I am OPPOSED to zoning changes that would approve matter-of-right uses for community solar facilities in residential areas , i.e. Subsection 1103.1 of 1103. This appears to eliminate my right ,as a resident who could be affected by the establishment of a solar array in my neighborhood, to contest adverse environmental impact issues and have them considered before any zoning changes are approved or disapproved. This appears to give industry vendors "carte blanche" in residential areas- the residents would have NO voice.

Thank you for your consideration.

Sheila D. White
