

NOTICE OF SECOND EMERGENCY AND PROPOSED RULEMAKING

Z.C. Case No. 21-04

Office of Planning

(Text Amendment to Subtitle C to Clarify and Allow Special Exception Relief from Size and Layout Requirements for Vehicle Parking)

The Zoning Commission for the District of Columbia (Commission), pursuant to its authority under § 1 of the Zoning Act of 1938, approved June 20, 1938 (52 Stat. 797), as amended; D.C. Official Code § 6-641.01 (2018 Repl.), and pursuant to § 6 of the District of Columbia Administrative Procedure Act, approved October 21, 1968 (82 Stat. 1206; D.C. Official Code § 2-505(c) (2016 Repl.)), hereby gives notice of its intent to amend the following provisions of the Zoning Regulations (Title 11 of the District of Columbia Municipal Regulations, Zoning Regulations of 2016, to which all references are made unless otherwise specified), with the proposed text at the end of this notice: Subtitle C, General Rules – § 712.

SETDOWN

On February 15, 2021, the Office of Planning (OP) filed a petition (Petition) to the Commission proposing the text amendment to:

- Increase the number of required parking spaces that may be compact-sized instead of full-sized;
- Clarify the screening requirements for surface parking; and
- Authorize special exception relief from the minimum size and layout requirements for vehicle parking under certain circumstances to parallel the current special exception relief from the number of required vehicle parking spaces.

These proposed changes would allow an applicant who can partly comply with the vehicle parking requirements with some dimensional changes to seek that partial relief instead of seeking special exception relief from the number of vehicle parking spaces that would result in providing less parking.

EMERGENCY & PROPOSED ACTION

At its February 25, 2021, public meeting, the Commission heard testimony from OP in favor of the Petition. At the close of the meeting, the Commission voted to grant the OP's request to:

- Take emergency action to adopt the Petition with flexibility to work with the Office of the Attorney General to refine the proposed text and add any conforming language as necessary;
- Set the Petition down for a public hearing;
- Authorize an immediate publication of proposed rulemaking for the Petition; and
- Authorize a thirty (30)-day notice period prior to the public hearing by granting a waiver under Subtitle Z § 101.9 from the forty (40)-day requirement of Subtitle Z § 502.1 for good cause as detailed below.

The Commission concluded that taking emergency action to adopt the Petition is necessary for the “immediate preservation of the public ... welfare,” as authorized by § 6(c) of the District of Columbia Administrative Procedure Act, approved October 21, 1968 (82 Stat. 1206; D.C. Official Code § 2-505(c)(2016 Repl.)), because it encourages applicants to seek partial instead of full relief from the vehicle parking requirements by authorizing special exception relief from the dimensional

requirements of parking spaces in addition to the current special exception relief limited to only the number of parking spaces.

VOTE (February 25, 2021): **5-0-0** (Robert E. Miller, Michael G. Turnbull, Anthony J. Hood, Peter A. Shapiro, and Peter G. May to **APPROVE**)

The emergency rule was effective as of the Commission's February 25, 2021, vote until it was superseded by the Commission's revised emergency action on May 10, 2021, discussed below.

OZ published a Notice of Emergency and Proposed Rulemaking (NOEPR) in the March 19, 2021, *D.C. Register* (68 DCR 2861, *et seq.*).

National Capital Planning Commission (NCPC)

The Commission referred the Petition to NCPC on March 9, 2021, for the thirty (30)-day review period required by Section 492(b)(2) of the District Charter (Dec. 24, 1973, Pub. L. 93-198, title IV, § 492(b)(2)); D.C. Official Code 6-641.05 (2018 Repl.).

NCPC filed an April 1, 2021, report stating that NCPC had determined, pursuant to delegated authority, that the Petition was not inconsistent with the federal elements of the Comprehensive Plan for the National Capital and would not adversely impact any identified federal interests.

ANC 1A Report

Advisory Neighborhood Commission (ANC) 1A filed a resolution approved by the ANC at its properly noticed April 14, 2021, public meeting at which a quorum was present that identified the following concerns with the Petition:

- The Petition might unnecessarily allow encroachments onto narrow alleys by increasing the number of compact spaces that are shorter and narrower than full-sized spaces even if the property has sufficient space to provide a full-sized length if not the width;
- The Petition might incentivize additional non-required compact parking spaces on a property that could provide fewer, but full-sized, parking spaces;
- The Commission's emergency action interfered with the ANC's negotiations with several developers without giving the ANC an opportunity to respond to the Petition until the public hearing after the emergency rule went into effect; and
- The ANC therefore recommended that the Commission revise the Petition to narrow the relief to only where an applicant demonstrates it is physically necessary and only for required parking spaces.

HEARING

OP filed an April 30, 2021 report (OP Hearing Report), that proposed revisions to the Petition as originally filed to address concerns raised in discussions with the Zoning Administrator staff and clarifications of the text discussed with the Office of the Attorney General, including:

- Extending the dimensional requirements and special exception relief from these requirements to non-required parking spaces;
- Clarifying the process for matter-of-right conversions of full-sized to compact spaces; and

- Requiring all spaces to be no smaller than a compact car space.

At the May 10, 2021, public hearing, OP testified in support of the Petition with an additional proposed revision that responded to ANC 1A's concerns by:

- Requiring that applicants demonstrate the physical inability to comply with the parking dimensions and ratios from which the applicants seek relief; and
- Authorizing the Board of Zoning Adjustment (Board) to grant partial relief (Subtitle C § 712.11(e)).

ANC 1A's authorized representative, the only public witness at the May 10, 2021 public hearing, testified that OP's proposed revisions addressed its concerns for projects seeking relief from the Board, but did not address projects using the reduced matter-of-right dimensional requirements for parking spaces, which could now reduce the length of their parking spaces even if the property could provide full-sized spaces and so potentially cause encroachments into narrow alleys.

REVISED EMERGENCY AND PROPOSED ACTION

“Great Weight” to the Recommendations of OP

The Commission must give “great weight” to the recommendations of OP pursuant to § 5 of the Office of Zoning Independence Act of 1990, effective September 20, 1990 (D.C. Law 8-163; D.C. Official Code § 6-623.04 (2018 Repl.) and Subtitle Z § 405.8. (*Metropole Condo. Ass'n v. D.C. Bd. of Zoning Adjustment*, 141 A.3d 1079, 1087 (D.C. 2016).)

The Commission finds OP's recommendations to action to adopt the Petition, as published in the NOEPR, with the revisions proposed by the OP Hearing Report and public hearing testimony, persuasive and concurs in that judgment.

“Great Weight” to the Written Report of the ANCs

The Commission must give great weight to the issues and concerns raised in the written report of an affected ANC that was approved by the full ANC at a properly noticed public meeting pursuant to § 13(d) of the Advisory Neighborhood Commissions Act of 1975, effective March 26, 1976 (D.C. Law 1-21; D.C. Official Code § 1-309.10(d) (2012 Repl.) and Subtitle Z § 406.2. To satisfy the great weight requirement, the Commission must articulate with particularity and precision the reasons why an affected ANC does or does not offer persuasive advice under the circumstances. (*Metropole Condo. Ass'n v. D.C. Bd. of Zoning Adjustment*, 141 A.3d 1079, 1087 (D.C. 2016).) The District of Columbia Court of Appeals has interpreted the phrase “issues and concerns” to “encompass only legally relevant issues and concerns.” (*Wheeler v. District of Columbia Board of Zoning Adjustment*, 395 A.2d 85, 91 n.10 (1978) (citation omitted).)

The Commission finds persuasive the concern expressed by the written report and testimony of ANC 1A, the only ANC to respond to the NOEPR, that the Petition's parking space dimensional flexibility, even with OP's proposed revisions, might lead to encroachments into narrow alleys. The Commission therefore revised the emergency and proposed rules to adopt OP's proposed revisions that would partly address ANC 1A's concern by limiting special exception relief to what is physically necessary and requested OP to propose additional revisions to address the ANC's concern with the flexibility granted matter-of-right projects.

The Commission concluded that taking emergency action to adopt the Petition, as revised, is necessary for the “immediate preservation of the public ... welfare,” as authorized by § 6(c) of the District of Columbia Administrative Procedure Act, approved October 21, 1968 (82 Stat. 1206; D.C. Official Code § 2-505(c)(2016 Repl.)), because it encourages applicants to seek partial instead of full relief from the vehicle parking requirements by authorizing special exception relief from the dimensional requirements of parking spaces in addition to the current special exception relief limited only from the number of parking spaces.

The emergency rule is effective as of the Commission’s May 10, 2021, vote and will expire on September 7, 2021, which is the one hundred-twentieth (120th) day after the adoption of the rule, or upon a revised emergency action or publication of a Notice of Final Rulemaking in the *D.C. Register* that supersedes the emergency rule, whichever occurs first.

At its May 10, 2021, public meeting, the Commission voted to:

- Take **REVISED EMERGENCY AND PROPOSED ACTION** to adopt the Petition as published in the NOEPR with the revisions proposed by the OP Hearing Report and OP’s public hearing testimony; and
- Authorize a Notice of Second Emergency and Proposed Rulemaking with a reduced 7-day comment period because the Petition has already been open for public comment for thirty (30) days and these revisions are limited and do not change the substance of the Petition.

VOTE (May 10, 2021): **5-0-0** (Michael G. Turnbull, Anthony J. Hood, Robert E. Miller, Peter A. Shapiro, and Peter G. May to **APPROVE**)

All persons desiring to comment on the subject matter of this proposed rulemaking action should file comments in writing no later than **seven (7) days** after the date of publication of this notice in the *D.C.
