This letter is related to the Office of Planning and the proposed text amendment in case no.19-04. I am totally opposed to the amendment which would permit Community Solar Facilities as a matter of right use in nearly all zones throughout the city.

Additionally, the Board of Zoning and residents would loose the right to voice concerns.

From the perspective of a citizen, a long time resident and homeowner, I find the proposal to be extremely disturbing. My intentions are to remain in my home indefinitely. I take pride in my neighborhood and surrounding community. As a tax paying resident in the nation's capital, where **taxation without representation** is the law, the proposal inflicts additional *outrage and pain*.

My voice and the voices of other citizens should be considered as **pertinent** as any developer, entity or city official in decisions which impact all of us.

Sincerely,
Karen L Dumas
