I have been observing this case and I am compelled to submit my testimony at this time for the sake of the residents of the District of Columbia.

I am requesting that you postpone or deny this up Zoning request at this time and require that the applicant does more public engagement and evaluation of the community comments. Also, please allow the Council of the District to do their job in the process and review the case and here from the residents of the most impacted community as well as DC.

I hope invested many years in all aspects of this work and I think that a postponement or denial is the proper course of action at this time and further public engagement is the right thing to do for the residents of our fine city. I now plan to get more involved in this case and look forward to working on the behalf of an equitable D.C. for all.
