I support the plans for 899 Maine Avenue, SW. because: : I am a resident of SW with three children. We absolutely need another grocery store in the area. The lack of competition is hurting residents. The Safeway does not stock everything and many us are forced to drive or take a bus or metro) to another neighborhood for groceries. Sometimes this requires a trip to VA for basic essentials, which means less sales tax captured in DC. This also creates additional traffic and pollution. More grocery stores equals greater service and convenience for residents.

This is an extremely important and basic amenity for the community.

These features of the plan are most important to me:: Grocery store
