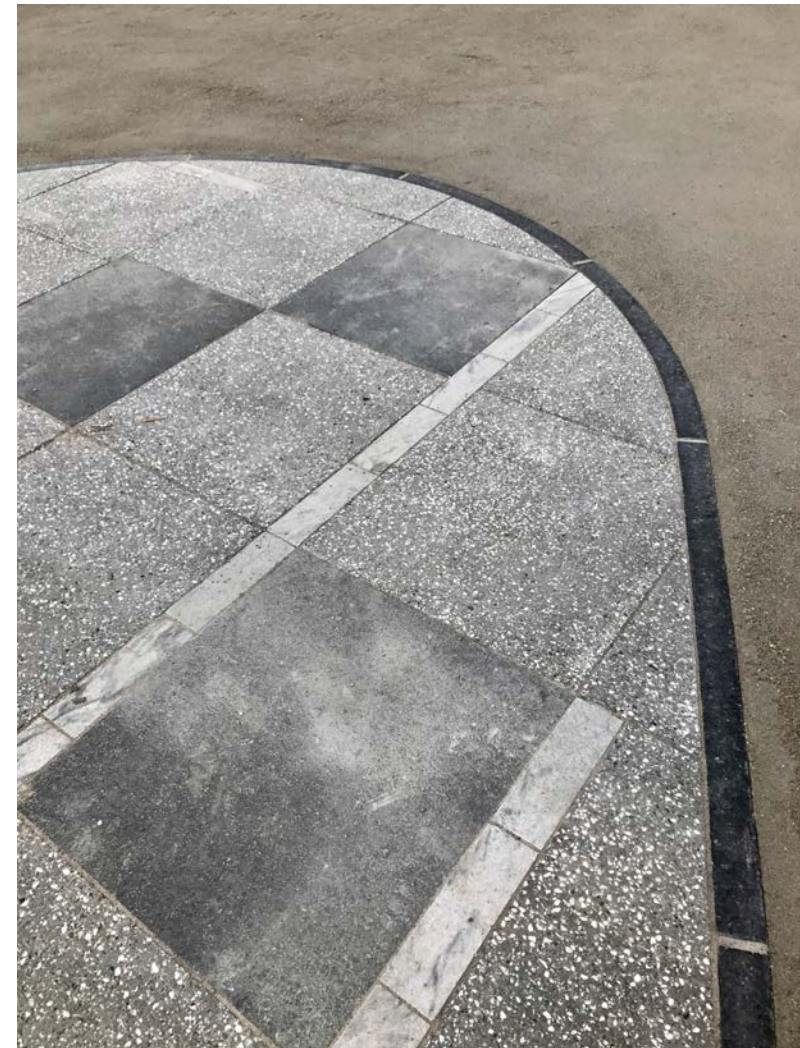

4"x4" Marble and Concrete Paver Setts

12"x12" Concrete Paver with custom aggregate mix. The concrete pavers would be fabricated in three different lengths (12"x12", 12"x24" and 12"x36").

PAVEMENT PRECEDENT

Concrete pavers with exposed aggregate finish complements the marble setts. The pavement is designed with a concrete base so that it is durable for high volume pedestrian and limited vehicular traffic.
