Subject: Comment on ZC 22-06, 899 9th Street, SW

Dear Members of the Zoning Commission,

Thank you for your ongoing work. I write today regarding proposal ZC 22-06, 899 9th Street, SW. On January 26, 2023, I wrote a letter to the Zoning Commission withdrawing my letter of opposition that had been dated December 15, 2022. After conversations with adjacent neighbors, I request to amend a statement in my second paragraph of the January 26th letter: "..., the project will provide financial support that had been documented by third parties to ***sufficiently*** install traffic control devices." (emphasis added) From conversations with the adjacent neighbors in Capitol Square at the Waterfront, while financial support is being offered by the applicant, I believe that there is not an agreement about the scope involved in installation and infrastructure for these traffic control devices. Therefore, I'd like to amend to remove the word "sufficiently". I have spoken to both adjacent neighbors and the applicant about this. The applicant had told me that they are open to reaching a resolution with the adjacent neighbors to clarify the scope and adjust the financial support provided.

Thank you very much.

Charles Allen
Councilmember, Ward 6
