To whom it may concern:

I am currently a resident of The Brookland Manor Apartments. I have been a resident for over five years. During this time, I have moved within the property three times, due to serious health issues. I moved to Brookland Manor, because of the spacious units they offered and also being a frequent visitor as a child at my aunts house, who live on the premises for many years. While loving many aspects of Brookland Manor like the space, management and clean buildings, I often wondered how long it would be before the new community would be built.

There was many nights
my children and I had
to duck, because we heard
gun shots, and many times
when we heard a saw
group fights take place.

However, over the past
several years I saw a
decline in violence and
loitering, since the county
has gotten more involved.

I look forward to
the new community being
built and our neighborhood
along with families being
restored. I only pray
that it would have
enough 3, 4, and 5 bedrooms
to accommodate those who
have them now. There
is a crucial need for
the new community to have
ample amounts of those
sizes. I also would like to
see more accessibility for
handicap. I use a power
wheelchair most of the time.

The sooner the community
is built the better for
all involved.

I am in favor of
this taking place and will
support my neighbors and
Brookland Manes.

Thank you,
Marilyn Garter
