

Case Number: 22-11

Dear Commissioners,

As a DC resident and proud CBE business owner, I am writing to express my support for the proposed development project at 807 Maine Ave SW. I believe that the proposed project will be an asset for the community given the plethora of public benefits the applicant is proposing as part of its application. The project proposes neighborhood serving amenities and public serving streetscapes. I support and urge the Zoning Commission to approve Mill Creek's PUD application.

Thank you,

Michael Akin
