-  Potential Retail signage placement area to be designed in accordance with DC Code and sign regulations
-  Potential Residential signage placement area to be designed in accordance with DC Code and sign regulations

RESIDENTIAL SIGNAGE I GUIDELINES

1. The permanent signage for the residential portion of the project will be developed along with the design of the building residential entrance. The sign will be part of a cohesive building identity and branding effort.
2. All permanent signage is to be of the highest quality construction. Signs may be lighted, including LEDs or comparable technology. Illumination and materiality of the signage will be complementary to the design of the building.
3. The permanent signage identifying the residential portion of the project will be restricted to the area around the building entrance on P Street, NW, as identified on the plans. Sign area will be regulated by the DC Construction Codes (12 DCMR).

Nothing herein will be construed to preempt any local or federal code or regulation.

RETAIL SIGNAGE I GUIDELINES

Retail tenants will be required to submit their signage and storefront designs to the owner for review and approval prior to applying for permits from the District. The owner will regulate the external design and appearance of the retail tenants in a manner so as to preserve and maintain the design integrity of the building.

1. Retail tenants will be encouraged to create individual designs for their storefronts and signage.
2. Retail signage and storefronts will be comprised of materials and colors that complement the materials and design of the base building.
3. Retail signage will be permitted based on tenant needs.
4. Retail tenants may employ a wide variety of building materials in the design of their storefront and signage such as glass, masonry, stone, decorative metal, stucco, tile, etc. However, tenants will be required to use high quality materials, as determined by the owner.
5. Sign area will be regulated by the DC Construction Codes (12 DCMR).
6. Signage and storefront illumination is encouraged by owner so long as building design integrity is maintained. Illumination will be acceptable per owner approval and in accordance with local regulations.
7. The locations of doors and windows for retail tenants will be established as part of the storefront design. However, doors and windows to base building areas (such as lobbies, exit stairs and service areas) will be established by the owner during base building design. Tenants will be encouraged to make efforts to integrate the existing building and character into the design of the storefronts.

Nothing herein will be construed to preempt any local or federal code or regulation.

OFFICE OF THE SURVEYOR

Washington, D.C., July 22, 2020

Plat for Building Permit of: SQUARE 445 Lots 191 - 194, 800 & 821 - 822

Scale: 1 inch = 20 feet

Recorded in Book 34 Page 160 (Lots 191 - 194)
Book A & T Tracing Page 445 (Lot 800)
Book A & T Page 918 (Lots 821 - 822)

Receipt No. 20-06049 Drawn by: A.S.

Furnished to: BRIAN J. RUHL

"I hereby certify that the dimensions and configuration of the lot(s) hereon depicted are consistent with the records of the Office of the Surveyor unless otherwise noted, but may not reflect actual field measurements. The dimensions and configuration of A&T lots are provided by the Office of Tax and Revenue and may not necessarily agree with the deed description(s)."

For Surveyor, D.C.

I hereby certify that on this plat on which the Office of the Surveyor has drawn the dimensions of this lot, I have accurately and completely depicted and labeled the following:

- 1) all existing buildings and improvements - including parking spaces, covered porches, decks and retaining walls over four feet above grade, and any existing face-on-line or party wall labeled as such, well as projections and improvements in public space - with complete and accurate dimensions;
- 2) all proposed demolition or raze of existing buildings duly labeled as such; all proposed buildings and improvements - including parking spaces, covered porches, decks and retaining walls over four feet above grade, any existing face-on-line or party wall labeled as such, as well as projections and improvements in public space and the improvements used to satisfy previous surface or green area ratio requirements - with complete and accurate dimensions, in conformity with the plans submitted with building permit application _____; and
- 3) any existing chimney or vent on an adjacent property that is located within 10 feet of this lot.

I also hereby certify that:

- 1) my depiction on this plat, as detailed above, is accurate and complete as of the date of my signature hereon;
 - 2) there is no elevation change exceeding ten feet measured between lot lines; or if so, this elevation change is depicted on a site plan submitted with the plans for this permit application;
 - 3) I have/have not (circle one) filed a subdivision application with the Office of the Surveyor;
 - 4) I have/have not (circle one) filed a subdivision application with the Office of Tax & Revenue; and
 - 5) if there are changes to the lot and its boundaries as shown on this plat, or to the proposed construction and plans as shown on this plat, that I shall obtain an updated plat from the Office of the Surveyor on which I will depict all existing and proposed construction and which I will then submit to the Office of the Zoning Administrator for review and approval prior to permit issuance.
- The Office of the Zoning Administrator will only accept a Building Plat issued by the Office of the Surveyor within the two years prior to the date DCRA accepts a Building Permit Application as complete. I acknowledge that any inaccuracy or errors in my depiction on this plat will subject any permit or certificate of occupancy issued in reliance on this plat to enforcement, including revocation under Sections 105.6(1) and 110.5.2 of the Building Code (Title 12A of the DCMR) as well as prosecution and penalties under Section 404 of D.C. Law 4-164 (D.C. Official Code §22-2405).
