

DC Zoning Commission  
**Testimony of Gwen Southerland**  
 McMillan Park Reservoir  
 Case #: 13-14  
 May 1, 2014 (Continued on. May 27, 2014)

Good Evening Members of the Commission,

1. My name is Gwen Southerland I oppose this plan and I am asking the DC Zoning Commission to either reject the *Planned Unit Development Application*, for **CR and C-3-C zoning**, before you this evening! **If not, I would sincerely request an extension or continuation of this PUD Application, in order to allow unfettered input from the McMillan Advisory Group (MAG), the community group that was created to encapsulate community input and ideas regarding the development of McMillan.**
2. MAG's recommendations, on behalf of the community, have been notably under-represented in these Zoning Hearings. Particularly, the timeless hours that have been spent in crafting the Community Benefits Agreement has basically been ignored. To a certain extent, MAG has been blind-sided by a watered down version of a Community Benefits Agreement that has been or will be, presented to this Commission, by ANC 5E It is NOT the complete Agreement that was proposed by MAG. [*Note: I have submitted Version 8 of MAG's Community Benefits Agreement, dated April 23, 2014*] Hence, it is with this in mind that I would ask the DC Zoning Commission to reject or continue the Planned Unit Development Application, Number 13-14, for CR and C-3-C zoning, that is before this evening!
3. But first, *because some folks have labeled me a "Johnny come lately" to the McMillan conversation, I wish to offer a short litany of my community involvement with McMillan Park Reservoir, (an historic landmark on both, the District and national preservation registries).*
