The point -- an honest mistake happened when the original email was sent by Mark; for a moment, since he was a recent and former Commissioner of 5C, he probably noticed the acronym (5C02) instead of selecting 5E02. One thing about email transmissions from sent mailboxes-- they can't be altered without a change being noticed.

About the letter, VMP wrote it; since the motion was open ended and no friendly amendments occurred, VMP was allowed to write the letter for sign off.

Triumph is only a word when it lacks moral and honest substance.
