Washington, DC 20001

Re: Z.C. Case No. 15-13 – Applicant’s Request to Accept Replacement Submission

Dear Chairman Hood and Members of the Commission:

The Applicant in the above-referenced case requests that the Commission accept the attached drawing into the record. The Applicant filed its post-hearing submission on May 12, 2016 in anticipation of the Commission’s public meeting on June 13, 2016.

In addition to other changes to the design of the project, the post-hearing submission included changes to the windows on the southernmost portion of the project facing the alleys. While all of the elevations accurately showed the new windows, one of the renderings mistakenly did not accurately show some of the new windows. The attached rendering shows the windows accurately, so the Applicant requests that the attached sheet be accepted to the record to replace that filed on May 12, 2016.

Because admitting this replacement sheet will merely correct an inaccurate rendering in the post-hearing submission, no party or person will be harmed or prejudiced.

Please do not hesitate to contact me if you have any questions.

Sincerely,

/s/ Cary Kadlecek  
Cary R. Kadlecek
