Subject: In Support of Valor

December 5th, 2017

Dear Sir or Madam,

I am writing in support of the Ladybird project. I have lived in Spring Valley for almost 10 years and can say that we desperately need a grocery store. I used to shop at the Super fresh one and although I wasn't completely please with the selection, it was the best option for me proximity wise. I have seen the latest designs and think Valor has done a good job keeping in line with the character of the neighborhood. I understand that the traffic will be the same if not better than when Superfresh was there and the rentals are not a concern of mine. My family moved into the city to be near amenities that we could walk to and enjoy.

I hope that the Zoning Commission allows the project to go forward so that we can all enjoy this new addition to our neighborhood.

Thank you,

Erin Sullivan
