District of Columbia Zoning Commission
441 Fourth Street, N.W., Suite 200-S
Washington, DC 20001

Dear Zoning Commissioners,

Enclosed are signatures of adults residing in the District of Columbia, who are informed about the proposed text amendments under Zoning Commission (ZC) No. 19-04.

They are opposed to the Office of Planning's proposed text amendment under ZC No. 19-04 . They wish to maintain their current rights under the Board of Zoning Adjustments (BZA) to voice their concerns about solar projects through the established BZA process.

Thank you for considering their position in your decision.

We, the undersigned, are opposing the Office of Planning's proposed text amendment in Case No.19-04. The proposed amendment would permit Community Solar Facilities as a matter-of-right in NEARLY all zones for 2.5 acres. We oppose these changes and want to maintain all existing rights for productive input.

If the proposal is APPROVED, Community Solar Facilities would proceed without any Board Of Zoning Adjustment review or neighborhood input as currently allowed.
