RE: 1333 M St PUD Application; Zoning Commission Case 20-06

I respectfully offer the following GENERAL COMMENTS:

1. I want to thank the AND6B commissioners and the resident members who serve on its Planning and Zoning Committee for their overwhelming support of our "Friends of Capitol Hill Adult Day Center" proposal as a public benefit in this PUD.
2. I strongly support the need for an Adult Day Center with memory care in Ward 6. Ward 6 is home to 11,000 seniors, a population that is growing as more seniors, either through financial, health, or life choices, desire to remain in their homes and their community. We need an Adult Day Center very badly.
3. I ask the Zoning Commission to support the Capitol Hill Village proposal to provide funds to start the development of this urgently needed Adult Day Center. I believe this proposal is appropriate given the significant "ask" the developer is making of the city and Ward 6.

Thank you for the opportunity to comment.
