

Parking is already an issue on Madison St NW between 9th and Georgia. Because of the apartment building on Longfellow St NW, Longfellow does not have enough parking, so residents end up parking on Madison St NW. There are also people going to the Emery Heights Community Center, the sports fields, park, and during funerals and Sundays at the church there is no parking at all, along with a lot of people double-parked. How will this redistricting address the impact to parking for residents of Madison St NW?
