

Appendix 4: Capacity and Utilization of DCPS School Buildings Serving Students in SY2016-17

The following table shows the percent utilization of the full building for each DCPS school. This table also highlights the boundary participation rates and the percentage of in-boundary students enrolled at the school (see below for more details on how these measures are calculated).

School ID	School Name	School Address, SY16-17	Ward	Grades Served	Total Enrollment, SY16-17 ¹	Boundary Participation Rate, SY16-17 ²	% of In-Boundary Enrollment ³	Programmatic Capacity, SY16-17 ⁴	Utilization, SY16-17 ⁵
202	Aiton Elementary School	533 48th Place NE	Ward 7	PK3-5th	251	18%	42%	441	57%

Note: This appendix is organized at the building level and lists the multiple addresses associated with each school's unique ID defined by OSSE's School and LEA Information Management System (SLIMS).

Sources: OSSE audited enrollment, SY16-17 and the SY16-17 Master Facility Plan Annual Supplement.

¹ Total building enrollment includes all grades in the LEA in the facility.

² Boundary participation rate is the percent of grade-specific public school students living in each DCPS school's boundary who attend the school. The numerator is the number of in-boundary students attending the school and the denominator is all grade-specific public school students living in the boundary.

³ % of In-boundary enrollment is the number of students attending the school who live in the boundary divided by the enrollment as of SY16-17. The numerator is the number of in-boundary students attending the school and the denominator is the number of students enrolled at the school.

⁴ DCPS programmatic capacity reflects the maximum number of students that can be housed at the school building given the schools' existing educational programs, class size, and staffing. DCPS program capacities were developed by DGS, using consistent DCPS Educational Specification guidelines across all schools.

⁵ Utilization rates are total public school enrollment (all grades located in the building) divided by building capacity.

* Boundary Participation Rate and % of In-Boundary Enrollment only include zoned students and do not include the adult or selective portions of the school (i.e. does not include STAY or selective programs).

Appendix 3: PCS Building Enrollment and Program Capacity Serving Students in SY2016-17

The following table shows the location of each school's building, its total enrollment, and programmatic capacities.

Note: This appendix is organized at the building level and lists the multiple addresses associated with each school's unique ID defined by OSSE's School and LEA Information Management System (SLIMS).

Sources: OSSE audited enrollment, SY16-17 and the SY16-17 Master Facility Plan Annual Supplement.

¹ Total building enrollment includes all grades in the LEA in the facility.

² PCS programmatic capacity reflects the maximum number of students that can be housed at the school building given the schools' existing educational programs, class size, and staffing. PCS program capacities were self-reported by each public charter LEA for SY2016-17 in a survey administered by PCSB and developed in partnership with the DME. The response rate for the program capacity survey question was 95%.

³ Utilization rates are total public school enrollment (all grades located in the building) divided by building capacity.

*PCSB imputed the program capacity for the schools that did not respond to the survey by taking the reported program capacity for SY15-16.
