PUD CHECKLIST

SECTION	ITEM	SHEET NUMBER	SECTION	ITEM	SHEET NUMBER
2406.11(a)	Complete application form(s)	In Written Application	2406.12(a)	Complete application form(s)	In Written Application
2406.11(b)	Map showing the location of the proposed project, the existing zoning for the subject site, the zoning of adjacent properties, and any proposed change of zoning	A1.03, A1.04	2406.12(b)	Detailed statement as to the uses to be located in the project, including the location, number, size, & types of stores, offices, residential, institutional, industrial, & other uses	In Written Application
2406.11(c)	Statement of the purposes & objectives of the project, including the proposed form of development & a detailed statement elucidating how the application meets the PUD evaluation standards in Section 2403	In Written Application	2406.12(c)	Detailed site plan, showing the location & external dimensions of all buildings & structures, utilities & other easements, walkways, driveways, plazas, arcades, & any other open spaces	C7.03
2406.11(d)	General site, landscape, & development plan indicating the proposed use, location, dimensions, number of stories, & height of each building, & the exact area of the total site	C7.03	2406.12(d)	Detailed landscaping & grading plan, showing all existing contour lines, including graphic illustration of grades exceeding 15% in 5% increments, landscaping to be retained, grades, planting, & landscaping. The plan shall also show the proposed drainage for the site, including the location of buildings, roads, sidewalks, water & sewer lines, inlets, & basins, & connections to public water & sewer lines. Proposed erosion control measures shall also be shown	L6.01, L6.02, L6.03 C7.03
2406.11(e)	Tabulation of development data showing the following:		2406.12(e)	Typical floor plans & architectural elevations for each building, sections for each building & the project as a whole, & sections & elevations of the entire square within which the project is located	A3.01 – A5.02
	(1) Area & dimensions of each lot proposed for each building & the exact area of the total site	A1.06, C7.03			
	(2) Percentage of lot occupancy of each building on each lot & the total percentage of lot occupancy for all buildings on the entire site	A1.06			
	(3) Gross floor area & floor area ratio for each building on each lot, including a break-down for each use, & the total gross floor area & floor area ratio for all buildings on the entire site, including a breakdown for each use	A1.06			
	(4) Circulation plan, including the location of all vehicular & pedestrian access ways & the location & number of all off-street parking spaces & loading berths, including an indication of which spaces are designated for which use	A3.01, T8.01 – T8.14			
	(5) Existing topography of the development area; the location of all major natural features, including trees of six-inch caliper or greater; & the location & elevations of public or private streets, alleys, or easements bounding or traversing the site, including an indication of which of the rights-of-way or easements are to be continued, relocated, or abandoned	C7.01			
	(6) Estimated quantities of potable water required by the project, & of sanitary sewage & storm water to be generated, including the methods of calculating those quantities	C7.04			
(7) Other information needed to understand the unique character & problems of developing the PUD	LEED A1.08	2406.12(f)	Final detailed circulation plan showing all driveways & walkways, including widths, grades, & curb cuts as well as detailed parking & loading plans	C7.03, T8.01 – T8.14	
		2406.12(g)	Other information needed to understand the final design of the proposal, or information specifically requested by the Commission	A2.01 – A2.06	
		2406.12(h)	Statement showing how the second-stage plans are in accordance with the intent & purposes of this title, the PUD process, & the first-stage approval	N/A this is a consolidated PUD application

The project will incorporate sustainable design criteria to target LEED® for New Construction and Major Renovations (LEED-NC) 2009 certification at the Gold level. LEED certification at the target level requires compliance with the Minimum Program Requirements, all Prerequisites and between sixty (60) and seventy-nine (79) points. This scorecard projects points targeted to achieve certification at the Gold level. The applicant reserves the right to substitute credits/points to meet the threshold for Gold (60 points), should any of the above projected points not be feasible to pursue as the project advances through design and construction.
