Advising: Research or Clinical

This refers to students whose projects the faculty has supervised as adviser, committee chair, or committee member (indicate role). The name of student, academic year(s) involved, and the name of institution if other than UMD should be indicated, as well as placement of the student(s), if the project is completed. List completed work first.

Master's**Kayla Hyatt**

2014-Present. UMD/MIAEH MPH Student. My role: Primary Advisor. I have provided her with mentoring on applying for scholarships and fellowships including the USEPA STAR fellowship and applying for PhD programs.

Sharon Hartzell

2015-Present. MS Student in Environmental Science and Technology. Advisor: Yonkos. My role: Committee member. I am a member of Sharon's Committee. Her project is entitled: *Quantifying contaminants in Baltimore Harbor sediment: Validation of novel analytical techniques and implications for risk assessment.*

Meleah Boyle

2013-Present. UMD MPH graduate in 2014. 2013-Summer 2014: Meleah was a MIAEH MPH Student. My role: I was on her MPH committee. I provided her with guidance on a project assessing potential public health impacts of hydraulic fracturing in the state of Maryland. I mentored her in how to perform community engagement, lead town hall meetings, and perform focus groups. I also was on Meleah's MPH committee. In her project, she assessed exposure to noise from compressor stations in West Virginia using community-engaged research approach. I mentored her performing community-engaged exposure assessment. Meleah is a co-author with me on 1 peer-reviewed conference presentation and a co-author on four papers in progress on fracking.

Sarah Pomerantz

2013-2015. BCH MPH Graduate. Advisor: Aldoory. My role: Committee Member. I am on Sarah's MPH committee. She is in Community Health at UMD. Sarah has assisted me with managing CEEJH activities including helping with the 2014 Symposium on Environmental Justice and Environmental Health Disparities in Maryland and Washington, DC. Her MPH project is entitled: *"Health-Related Information Behaviors of Environmental Action Gatekeepers: A Qualitative Study"*.

Leah Baskin

2013-2015. UMD/MIAEH MPH graduate. My role: I was Leah's MPH Advisor. I advised her on work with a local food justice coalition in Prince George's County. She moved from working with NIH to FDA. I mentored Leah during her Capstone project entitled: Potential Public Health Impacts of a Chicken Processing Plant In Delaware. I mentored Leah in performing community-engaged research. She is a co-author with me on a paper on environmental justice issues and industrial animal production.

Jon Washington

2013-2014. UMD MPH Student. My role: Primary Advisor.

Rebecca Braun

2012-2013: My role: I was a member of Ms. Braun's MPH committee. Her project was entitled: *Alcohol exposure in preterm infants in neonatal isolette.* She finished her MPH at MIAEH in 2013. She works as an environmental consultant.

Allyson Bailey 2011-2012: My role: Internship Site Advisor and Capstone committee member. I worked with Allyson as part of her internship placement with CEEJH. She assisted with program planning, STEM outreach, and development of an environmental justice and health disparities symposium in the state of Maryland. I also was on her MPH committee. She developed a Photovoice manual to address food justice issues as a product of her internship. She received her MPH from UMD-College Park in 2012. She is now Youth Opportunities Coordinator for City of Boulder, CO.

Emily Heinlein 2011-2012: My role: Capstone committee member. I worked with Emily as part of her capstone experience as an MPH student in the department of Epidemiology and Biostatistics in the University of Maryland-School of Medicine. She developed an environmental justice and health curriculum for high school students in the state of Maryland. She received her MPH in 2012. She now works in the Baltimore Medical System.

Rebecca Rehr 2012-Present. UMD/MIAEH Graduate in 2012 with MPH in Environmental Health Sciences. My role: Primary advisor. I was Ms. Rehr's MPH advisor, internship supervisor, and capstone director. I provided mentoring to Ms. Rehr on environmental justice and health research and policy. Ms. Rehr has presented at conferences and published papers with me including 2 peer-reviewed publications (one as primary author) and 5 peer-reviewed conference presentations. She completed an ASPPH/EPA Fellowship in 2013. She has worked with me as staff for the annual Symposium on Environmental Justice and Environmental Health Disparities Symposium in Maryland and Washington, DC. In her time at MEHN, we have collaborated on EJ and health problems in Baltimore and Prince Georges County, MD, worked together in the DMV EJ Coalition, and helped to revise a cumulative impacts bill.

Doctoral

Rianna Murray 2012-Present. UMD Doctoral Student. My role: Primary Advisor and Chair of Examination Committee. I advised Rianna during her MPH. She has worked with me on several research projects related to environmental justice and health issues in the Anacostia River region. She has presented at conferences and published papers as an advisee. She received her MPH in 2013. She is currently a PhD student on my team. I was the supervisor for her internship program. I was the Chair of her MPH committee. Rianna has been a co-author on 10 peer-reviewed conference presentations and a co-author on 6 peer-reviewed papers (one as primary author) with me. She has received several awards including APHA Student Travel Award, Dean's Fellowship, UMD Green Fund Fellowship; Delta Omega Inductee, GRID Poster Winner, and an UMD Travel Scholarship Award.

Kristen Burwell 2009-Present. UMD Doctoral Candidate. My role: Dissertation Advisor and Chair of her committee. I advised Kristen as a PhD student at the University of South Carolina and University of Maryland. She has worked with me on NIH funded projects in South Carolina including a research to action project with the Low Country Alliance for Model Communities in North Charleston, SC. She is a coauthor on over 30 peer-reviewed conference presentations including the annual APHA conference with me and also a co-author with me on 10 peer-reviewed publications (several as corresponding author and one as the primary author). I am the Chair of her PhD committee. She is developing and testing a new cumulative stressors index for populations impacted by environmental injustice and environmental health disparities. She has won several awards including the UMD Writing Fellow; APHA Travel Scholarship; UMD Conference Travel Award; and an UMD Doctoral Summer Fellowship (2015).

LaShanta Rice 2009-2014. USC PhD Graduate in 2014. Advisor: Brandt. My role Committee Member. LaShanta began working with me as a project coordinator on a NIEHS funded CBPR project with the Low Country Alliance for Model Communities in South Carolina (S Wilson-PI). She transitioned to become a research assistant. She has worked on several projects on environmental justice and environmental health disparities in South Carolina. She is a co-author on over 20 peer-reviewed conference presentations and a co-author on 7 peer-reviewed publications (2 as primary author) with me. She was also an APHA Environment Section Student Poster Award winner. I was also her EPA STAR Fellowship Advisor of Record and I was on her PhD committee. Her project was entitled: *Elucidating Perceived And Actual Cancer Risk In Disadvantaged Neighborhoods Differentially Impacted By Environmental Hazards To Inform Future Public Health Interventions.*

Post-doctoral
Chengsheng
Jiang

2011-2013. My role: Postdoctoral Advisor. Dr. Jiang worked with me as a postdoc for more than one year on environmental justice and health projects in Maryland and South Carolina. He has assisted on GIS mapping efforts in South Carolina, the Washington, DC region, and the nation. He worked with me on the development of EJRADAR, a PPGIS mapping tool for residents in South Carolina. Dr. Jiang is a co-author on 8 peer-reviewed publications with me and a co-author on nearly 25 peer-reviewed conference presentations with me. Due to his scholarship, he was promoted to research assistant professor in 2013.

Other Research Directions (K-12 Interactions)

Ben Grimes Summer 2015. Poolesville High School Student. My role: Internship advisor. Mr. Grimes worked on several projects including helping with pilot testing GIS mapping tools, using EJSCREEN for two health impact assessments (HIAs), and assisting with a subsistence fishing study focused on the Anacostia and Potomac Rivers.

Neha Soni 2013-2015. UMD Math major. My role: Internship Advisor. I mentored Ms. Soni during her time working as an intern with Elise Tolbert, an undergraduate summer intern (UMSTARS program) with the CEEJH program. She was at the time a Poolesville HS student. She worked with me on projects related to Anacostia water quality problems. She presented a poster and report for her global senior project. Since then, I have provided with informal guidance and educational development support.

Mentorship

Junior Faculty

Chengsheng Jiang 2013-Present. Research Assistant Professor, UMD. My role: informal mentor, assist with proposal development, career development and manuscripts.

Advising: Other than Research Direction

Undergraduate

Natalie Agee Summer 2015: Department: Environmental Science and Policy. My role: Internship Advisor. Natalie is a summer intern with me. She has assisted with field data collection for a subsistence fishing project focused on the Anacostia and Potomac Rivers, worked on two health impact assessments, helped with two manuscripts on fracking, assisted with my Latino Environmental Health Engagement Project, and worked on two papers for publication on soil contamination in Charleston, SC.

Aaron Aber Summer 2015. Department: Environmental Science and Policy. My role: Internship Advisor. Aaron is a summer intern with me through the National SocioEnvironmental Synthesis Center (SESYNC) Summer Internship Program. He has worked on my Latino Environmental Health Engagement Project, helped with two manuscripts on fracking, assisted on two health impact assessments, contributed to a manuscript on cumulative risk, and worked on a paper related to being both overburdened and underserved in Maryland.

Lionel Wilson Summer 2015: Department: Environmental Science and Policy. My role: Internship Advisor. Lionel is a summer intern with me. He has worked on two manuscripts related to industrial animal production in Maryland and South Carolina, and assisted in the development of two health impact assessments (HIAs).

Kamil Williams Fall 2014: Major: Government and Politics; interned in Fall 2014. My role: Internship Advisor. Worked on CEEJH projects including the annual CEEJH Environmental Justice Symposium.

- Carly Brody** Summer 2014-2015. Department: Environmental Science and Policy. My role: Internship Advisor. Carly was a summer intern with me through the National Socio-Environmental Synthesis Center (SESYNC) Summer Internship Program. She assisted with implementation of a survey to collect data on exposure and health risks for individuals who recreate on the Anacostia River. She assisted in Recreational Fishing Days related to subsistence fishing on the Anacostia. She also assisted with the CEEJH EJ Symposium and is a co-author on a peer-reviewed publication on environmental justice and industrial animal production.
- Pradnya Bhandari** Spring 2014-Fall 2014. Department: Environmental Science and Technology. My role: Internship Advisor, interning with me on CEEJH projects and helped with the public health impacts of fracking report.
- Elise Tolbert** Summer 2012-Present. Summer 2012 and Summer 2013: UMSTAR Program; Student at Tuskegee University; My Role: Internship Advisor. I was the advisor for Ms. Tolbert, undergraduate student at Tuskegee University, during her participating in the UM STARS summer internship program for two summers. I mentored her on performing environmental justice and health research in the Anacostia River Region. She received her BS in 2012. She received her MPH from the University of Michigan in 2015. I provided career development mentoring to Elise. She will be an ASPPH EPA Fellow in Fall 2015.
- Shaffa Mendscole** Summer 2013. UMSTAR Program; Student at Tuskegee University; Worked on Project CAESARR; performed research on fish exchange program concept.
- Udochi Ohiri** 2012-2013. UMD-Baltimore County Public Health graduate. Worked as research intern; student at University of Maryland-Baltimore County; worked on projects related to the Anacostia River and also assisted with research projects in South Carolina. She assisted with other CEEJH activities. She was a co-author on 3 peer-reviewed conference presentations and a co-author on several submitted manuscripts.
- Jamilah Giles** 2010-2014: USC MPH graduate. Ms. Giles participated in an environmental justice and health internship program that I ran at USC as an undergraduate student. She has worked on a NIEHS-funded CBPR project in Charleston, SC. She has presented at conferences and is a co-author on papers. She currently is a MPH student at the USC School of Public Health.

Lesley Joseph 2007-Present: Engineering undergraduate student at the University of South Carolina; I mentored Mr. Joseph on environmental justice and sustainability issues with a focus on climate change and African-Americans. He presented his research at conferences including APHA and is a co-author on several manuscripts (one published and 2 revise and resubmit requests). He was also co-author with me on 2 peer-reviewed conference presentations. He received his BS in 2011; he received APHA Environment Section Student Award; graduate student at Johns Hopkins University.

Master's

Juliet Perez 2015-Present. UMD/MIAEH MPH Student. My role: informal mentor. 2015Present. I have provided Juliet on guidance on securing her internship and developing her Capstone project. I am working with her with a team of advocates on engaging the Latino community in the Washington, DC region on environmental health and justice issues.

Allison Gost 2015-Present. UMD/MIAEH MPH Student. Advisor: Puett. My role: informal mentor. 2015-Present. I have provided Allison guidance on performing community-engaged research related to industrial animal production particularly chicken farming in the Eastern Shore of Maryland. I have helped her with engaging residents and advocates in the Eastern Shore. I am also advising her on expanding a health impact assessment of a chicken waste incinerator in the Eastern Shore and also will help co-advise her during her internship experience on poultry farming.

Matt Dernoga 2013-2014. MS in Policy from UMD. I have advised Mr. Dernoga on policy research related to disparities in allocation of Clean Water Act resources and watershed restoration grants in the state of Maryland. He is a co-author with me on 1 peer-reviewed publication (he is the primary author).

Shabda Bhujad 2009-2010. USC MS graduate. My role: Research Advisor on research assistantship. I provided mentoring to Shabda as part of a research assistantship. She received her Master's in Human Resources from Moore School of Business, University of South Carolina in 2010. She is a Business Intelligence Analyst at Pure Fishing.

Rahnuma Hassan 2009-2010. USC MSPH graduate. My role: Research advisor on research assistantship. PROFESSIONAL SUMMARY

Results-oriented College administrator and faculty talented at public speaking and presentation development. As the Special Assistant to the Dean of the College of Agriculture Urban Sustainability and Environmental Sciences (CAUSES) I have been successful at presenting business concepts in an organized and persuasive manner. Deadline-driven and highly motivated. Strategic communication is one area that I excel and use this talent to represent the college and the university in many litigation cases where I have been identified as the person with the most knowledge on a particular court case. Additionally, strategic communication skills become a priority when faced with budget shortfalls that require reduction in staff. This is an area that I successfully connected with each member of the faculty and staff to communicate the college vision and each of our role in this vision. The ability to manage the communications alleviates some of the anxiety that was felt campus-wide. Possess a strong work ethic, as well as exceptional writing, editing and research skills.

WORK HISTORY

Special Assistant to the Dean of CAUSES, 08/2006 to Current

University of the District of Columbia – 4200 Connecticut Ave NW Washington, DC 20008
Coordinate the activities of the academic programs and work side by side with the Chairs of the Department of Architecture and Urban Sustainability and the Chair of the Department of Health Nursing and Nutrition. Act in the absent of the dean to assure the date-to-date operation of the college is maintained. Represent the college to various university committees with respect the goals and objectives of CAUSES.

Provide strategic communication to the university community regarding our role as the land-grant function for the university. Represent the university in external meetings such as our regional accreditation agencies. Created interactive digital presentations for the dean to demonstrate the land grant function to the community via printed flyers, fact sheets, and college recruitment materials. Coordinated conferences hosted by the college that includes both local, regional, and international events. Coached managers and staff on communication tactics with staff and customers regarding recent organization changes.

Director of Clinical Operations, 06/1995 to 07/2005

Mt. Washington Pediatric Hospital – 1708 W. Rogers Ave Baltimore, MD 21209

Responsible for the oversight of the Departments of Respiratory Therapy, Pharmacy, Medical Laboratory, and Medical Radiography within this pediatric specialty hospital for children with special needs. Developed and managed communications strategies, plans and budgets as we move each of these departments from one that was outsourced to one that is managed internally and the employees became hospital employees. This required effective communication strategies to allay the fears of employees who may be in jeopardy.

House Supervisor for Respiratory Therapy, 01/1984 to 06/1995

Children National Medical Center – 111 Michigan Ave NE Washington, DC 20010

As house supervisor for the respiratory therapy department, my role was to coordinate the activities of the respiratory

therapist working the evening and night shifts to assure quality patient care. This often time meant that I coordinated

and communicated vital information to staff received from either the head nurse or physician in charge of the shift.

During the evening and night shift the need for effective communication is paramount to good patient care.
