Please Sign the Petition Help Stop The Proposed Development of Wardman Marriott Site in Heart of Woodley Park

Development Proposal is Too Much, Too Fast

On June 24th, 2016, JBG Companies, the development company that owns the Marriott Wardman Park Hotel in Woodley Park, submitted a 2-phased proposed application to the DC Zoning Commission (DCZC) for a massive new residential development on the current 16-acre hotel site and surrounding open space.

The first phase of the Planned Unit Development (PUD 1) calls for a 9-story luxury residential building on 2.4 acres of open space along Woodley Road in front of the Marriott Hotel entrance and across from Aidan Montessori School and the newly built Woodley Apartments. The building would span the entire open area end to end and would provide no additional pass through.

The second phase application (PUD 2) calls for demolishing the Marriott Hotel and building four (4) ADDITIONAL residential buildings totaling 1.6 million square feet which, when combined with the phase 1 building, would potentially **increase Woodley Park's population by at least 4,000 residents**. The current population of Woodley Park is approximately 7,500. JBG is asking the DCZC to approve a detailed PUD 1 application and at the same time a notional and speculative PUD 2 application, a piecemeal approach that is detrimental to the Woodley Park community.

- The community urges the Office of Planning to recommend that the DCZC reject JBG's application and undertake development of a Small Area Plan (SAP) allowing for 360 degree planning appropriate for a large complex site adjacent to a metro.
- JBG's proposal converts an area currently zoned moderate density to a high density zone that would destroy the surrounding neighborhood. JBG proposes to build additional luxury units that would not fit into the current neighborhood character, which is a family neighborhood with schools and open space.
- JBG's proposal drastically reduces the remaining green space while dramatically increasing population pressure on nearby Oyster Elementary School, the one entrance to metro, increasing vehicle traffic and increasing pressure on drainage.

Neighbors! We Can Do Better Than THIS!

We Need Your Help to Stop JBG's Massive Development:

- ✓ Sign this petition rejecting JBG's PUDs and demanding a SAP be developed. **Please leave the signed petition in the box for Apt. 209.**
- ✓ Speak to your neighbors to help get the word out about JBG's plans.
- ✓ Call or email Council Member Mary Cheh (724-8062; mcheh@dccouncil.us) to express your opposition to the PUD 1.
- ✓ Email the DC Office of Planning (DCOZ@dc.gov) to urge an SAP be developed.

The first phase of the Planned Unit Development (PUD 1) calls for a 9-story luxury residential building on 2.4 acres of open space along Woodley Road in front of the Marriott Hotel entrance and across from Aidan Montessori School and the newly built Woodley Apartments. The building would span the entire open area end to end and would provide no additional pass through.

The second phase application (PUD 2) calls for demolishing the Marriott Hotel and building four (4) ADDITIONAL residential buildings totaling 1.6 million square feet which, when combined with the phase 1 building, would potentially **increase Woodley Park's population by at least 4,000 residents**. The current population of Woodley Park is approximately 7,500. JBG is asking the DCZC to approve a detailed PUD 1 application and at the same time a notional and speculative PUD 2 application, a piecemeal approach that is detrimental to the Woodley Park community.

- The community urges the Office of Planning to recommend that the DCZC reject JBG's application and undertake development of a Small Area Plan (SAP) allowing for 360 degree planning appropriate for a large complex site adjacent to a metro.
- JBG's proposal converts an area currently zoned moderate density to a high density zone that would destroy the surrounding neighborhood. JBG proposes to build additional luxury units that would not fit into the current neighborhood character, which is a family neighborhood with schools and open space.
- JBG's proposal drastically reduces the remaining green space while dramatically increasing population pressure on nearby Oyster Elementary School, the one entrance to metro, increasing vehicle traffic and increasing pressure on drainage.

Neighbors! We Can Do Better Than THIS!

We Need Your Help to Stop JBG's Massive Development:

- ✓ Sign this petition rejecting JBG's PUDs and demanding a SAP be developed. **Please leave the signed petition in the box for Apt. 209.**
- ✓ Speak to your neighbors to help get the word out about JBG's plans.
- ✓ Call or email Council Member Mary Cheh (724-8062; mcheh@dccouncil.us) to express your opposition to the PUD 1.
- ✓ Email the DC Office of Planning (DCOZ@dc.gov) to urge an SAP be developed.

Please Sign the Petition Help Stop The Proposed Development of Wardman Marriott Site in Heart of Woodley Park

Development Proposal is Too Much, Too Fast

On June 24th, 2016, JBG Companies, the development company that owns the Marriott Wardman Park Hotel in Woodley Park, submitted a 2-phased proposed application to the DC Zoning Commission (DCZC) for a massive new residential development on the current 16-acre hotel site and surrounding open space.

The first phase of the Planned Unit Development (PUD 1) calls for a 9-story luxury residential building on 2.4 acres of open space along Woodley Road in front of the Marriott Hotel entrance and across from Aidan Montessori School and the newly built Woodley Apartments. The building would span the entire open area end to end and would provide no additional pass through.

The second phase application (PUD 2) calls for demolishing the Marriott Hotel and building four (4) ADDITIONAL residential buildings totaling 1.6 million square feet which, when combined with the phase 1 building, would potentially **increase Woodley Park's population by at least 4,000 residents**. The current population of Woodley Park is approximately 7,500. JBG is asking the DCZC to approve a detailed PUD 1 application and at the same time a notional and speculative PUD 2 application, a piecemeal approach that is detrimental to the Woodley Park community.

- The community urges the Office of Planning to recommend that the DCZC reject JBG's application and undertake development of a Small Area Plan (SAP) allowing for 360 degree planning appropriate for a large complex site adjacent to a metro.
- JBG's proposal converts an area currently zoned moderate density to a high density zone that would destroy the surrounding neighborhood. JBG proposes to build additional luxury units that would not fit into the current neighborhood character, which is a family neighborhood with schools and open space.
- JBG's proposal drastically reduces the remaining green space while dramatically increasing population pressure on nearby Oyster Elementary School, the one entrance to metro, increasing vehicle traffic and increasing pressure on drainage.

Neighbors! We Can Do Better Than THIS!

We Need Your Help to Stop JBG's Massive Development:

- ✓ Sign this petition rejecting JBG's PUDs and demanding a SAP be developed. **Please leave the signed petition in the box for Apt. 209.**
- ✓ Speak to your neighbors to help get the word out about JBG's plans.
- ✓ Call or email Council Member Mary Cheh (724-8062; mcheh@dccouncil.us) to express your opposition to the PUD 1.
- ✓ Email the DC Office of Planning (DCOZ@dc.gov) to urge an SAP be developed.
