

I understand that Good Hope Road LLC intends to develop the lot at 1603 Good Hope Road, SE. The proposed development addresses the inefficiencies of low-density buildings along this property's stretch of Good Hope Road and avoids a poorly developed property that is inadequate for the needs of our neighborhood. The proposed scale of development will also fit into the character of the Anacostia Historic District. The fact that this site is underdeveloped with an outdated, non-historic building and adjacent to vacant lots leads to opportunities from both economic development and Historic District perspectives.

This intersection and the business that previously occupied the building located at 1603 Good Hope Road has been frequented by crime and violence. On 4/13/20, the Office of the Attorney General (OAG) filed a Complaint for violations of the Drug, Firearm, or Prostitution-Related Nuisance Abatement Act. It's important to me and to my neighbors that this property is developed to its full potential so we avoid another vacant or underutilized property.

The Ward 8 community needs a thriving Good Hope Road and Good Hope Road needs more commercial + residential density to thrive. I welcome the proposed development at 1603 Good Hope Road in the hopes that Good Hope Road becomes an even more vibrant mixed-use corridor that serves everyone in historic Anacostia. The lack of historic context on this property and on its specific block allows for a more meaningful new development in our community.

It is my understanding that Civic Suds will be a tenant in the new development, providing social support services such as literacy and educational programs, vocational training, health and wellness and housing support. I value the contributions of Civic Suds and believe their proposed programming is vital to the well-being of our community.

I ask that the Historic Preservation Review Board, the Historic Preservation Office, and the Zoning Commission approve the proposed development plans, density, and height of up to 75 feet, including a Zoning Map to attain such a building envelope. The development concept is compatible with the Anacostia Historic District, consistent with the D.C. Comprehensive Plan and Anacostia will benefit from the additional housing, commercial space, and non-profit services that are needed now more than ever. I appreciate the opportunity to extend my support for the development plans and the necessary entitlement applications to achieve them.

Washington, D.C. 20020*

I understand that Good Hope Road LLC intends to develop the lot at 1603 Good Hope Road, SE. The proposed development addresses the inefficiencies of low-density buildings along this property's stretch of Good Hope Road and avoids a poorly developed property that is inadequate for the needs of our neighborhood. The proposed scale of development will also fit into the character of the Anacostia Historic District. The fact that this site is underdeveloped with an outdated, non-historic building and adjacent to vacant lots leads to opportunities from both economic development and Historic District perspectives.

This intersection and the business that previously occupied the building located at 1603 Good Hope Road has been frequented by crime and violence. On 4/13/20, the Office of the Attorney General (OAG) filed a Complaint for violations of the Drug, Firearm, or Prostitution-Related Nuisance Abatement Act. It's important to me and to my neighbors that this property is developed to its full potential so we avoid another vacant or underutilized property.

The Ward 8 community needs a thriving Good Hope Road and Good Hope Road needs more commercial + residential density to thrive. I welcome the proposed development at 1603 Good Hope Road in the hopes that Good Hope Road becomes an even more vibrant mixed-use corridor that serves everyone in historic Anacostia. The lack of historic context on this property and on its specific block allows for a more meaningful new development in our community.

It is my understanding that Civic Suds will be a tenant in the new development, providing social support services such as literacy and educational programs, vocational training, health and wellness and housing support. I value the contributions of Civic Suds and believe their proposed programming is vital to the well-being of our community.

I ask that the Historic Preservation Review Board, the Historic Preservation Office, and the Zoning Commission approve the proposed development plans, density, and height of up to 75 feet, including a Zoning Map to attain such a building envelope. The development concept is compatible with the Anacostia Historic District, consistent with the D.C. Comprehensive Plan and Anacostia will benefit from the additional housing, commercial space, and non-profit services that are needed now more than ever. I appreciate the opportunity to extend my support for the development plans and the necessary entitlement applications to achieve them.

I understand that Good Hope Road LLC intends to develop the lot at 1603 Good Hope Road, SE. The proposed development addresses the inefficiencies of low-density buildings along this property's stretch of Good Hope Road and avoids a poorly developed property that is inadequate for the needs of our neighborhood. The proposed scale of development will also fit into the character of the Anacostia Historic District. The fact that this site is underdeveloped with an outdated, non-historic building and adjacent to vacant lots leads to opportunities from both economic development and Historic District perspectives.

This intersection and the business that previously occupied the building located at 1603 Good Hope Road has been frequented by crime and violence. On 4/13/20, the Office of the Attorney General (OAG) filed a Complaint for violations of the Drug, Firearm, or Prostitution-Related Nuisance Abatement Act. It's important to me and to my neighbors that this property is developed to its full potential so we avoid another vacant or underutilized property.

The Ward 8 community needs a thriving Good Hope Road and Good Hope Road needs more commercial and residential density to thrive. I welcome the proposed development at 1603 Good Hope Road in the hopes that Good Hope Road becomes an even more vibrant mixed use corridor that serves everyone in historic Anacostia. The lack of historic context on this property and on its specific block allows for a more meaningful new development in our community.

It is my understanding that Civic Suds will be a tenant in the new development, providing social support services such as literacy and educational programs, vocational training, health and wellness and housing support. I value the contributions of Civic Suds and believe their proposed programming is vital to the well-being of our community.

I ask that the Historic Preservation Review Board, the Historic Preservation Office and the Zoning Commission approve the proposed development plans, density and height of up to 75 feet, including a Zoning Map to attain such a building envelope. The development concept is compatible with the Anacostia Historic District, consistent with the D.C. Comprehensive Plan and Anacostia will benefit from the additional housing, commercial space and non-profit services that are needed now more than ever. I appreciate the opportunity to extend my support for the development plans and the necessary entitlement applications to achieve them.

The proposed development addresses the inefficiencies of low-density buildings along this property's stretch of Good Hope Road and avoids a poorly developed property that is inadequate for the needs of our neighborhood. The proposed scale of development will also fit into the character of the Anacostia Historic District. The fact that this site is underdeveloped with an outdated, non-historic building and adjacent to vacant lots leads to opportunities from both economic development and Historic District perspectives.

This intersection and the business that previously occupied the building located at 1603 Good Hope Road has been frequented by crime and violence. On 4/13/20, the Office of the Attorney General (OAG) filed a Complaint for violations of the Drug, Firearm, or Prostitution-Related Nuisance Abatement Act. It's important to me and to my neighbors that this property is developed to its full potential so we avoid another vacant or underutilized property.

The Ward 8 community needs a thriving Good Hope Road and Good Hope Road needs more commercial + residential density to thrive. I welcome the proposed development at 1603 Good Hope Road in the hopes that Good Hope Road becomes an even more vibrant mixed-use corridor that serves everyone in historic Anacostia. The lack of historic context on this property and on its specific block allows for a more meaningful new development in our community.

It is my understanding that Civic Suds will be a tenant in the new development, providing social support services such as literacy and educational programs, vocational training, health and wellness and housing support. I value the contributions of Civic Suds and believe their proposed programming is vital to the well-being of our community.

I ask that the Historic Preservation Review Board, the Historic Preservation Office, and the Zoning Commission approve the proposed development plans, density, and height of up to 75 feet, including a Zoning Map to attain such a building envelope. The development concept is compatible with the Anacostia Historic District, consistent with the D.C. Comprehensive Plan and Anacostia will benefit from the additional housing, commercial space, and non-profit services that are needed now more than ever. I appreciate the opportunity to extend my support for the development plans and the necessary entitlement applications to achieve them.

To Whom it May Concern,

I am an educator that works in Ward 8, and I care deeply about my students and families that live and attend school in the Ward 8 community. It is important that my students and families have safe access to a neighborhood laundromat, and that they are offered enrichment services that will further strengthen and benefit the community that I serve, and that my students and families live in.

I understand that Civic Suds and Good Hope Road LLC have filed development plans with your office to develop the lot at 1603 Good Hope Road. The proposed development addresses the inefficiencies of low-density buildings and avoids a poorly developed property that is inadequate for the needs of our neighborhood.

Civic Suds will provide a multitude of social support services such as literacy and educational programs, vocational training, health and wellness and housing support. I value the contributions of Civic Suds and believe this proposed development is vital to the well-being of our community.

I ask that the Historic Preservation Review Board and the Historic Preservation Office approve the proposed development plans and density so that Anacostia can benefit from additional housing, commercial space and non-profit services that are needed now more than ever.

I appreciate the opportunity to extend our support for the development plans.

Sincerely,

To Whom it May Concern,

I am a resident of Ward 8 in Washington, D.C and I care deeply about my neighborhood and community. As a mother to a curious and inquisitive 3-year-old boy growing up in Ward 8, It is important that the needs of my community are met and that residents, like myself, have a voice in the decisions that impact my community.

I understand that Civic Suds and Good Hope Road LLC have filed development plans with your office to develop the lot at 1603 Good Hope Road. The proposed development addresses the inefficiencies of low-density buildings and avoids a poorly developed property that is inadequate for the needs of our neighborhood.

Civic Suds will provide a multitude of social support services such as literacy and educational programs, vocational training, health and wellness and housing support. I value the contributions of Civic Suds and believe this proposed development is vital to the well-being of our community.

As a Ward 8 neighbor and mother, the safety of our families when doing laundry is important. Unfortunately, the lack of access to a safe neighborhood laundromat is the reality for many of us. In addition to accessing laundromats safely, the programming that Civic Suds offers will greatly benefit my family. My son and I enjoy going to the read aloud and other activities offered at DC public libraries, and it would be amazing to be able to have those conveniently available to us as we do laundry. I fully support a safe place in our community to do laundry, with enrichment and fun programs for the family, which would benefit and strengthen our community.

I ask that the Historic Preservation Review Board and the Historic Preservation Office approve the proposed development plans and density so that Anacostia can benefit from additional housing, commercial space and non-profit services that are needed now more than ever.

I appreciate the opportunity to extend our support for the development plans.

To Whom it May Concern,

I am a resident of Ward 8, an educator, mother and life-long Washington, D.C citizen. Our family has been in the Ward 8 community our entire lives. My grandparents raised my mother and aunts in Ward 8. My mother moved back to Ward 8 when I was 12 years old. My family and I currently live in Ward 8. I care deeply about my neighborhood and community. It is important that the needs of my community are met, and that Ward 8 residents, like myself and family, have a voice in the decisions that impact my community.

I understand that Civic Suds and Good Hope Road LLC have filed development plans with your office to develop the lot at 1603 Good Hope Road. Civic Suds will provide a multitude of social support services such as literacy and educational programs, vocational training, health and wellness and housing support. I value the contributions of Civic Suds and believe this proposed development is vital to the well-being of our community.

As a Ward 8 neighbor and mother, the safety of our families when doing laundry is important. Unfortunately, the lack of access to a safe neighborhood laundromat is the reality for many of us. Traveling to the laundromat was often a challenge for me. I had to plan around my son's naps because it was impossible to carry all the laundry to the laundromat with a 2-year-old. I am aware that some of our apartment buildings in the community have laundry rooms, but they are old and extremely scary, and most of us do not feel safe down there alone. I most definitely did not. I fully support a safe place in our community to do laundry, with enrichment and fun programs for the family, which would benefit and strengthen our community.

I ask that the Historic Preservation Review Board and the Historic Preservation Office approve the proposed development plans and density so that Anacostia can benefit from additional housing, commercial space and non-profit services that are needed now more than ever.

I appreciate the opportunity to extend our support for the development plans.
