

Greetings All,

As a resident of 1406 22nd Street SE Unit A Washington, DC 20020 I am in support of rezoning the vacant lot. The property is located at 1401 22nd Street SE Washington, DC, It is a prime location to develop needed housing for current and future residents of the District of Columbia. This lot is located in a community of seniors, families, churches, schools, day cares centers. In addition to the mentioned stakeholders, this lot is steps away from the beautiful and enhanced Anacostia Park.

Anacostia Park is playground, safe haven, and fitness arena for the Ward 8 community. As a resident, who resides footsteps from the park entrance, I witnessed: Orr Elementary School staff escorting school age children to the park with soccer balls, neighbors walking their dogs, and I have also witnessed other DC residents from other quadrants of the city visiting the park to take walks, jog, BBQ, and other various activities and events in the historic Anacostia Park.

Please preserve our 'Fairlawn Community' and remember "The Nacotchtank Native Americans were the first settlers to inhabit the area now known as Fairlawn, living and fishing along the nearby Anacostia River." With that being said, we must embrace and respect the history of our neighborhood, and honor our founders. We are obligated to implement productive expansion of community, while growing together as one.

Rezoning this lot is the key to moving the "Fairlawn Community" forward. The residents, alongside community stakeholders, are requesting residential zoning for this exquisite lot!

#wemuststandupnow #homesforus #DCCares

Sincerely,

Robin Henderson
