

DC Zoning Commission
441 4th Street NW, Suite 200 S
Washington, DC 20009

May 1, 2014 (*hand delivered at approximately 3:00pm*)

To our DC Zoning Commissioners,

My name is Daniel Wolkoff, and I am key participant with The McMillan Coalition for Sustainable Agriculture (MCSA).

Last Tuesday, April 22, our citizens group submitted Form 140 to be a party to ZC Case No. 13-14.

Our April 22 submission is labeled “Exhibit 42” on the record and was timely filed for the May 8th and May 13th hearings. However, our group also seeks party status for all hearings, including the one being held today.

Attached to this note is a set of documents which we submitted to OZ staffers yesterday, on April 30th, by both email and through IZIS that further supports our initial Form 140 and most importantly shows you that our membership has authorized Mr. Jerome Peloquin to represent in this case.

Despite our submission by email and on the IZIS system, this morning OZ staffers requested that MCSA representatives bring in 10 physical copies of our submission for Commission review.

The key documents attached are the authorization letters found in Appendix C, and the document called ZC Case No. 13-14 :: Form 140 Supplemental Information, which starts two pages after this cover letter.

We are asking for party status at all hearings for our small, but quite active non-profit citizens association which will be directly and uniquely affected by the proposed PUD application before you today.

Thank you,

Daniel Wolkoff
