Dear Members of the DC Zoning Commission:

My name is Eric Wawrousek, and I am a homeowner in Capitol Square at the Waterfront (CSW) Homeowners Association. Our CSW community is located adjacent to and in close proximity to the proposed development designated 899 Maine Ave SW (ZC 22-06). This developer currently proposes a mixed-use building consisting of two towers, with heights ranging from 90 to 130 ft, excluding penthouses. This is nearly triple the current height limit of 45 feet allowed under the existing MU-12 zoning. The development would also have an approximate floor area ratio (FAR) of 7.92, which is more than triple the maximum FAR of 2.5 under the existing MU-12 zoning.

This high-rise and high-density development, which far exceeds what is allowed under current zoning regulations and inconsistent with the SW Neighborhood Plan and DC Small Area Plan, is inappropriate to the current and intended character of our community. It is adjacent to Jefferson Field and Jefferson Middle School, and is expected to take away sunlight from the park, tennis and pickleball courts, and other neighboring areas, including our Capitol Square (CSW) community.

This building is also expected to exacerbate the already chaotic traffic situation on G St SW and surrounding streets. The location of the project is particularly problematic due to its proximity with the intersection of 9th St SW, G St SW, and the I-395 exit ramp. That area is prone to traffic accidents caused by cars coming from the tunnel on 9th St SW, and cars exiting I-395 and trying to enter G St SW. In addition, the project's proposed curb cut location on G St SW is almost directly across the street from our CSW community private driveway. We strongly oppose the location of the curb cut location, which will lead to outside vehicles cutting through our CSW community for convenient access to the building and/or to avoid traffic on 9th St SW or G St SW. We experienced this first hand when the current building was occupied by USDA-NIFA, and many of their employees ignored our private property signs and cut through our community every day on the way to work. The increased traffic of outside vehicles in our community is cause of great concern to CSW residents, as they are often not mindful of speed limits within the private driveways, posing a safety risk to residents, particularly children and pets.

I fervently oppose the requested change in zoning regulation for case 22-06.

Thank you,  
Eric Wawrousek
