REGULAR PUBLIC HEARING CASE NO. 24-09

+ + + + +

MONDAY

NOVEMBER 18, 2024

+ + + + +

The Public Hearing of the District of Columbia Board of Zoning Adjustment convened via teleconference, pursuant to notice at 4:00 p.m. EDT, Anthony J. Hood, Chairperson, presiding.

### ZONING COMMISSION MEMBERS PRESENT:

ANTHONY J. HOOD, Chairperson ROBERT E. MILLER, Vice Chair GWEN WRIGHT, Commissioner TAMMY STIDHAM, Commissioner JOSEPH IMAMURA, Commissioner

#### OFFICE OF ZONING STAFF PRESENT:

PAUL YOUNG, Zoning Data Specialist SHARON S. SCHELLIN, Secretary

#### OFFICE OF ZONING LEGAL DIVISION STAFF PRESENT:

HILLARY LOVICK, Esquire DENNIS LIU, Esquire

#### ALSO PRESENT:

JOEL LAWSON, Office of Planning PAT BROWN, ESQUIRE, Greenstein, DeLorme & Luchs, P.C. BRANDICE ELLIOTT, Expert Witness CYNTHIA GIORDANO, ESQUIRE TUCKER SNIPES, Landmark Properties, Inc. DAVID MCALLISTER-WILSON, President, Wesley Theological Seminary CHUCK ELKINS, ANC 3D JONATHAN BENDER, ANC 3E WILLIAM CLARKSON, Spring Valley Neighborhood Association TRICIA DUNCAN, ANC 3D ROBERT SCHOLTZ JOSIE SCHOLTZ DR. JEFFREY KRASKIN MARY BUCKLES BLAINE CARTER ALMA GATES THOMAS SMITH NANCY MACWOOD

The transcript constitutes the minutes from the Regular Public Hearing held on November 18, 2024.

## T-A-B-L-E O-F C-O-N-T-E-N-T-S

Case No. 24-09
THE WESLEY THEOLOGICAL SEMINARY OF THE UNITED
METHODIST CHURCH
Presentation by Petitioner:
Reverend David McAllister-Wilson
Patrick Brown, Esquire
Presentation by Joel Lawson, Office of Planning 42
Public Testimony:
ANC 3E, Commissioner Jonathan Bender
ANC 3D, Chairman Emeritus Chuck Elkins
William Clarkson, SVNA69
Josie Scholz
Robert Scholz 76
Dr. Jeffrey Kraskin 78
Mary Buckles, SVWHCA 81
Blaine Carter, NLC 90
Thomas Smith 94
Alma Gates 97
Nangy MagNood Committee of 100

#### P-R-O-C-E-E-D-I-N-G-S

2 (4:00 p.m.)

CHAIRPERSON HOOD: Good afternoon, ladies and gentlemen. We are convening and broadcasting this public hearing by videoconferencing. My name is Anthony Hood. Joining me are Vice Chair Miller, Commissioner Wright, Commissioner Stidham, and Commissioner Imamura. We're also joined by the Office of Zoning staff, Ms. Sharon Schellin, as well as Mr. Paul Young, who will be handling all of our virtual operations. I will ask all others to introduce themselves at the appropriate time. And let me not forget our Office of Zoning legal counsel, Ms. Lovick and Mr. Liu. Others will introduce themselves at the appropriate time.

Copies of today's virtual public hearing notice are available on the Office of Zoning's website. Please be advised that this proceeding is being recorded by a court reporter and is also webcast live via Webex and YouTube Live. The video will be available on the Office of Zoning's website after the hearing. Accordingly, all those listening on Webex or by phone will be muted during the hearing and only those who have signed up to participate or testify will be unmute at the appropriate time.

Please state your name and home address before providing oral testimony or your presentation -- on your presentation. Oral presentations should be limited to a summary of your most important points. When you have finished speaking, please mute your audio so that your microphone is no longer

picking up sound or background noise. If you experience difficulty accessing Webex or with your telephone call-in, then please call our OZ Hotline number at 202-727-0789 to sign up or receive Webex log-in or call-in instructions.

2.

All persons planning to testify either in favor or in opposition or undeclared must sign up in advance and will be called by name. If you wish to file written testimony or additional supporting documents during the hearing, then please be prepared to describe and request it at the time of your testimony.

The subject of this evening's hearing is Zoning Commission Case Number 24-09. This is the Wesley Theological Seminary of the United Methodist Church. This is a text amendment to Subtitle C-1001.6(c) or 1006 and Subtitle X-101, Square 1600, Lots 007, 008 -- let me go back and do that again -- 0007, 0008, 0009, 0818, 0819. And, again, today's date is November the 18th, 2024.

The hearing will be conducted in accordance with the provisions of 11-Z DCMR, Chapter 5, as follows: Preliminary matters; presentation, in this case, by the Petitioner, which has up to 60 minutes; report of other government agencies -- sorry about that -- report of -- report of the ANC; testimony of organizations and individuals, each having five and three minutes, respectively. Organizations will have five minutes; individuals will have three. And we'll hear in the order from

1	those in support, opposition, or undeclared. While the
2	Commission reserves the right to change the time limits for
3	presentations, if necessary, it intends to adhere to the time
4	limits as strictly as possible and at no time shall be ceded. At
5	this time, the Commission will consider any preliminary matters.
6	Does the staff have any preliminary matters?
7	MS. SCHELLIN: Yes, sir, just very briefly. The Office
8	of Planning asked for a waiver at Exhibit 28 let me see
9	Exhibit 28, page one. They asked for a waiver to submit its
10	hearing report less than ten days prior to the hearing. I just
11	want to make sure the Commission's okay with that. You can do
12	that by consensus, if you're okay with it.
13	CHAIRPERSON HOOD: All right. Any objections to the
14	waiver?
15	(No response.)
16	CHAIRPERSON HOOD: Okay. No objections.
17	MS. SCHELLIN: There have been even though there are
18	no parties in a rule-making case, there have been several requests
19	in submissions asking for postponement of this hearing.
20	CHAIRPERSON HOOD: I'm going to address that. I'm
21	going to address that.
22	MS. SCHELLIN: Okay.
23	CHAIRPERSON HOOD: Anything else other than that?
24	MS. SCHELLIN: Other than that, you have the report
25	from the ANC in the record, ANC 3D at Exhibit 23 and ANC 3E at

Exhibit 25, and, again, the OP report at Exhibit 28. So I think this case is ready for the Commission to move forward, and that's all the preliminary matters I believe that I have. If I've missed any, I'm sure that Mr. Liu will pipe in. Thank you.

CHAIRPERSON HOOD: Okay. I want to explain. to thank all of our legal counsel to make sure that we're legally sufficient to move forward. We've gotten -- some in opposition or arguing that the revised text needs to be renoticed and the hearing rescheduled. However, the original hearing date was already postponed once to allow Wesley time to work on the proposed language with the community. In addition, when the Commission will take proposed action, there will be 30 -- another 30-day comment period for any input or proposed language to be considered and incorporated into the final text, if we move that The notice requirements for this public hearing have been satisfied. The Commission sees -- I think there's no benefit in further delaying this hearing, since the hearing was already postponed once to allow more time to work with the community. The goal of this hearing is actually to hear from the community and the Petitioner, those in support and opposition, to reach some understanding of what language would be most appropriate, and I will recommend that we continue to move forward, and there's going to be ample time, and there has been ample time, to comment on whether people think new submissions have been given. will be another time to be able to comment on whatever you think

this new -- but this has been going on for a while, and we've pushed this down the road to give ample time, and it's been postponed previously. I'm going to recommend that we move forward. And I would also caution those who are going to be testifying, if you go there, you're wasting your three to five minutes, 'cause we already (indiscernible) so stick to the issues of why you -- and help us come up with a better text or better idea of what you think we should deal with, as opposed to rearguing the renoticing issue, which we have checked with our legal counsel and told it's legally sufficient for us to move forward. Any objections from any of my colleagues?

(No response.)

CHAIRPERSON HOOD: Okay. All right. Ms. Schellin, can we bring everybody up?

MS. SCHELLIN: Yes, sir, we can. Mr. Young, do you have the players to bring up? Pat Brown. Mr. Brown, do you want to tell us who else you want to bring up with you? Do you need Mr. -- Ms. Giordano, or who else do you need? Pat Brown.

CHAIRPERSON HOOD: While we have a moment, Ms. Schellin, could you let everybody know we didn't run you away? You're still working here.

MS. SCHELLIN: No, you did not. I was actually on a cruise for a while, then I was sick, and I -- unfortunately, over the weekend, I lost an aunt and her funeral is on Thursday, so I will probably miss Thursday's hearing too.

1	CHAIRPERSON HOOD: Okay. Well our condolences to you
2	and your family.
3	MS. SCHELLIN: Thank you. Thank you.
4	MR. BROWN: Chairman Hood, can you hear me?
5	CHAIRPERSON HOOD: Yes, I can.
6	MR. BROWN: Okay. Brandice Elliott is on our team.
7	I'd also like to have Ms. Giordano Cynthia Giordano and Tucker
8	Snipes available. I don't expect to have them participate, but
9	just in case.
10	CHAIRPERSON HOOD: Okay. And whenever you're ready,
11	you all may begin.
12	MR. BROWN: What I'd like to do is introduce Reverend
13	David McAllister-Wilson, the President of Wesley. And also, Mr.
14	Young, if you could, on our PowerPoint I don't want to refer
15	to it too much, but if you could pull up slide number three of
16	our PowerPoint, and then I'll turn it over to Reverend McAllister-
17	Wilson.
18	MS. SCHELLIN: Mr. Brown, how much time did you need?
19	I don't believe I got that from you today.
20	MR. BROWN: We had indicated 30 minutes. I think we
21	can do better than that. We want to remain pretty focused on
22	this, given the scope of what's involved here.
23	MS. SCHELLIN: Okay. Thank you. Mr. Young, can you
24	put 30 minutes on the clock? Thank you.
25	REVEREND MC-ALLISTER-WILSON: Good afternoon, and I

want to thank the Commissioners for their patience in this long process. We've been before the Zoning Commission for three-and-a-half years and have been working on this project with our neighbors for five years and longer, so we're grateful for the Commission's patience and their expressed desire for Wesley to thrive in place, and for the work of ANC 3D and then 3E, who have worked to shape our approach. We are grateful to the Office of Planning for their support. And I also recognize that even those in opposition affirm they want Wesley to remain.

2.

I want to step back and look at what we are proposing. Almost all the concerns that are raised are procedural and bureaucratic and regulatory, not concerns about the plan, itself, which is an example I think of thoughtful urban planning. It moves students out of the neighborhood and off the road to a piece of property which has been an educational institution since bare ground. It respects the concerns of neighbors for traffic and parking. It fits into the look and feel of an academic hilltop and protects and increases the green space around our campus. It includes measures to insure supervision of the occupants to respect the community, including the Seminary community itself. It commits to the principals of inclusionary zoning with a creative approach.

Wesley has said and have held that we support IZ in this project from the start. And, finally, it provides tax revenue from this property for the first time. For us, it's

important that it allows us to continue to serve the Washington community. And I urge you to consider the alternative. If we cannot thrive in place, we will need to leave. Some have suggested this is not necessary. I'm the longest-serving President -- Seminary President in North America and I report to a very savvy Board, and I can assure you this is our best judgment.

We provide church leaders of a variety of denominations and nonprofits in DC and the surrounding area. We also contribute greatly to racial equity in the city, particularly in Ward 3. We are a majority minority student body and faculty. This is particularly important at a time when these values will be assaulted from the incoming administration. Some have expressed concern that this establishes a precedent. We don't think it does, and we are grounded in proper procedure. So do we not live in unprecedented times, as institutions in our city are being threatened? I conclude simply by saying we have invested much in this approach, because we believe in our mission in this city and for this world, and I urge your approval of these proposals. Thank you.

MR. BROWN: All right. And we can -- for the time being, we can take down these slides. By the way, the significance of this is Wesley's role in the community. This is I think the third movie night in September where, on the famous sledding hill, a movie was presented for the community and had

the highest turnout ever and food trucks and all kinds of other events.

2.

With that, Mr. Chairman, Patrick Brown from Greenstein, DeLorme and Luchs. I'm glad to be back. Commissioner Wright, welcome. Look forward to working with you on this and perhaps other matters. I would -- and I don't want to go into a lot of detail, but the text amendment is not something that we thought of out of thin air. The text amendment that we have before you arose out of the process that we've been in for several years. And I think it arose from the thoughts and deliberations and considerations led by the Commission, itself, but certainly by all the participants, and we proceeded along those lines. You set it down for a hearing. We've worked with the ANCs and others, the Office of Planning, and come to a point where I think we have a good finished product that really adds some detail and specificity that will serve the process well.

The text amendment -- and the role of the text amendment is not self-executing. The text amendment is the first of a two-stage process which would allow the Commission to complete the Campus Plan process and impose an approval, subject to the very detailed conditions that will be necessary. We don't want to litigate tonight the Campus Plan, other than to recognize that it's the underlying event, and the text amendment will allow the Campus Plan process to move forward as a result of this process. What we've done in the text amendment is site specific

and purpose specific with a mind to making sure that there's no precedent. The text amendment, as originally drafted and certainly in more detail now, apply only to Wesley, only to a part of their campus, and subject, most importantly, to the two-stage process with the Zoning Commission review and approval of the Campus Plan that is critical.

2.

One of the things -- and I want to dispel a couple of points before we actually talk about the language. One, it is certain that Wesley and I don't believe the Office of Planning have conceded that the proposed dormitory is a commercial use. It's a dormitory. It's housing. If you were to build this building off the campus, it would still be a dormitory and it would still be residential and still not be a commercial use.

In the context of Campus Plans, commercial uses are things like retail and service facilities. A nearby campus, once upon a time, had a McDonalds on it; it has a Subway shop; it has all kinds of restaurant and eating establishments; it had some mailboxes. Those are the commercial uses that the zoning regulations seek to regulate, not a dorm housing students.

Having said that, the text amendment I think provides a mechanism to resolve that issue very narrowly in this context and only this context. On the IZ, while it's been labeled an IZ exemption, that's a little bit, if not entirely a misnomer. I believe that IZ was never intended to apply to a college dormitory, but the language is unclear, and what we're presenting

allows IZ to be withdrawn from this particular property, in the context of the language that requires it to be provided offsite and subject to all of the requirements.

22

23

24

25

We had offered a private student-only IZ program -affordable housing program, and there were questions raised about
that. That's what led us to the point where we are right now.
And, certainly, our neighbors at ANC 3D have been the strongest
proponent to Wesley's commitment to provide an offsite IZ in Ward
3, where IZ has been slow and hard to accomplish.

If I could, Mr. Young, if you could pull up slide eight. And you'll see here -- and I know -- I don't want to necessarily focus in on the wording, itself, other than the progression from the original to a version that we submitted and, ultimately, that evolved with input from -- well, our original alternative arose It was further revised by OP and their from ANC 3E input. alternate, which we're generally in acceptance acknowledgement with. It's important because it puts on Wesley the obligation to provide the Ward 3 offsite IZ, subject to the established requirements for IZ, so that there's no different requirements for Wesley offsite than it would be onsite, as far as the requirements.

The one concern or question we have is that we had attempted originally to maintain, in the second alternative, flexibility of how that offsite IZ was achieved to allow flexibility, subject always to the Zoning Commission approval of

the amount and nature of the IZ. I think the language has some flexibility built into it, but I'd express that question for the Commission about whether they think some additional flexibility would be warranted.

2.

If I could, Mr. Young, to slide ten. And you see at the bottom is the original 101.5 language. There was an interim revision at the request of ANC 3E, but OP has come back, which I think is a meaningful revision, changing the word "dormitory" to "university housing" and clarifying the use by Wesley and use restrictions in the Campus Plan. And I think those all are improvements and achieve the original purpose of the text amendment in a more clarified way. The same is true for the IZ language. I think we started from one point and have gotten to a more specific clarified position.

With that, one last point. In recent filings, a great deal of concern has been raised that this is somehow spot zoning. It is not spot zoning. It's certainly within the Commission's authority to make a text amendment based on reasonable circumstances, which, as you all know, was the thinking of the Commission itself. My colleague, Brandice Elliott, who we'd like to see once again as an expert witness, will testify about the compliance with the Campus Plan and the racial equity equation, but, in the context we are here, this is not spot zoning. With that, you've heard enough from me. I'll answer any questions or turn it over to Brandice Elliott.

MS. SCHELLIN: I'm sorry. Chairman Hood, we did -- I did not present her as an expert witness. I know that she's been accepted before. We'd just ask the Commission to accept Ms. Elliott as an expert in this case please.

CHAIRPERSON HOOD: Okay. Any objections? We've done it previously.

(No response.)

2.2

CHAIRPERSON HOOD: Okay. We will continue that status.

And, Ms. Elliott, you may begin. Thank you, Ms. Schellin.

MS. ELLIOTT: Good evening, Chair Hood and members of the Commission. Welcome, specifically, Commissioner Wright. I'm very excited that we have a full Commission now. I am going to go ahead and pick up where Mr. Brown left off, so, Mr. Young, if you wouldn't mind advancing to the next slide please.

You know, there's been a lot of conversation about what a commercial activity is, what a dormitory is, and so I just want to clarify what the zoning regulations actually say about dormitories. It is a permitted use. It is an example of a use given in the residential use category. You can see the definition there. But alongside single dwelling units and multiple dwelling units, dormitories are right there too, and they are permitted as a residential use.

They're also listed as an example under the education, college/university use category. So not only are they identified as a residential use; they're also an education,

college/university use. So that's twice within Subtitle B under the use categories where this is addressed. Additionally, the Zoning Administrator issued a determination quite a while ago at this point noting that student -- a student residence project which includes units featuring private baths and kitchens and offering occupancy to non-Wesley Theological Seminary students can be considered a dormitory use. And so that also filters within the residential and educational, college/university use categories. If you want to take a look at that -- at that ruling, it is submitted in Case 23-08, and it's Exhibit 24A.

2.

Now, also on that -- on that note, the Zoning Administrator is given specific authority in Subtitle A, Section 201.4, to determine the category or categories for use, based on consistency, or Subtitle B, Chapter 2. And so it is well within the Zoning Administrator's authority to determine what the correct use category is here, which he did. Also, Mr. Brown has already addressed commercial activity, so I don't want to dwell on that too long, but I will add that at the end of the day a future dormitory provides housing. Housing is not considered a commercial activity. And if Landmark were to build this same building in a different property that's not affiliated with a campus, it would still be a residential use.

Next slide please. So now we're going to go ahead and go to the Comprehensive Plan Review. I'm going to try to make this as expeditious as possible, but, obviously, I'm here to

answer questions along the way, if you need to -- if you need me to as well. So the standard of review for a text amendment is that it shall not be inconsistent with the Comprehensive Plan and other adopted policies. And the Zoning Commission is well aware that its responsibility here is to balance the comprehensive policies to determine if the proposed text amendment is inconsistent with the Comprehensive Plan.

2.

You all have developed a racial equity tool. We have reviewed the text amendment using that tool and follow that format in the subsequent slides here. When we take a look at the Comprehensive Plan, specifically, and, of course, the Mayor's Housing Equity Report, it's sort of tangential. It is adjacent. It is -- it is part of the review, although not specific to the dormitory. It has more of an impact on the residential area surrounding the dormitory -- the potential dormitory.

Next slide please. All right. Now, the first step in reviewing the Comprehensive Plan is taking a look at the Generalized Policy Map and the Future Land Use Map. In this case, Wesley is located in an institutional land use -- I'm sorry -- institutional category in the Generalized Policy Map, that this category anticipates that universities and colleges will be located within these designations, and it does also expect that infill will occur consistent with the Campus Plan.

Next slide please. So the Future Land Use Map also similarly has an institutional land use designation. Again, it

should be occupied by colleges and universities, which is the case here, which would continue to be the case should a dormitory be constructed in the future.

2.

Next slide please. So now we're going to go ahead and go through these four parts of the racial equity tool. And so if we could go ahead go to the next slide please, we can talk about some of the Comprehensive Plan elements that were reviewed. In our submissions, we identified several policies within the Comprehensive Plan that would be advanced by the proposed text amendment, which would result in the dormitory.

We identified several of the Rock Creek West area elements, but also the more general land use, transportation, housing, and educational facilities. Our statement does not include environmental protection policies, but I have added them here. And just to clarify, we believe these policies would be advanced by the proposed text amendment, because it would result in a dormitory that employs urban heat island mitigation, because there's going to be a retention of trees, potentially some additional trees and some sustainable landscaping incorporated in the site. There are also going to be some stormwater runoff strategies employed into the site as well, like bioretention and green roofs. So that is why those particular policies are in here.

Next slide please. And I just want to take a moment to address a few policies that came up in the -- in some of the

letters that were provided in the record. Neighbors for a Livable Community and Spring Valley Wesley Heights Citizens Association identified a few that we didn't advance with this proposed text amendment, and so I wanted to go through these and just clarify why or why we don't advance them.

The first one for Urban Mixed-Use Neighborhoods, this particular policy encourages new mixed-use neighborhoods, combining high-density residential, office, retail, cultural, and open spaces in specific neighborhoods, and these neighborhoods are high-density ones. We're looking at Mount Vernon Triangle, NoMa downtown, and Pennsylvania Avenue. This particular policy does not apply to this area. It's more of a high-density area, and so, for that reason, it doesn't -- it's not applicable.

The second policy there, Variety of Neighborhoods, basically states that redevelopment should preserve neighborhood character while accommodating population growth, affordability, racial equity, and opportunity. The dormitory provides -- the text amendment would allow a dormitory that would provide housing for the racially diverse student body at Wesley, and it will minimize the need for students to seek housing in nearby residential areas, potentially freeing up affordable housing options for other students. And so that is -- that is where we are with that particular policy. We do believe it is advanced with the proposed text amendment. And then Nonconforming Institutional Uses. We're -- I believe we're pretty clear here

that we're not introducing any nonconforming uses to the site.

Next slide please. And then Nonconforming Commercial and Industrial Uses. We're also fairly certain that we're not introducing any nonconforming commercial or industrial uses to the site as well. The final policy is concerning balancing University growth and neighborhood needs. And, you know, this is — this project exemplifies balanced approach. It allows for campus growth and reduces pressure on the local rental market by potentially freeing up some housing for non-student residents. It supports Wesley's mission while remaining mindful of the neighborhood character. And like other universities, it would not provide IZ on campus, but unlike other universities, it would provide IZ in the Ward 3 community, promoting neighborhood stability. So, you know, in our — in our review of the policies, that one would be advanced as well.

Can we go to the next slide please? So part two is where we talk about community engagement, and that begins with an analysis of class discrimination in the community and some of the lasting harms that it -- that it has created. You know, going way back to the 1930s, the Federal Housing Administration graded areas of the District for loan approvals by using rates as a criteria, and that essentially made Rock Creek West unattainable for Black people or people of color. The Planning Area also has a history of displacement of Black communities. There's Reno City and the George Pointer settlement as examples

here. Rock Creek Park, in part, was conceived as a barrier to Black settlement to the west, so the Black residents settled, you know, in further areas, like, to the east or to the south instead.

2.

In 1940, the racial covenants served to confine the vast majority of DC's Black population to older housing near the city center, near the waterfront employment area, and also it further removed sections in Northeast and Southeast DC. So as a result of these policies, Rock Creek West actually continues to be a majority white area, making up 77.2 percent of its population.

So if we could go to the next slide please. I don't have a whole lot on community engagement here, 'cause we do have some people who are able to talk to more specifics as to how the outreach has occurred. There has been a substantial number of meetings since this whole process began. The applicant continues to meet with the ANCs to discuss the provision of affordable housing in Ward 3 and to work through some of the text amendment language, at least up to this point.

Next slide please. Part three is concerning disaggregated data. And the Office of Planning provides this information, as required by the racial equity tool, and I just wanted to pull a few points that they made from their report to emphasize that in this case they found that there would be no adverse racial equity impacts from the text amendment. Wesley, itself, promotes racial equity through its mission. It produces

graduates who work in fields that serve diverse communities, and it also includes leaders in non-profit organizations across the District. Wesley also provides training for community engagement and organizes internships with District churches, promoting real time support for racial and social justice initiatives.

2.

Approximately 34 percent of Wesley's students and significant portions of faculty and staff are Black, which contributes to the diversity in the area, but that isn't where it ends. The campus also has a significant Asian and Hispanic or Latino population. Women make up over half of the student population. Almost half of the student population are an ethnic minority, and 38 denominations are represented on this campus, so there is a lot of diversity here that doesn't necessarily get acknowledged, when we talk about text amendments.

Next slide please. So this is the last part of the racial equity tool, and this is where we evaluate the zoning actions through the racial equity lens. How will it actually advance racial equity? Well, in terms of direct displacement, there would be none. This -- the text amendment would allow for the future development of the dormitory that would replace existing dorms on the campus, and it would not be in the same location, so there would be no displacement. It also -- in offering on-campus housing, it reduces travel costs for students, and it makes living arrangements more affordable, so this actually ends up being a more affordable scenario for students

going to this campus. It also allows students to develop a sense of community and encourages academic engagement, having all of the students in one location near all the resources at the University. We do not believe there would be any indirect displacement caused by the text amendment leading to a dormitory.

1

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

The -- as we've indicated, in terms of housing, the dormitory would accommodate -- it would offer 659 beds, so it would accommodate more students, potentially freeing up some of those rental units, you know, adjacent to the campus in the neighborhood for non-student residents.

In terms of physical improvements that would advance racial equity, the text amendment would allow the construction of the dormitory or the advancement of the Campus Plan with some of those conditions that have already been worked out with the community; you know, sidewalk improvements, landscaping, some of those environmental features that we talked about, like stormwater retention and bioretention facilities, but illegal building. It would also provide some streetscape improvements that would provide -- or that would enhance access to the University.

And then if we move on to access to opportunity, this would advance racial equity by providing additional opportunities that are related to proximity to transportation. It's only a half-mile from the Tenleytown-AU Metro Station and other public transit. There are bus lines in Massachusetts Avenue. There

are, you know, restaurants and retail stores, some along Massachusetts Avenue, but also not far from the campus on Wisconsin Avenue. Having that access to transportation actually increases employment opportunities throughout the District, and it also supports some of those other career-training opportunities that the University provides in religious and social services. And it also allows access to some of these -- you know, to open space and to natural areas, like Rock Creek Park, which are important for health as well.

2.

So the community -- or the applicant has worked with the community to identify, you know, some elements of the project that could be changed. We discussed some of those during the PUD process, like, you know, setbacks on the top floor, maybe some reorienting to improve privacy for neighboring properties. In the case of the text amendment, the applicant has worked closely with the Office of Planning and the ANCs to develop this text. It has been through a few rounds, but it hasn't been without effort to identify the best way, you know, to go through that process and to provide affordable housing.

Next slide please. So part of the evaluation process requires identifying the inconsistencies in the Comprehensive Plan. We have identified a few, but we've identified a lot more that would be advanced by the text amendment that includes some of those others that we've already discussed, like the FLUM and the Generalized Policy Map, but also some of those Comprehensive

Plan policies related to, specifically, Rock Creek West, land use, transportation, environmental protection, and educational facilities.

2.

Next slide please. So that is the end of my presentation. We believe that the text amendment is not inconsistent with the Comprehensive Plan, as reviewed through the racial equity lens. Any other potential inconsistencies we believe would be far outweighed by those that we've identified on the previous slides. I'm going to go ahead and pass this back to Mr. Brown, but I'm happy to address any questions that you have when it's time for that. Thank you very much.

MR. BROWN: Chairman Hood, at this point, that's our basic presentation. I'd like to reserve a few moments for closing, but I would open it up to Commissioner questions.

CHAIRPERSON HOOD: Okay. Thank you, Mr. Brown. Generally, in rulemakings we don't have closings, but I will -- I've always been fair across the Board. We will make -- we will see what's needed at that point. Okay. Let me open it up for any questions or comments. Let me thank you all for your presentation. Let's see, Vice Chair Miller, you have any questions or comments?

VICE CHAIR MILLER: Thank you, Mr. Chairman and thank you to Wesley's representatives, Pat Brown and the President of the University and Brandice Elliott for your presentation and all the work that's gone into this application and the community

engagement that's been held with ANC 3D and ANC 3E, the affected Advisory Neighborhood Commissions and other citizens. I don't want to -- I'm not going to ask -- I only have one question really to ask, Mr. Chairman, 'cause I want to hear from -- we'll listen to -- get to the public testimony from those ANCs and the Citizens Associations, Spring Valley Wesley Heights and Neighbors for a Livable Community and Spring Valley Neighborhood Association and the ANCs and others who are interested in this case, who have been for some time, so I'm not going to take up a lot of time.

The -- this is basically the -- this has been a long I appreciate Wesley attempting to -- this is basically process. the third iteration of a proposal to accomplish the objective of having a dormitory on Wesley's campus, which is adjacent -immediately adjacent to AU's campus, and that dormitory would primarily serve AU's -- American University's needs, so it's a unique situation. I see it as a unique situation. And Wesley obviously needs the revenue stream from that dormitory to -- from Landmark's development of that dormitory in order to meet its needs to thrive -- to stay and thrive at that location, according to their own testimony. I know that's disputed by others. the question I have is regarding the inclusionary zoning offsite. If you could just -- Mr. Brown or whoever, you had a slide in your PowerPoint on the inclusionary zoning. Maybe if you could pull that up or if you could just explain, what is the -- the Office of Planning, as you've mentioned, has recommended

alternative -- recently alternative language on the inclusionary zoning offsite, which I understand from your testimony tonight you are in agreement with. If you can just confirm that you are in agreement with the Office of Planning's alternative language on inclusionary zoning, and then this -- and I'll ask the Office of Planning and others when we get to them. What do you -- what is the amount of inclusionary zoning that would be provided under that alternative language that requires offsite affordable housing in Ward 3 to be developed in conjunction with this project? Can you say what the amount is and what the status is of actually identifying that affordable housing?

MR. BROWN: One, Vice Chair Miller, we are in agreement with the OP language, but we need to recognize that that language says will provide or shall provide inclusionary zoning, subject to the established requirements. Wesley is not -- Wesley is not in the business of building affordable housing, so we'll need the ability to work with somebody who does build affordable housing. We've -- and the way the OP language is written, we're subject to the established requirements, eight or ten percent minimum IZ, depending on the type of construction. And for our building we can figure out the number of square feet that quantifies to, and then quantify that --

VICE CHAIR MILLER: What is that -- what is that amount of square feet?

MR. BROWN: It's about -- it's about 23,000 square

feet, but I don't have the number in front of me -VICE CHAIR MILLER: Say that again.

MR. BROWN: -- but it's about 23,000 square feet, based on the current calculations for the building at ten percent. We're only required -- given the type of construction proposed for this building, it only required eight percent, but that's about ten percent of the residential area of the new dorm. And then -- and the Campus Plan process will lay all that out in final detail and how we propose to meet those requirements. Currently, our estimate is in excess of ten percent IZ; we'd have a dollars-and-cents value of about eight million dollars. That's based on our calculations, and we'll have to present that at the Campus Plan stage.

We're working with -- we're working with ANC 3E. We're also working with LISC, the local affordable housing operation. We're also working with individual housing providers, Somerset Development, looking for -- and other developers, looking for a home for these IZ units. We don't have an answer to that now, but the obligation and the burden on us is to establish that in the Campus Plan process. I will say that one of the difficulties is marrying up our offer of IZ support with either existing projects or the timing with future projects, and those are -- those have been stumbling blocks that we're continuing to work on. As a general matter, somebody who's already got a project with IZ is not in a position to add more IZ at this stage, and

projects that we would very much like to participate in need the support now, not at the conclusion of the Campus Plan process. So we're working through all those issues and we'll put together a full proposal in the context of the Campus Plan.

2.

VICE CHAIR MILLER: But you don't anticipate having a -- even a sketch of a proposal before you would want us to take action on this text amendment?

MR. BROWN: We could provide a sketch, but I'm not so sure it would -- it certainly wouldn't meet the standard set forth in the text, itself, nor would it be really a finished product. We could certainly do that, with the understanding, Vice Chair Miller, that that would be a concept that may evolve in the process.

VICE CHAIR MILLER: Okay. I'll explore this further with the Office of Planning and others, but in terms of just a concept -- interesting word -- concept of a plan sounds familiar -- would you -- are you open to exceeding the set-aside requirements -- the minimum set-aside requirements, as has been suggested by I think at least -- if not -- and I'm not sure if that's -- I think ANC 3E has been the strongest proponent of that, but also the Washington Interfaith Network of Ward 3 Congregations. And I need to take this opportunity, Mr. Chairman, to say that I have reviewed all the public testimony that's been submitted so far, including those that I mentioned and the one I specifically just mentioned, the Washington Interfaith Network

of Ward Congregations. I should disclose that I am a member of one of the five congregations that make up that working group of -- that WIN working group that submitted testimony. I have not participated in any way with their work or discussions about this proposal or any proposal, so I make that disclosure, and if any of my colleagues have a concern or if any of the persons testifying have a concern, they can express that during their time.

CHAIRPERSON HOOD: Vice Chair, let's do this right now. Anybody has any problems, the Petitioner or any of my colleagues? We all -- we don't just do zoning. We all live in the city. We all do other things. And that happens from time to time, but as Vice Chair Miller just mentioned, a lot of times we have to take a step back, because we know our roles here. Let's just get that off the table right now. Any issues?

(No response.)

2.

CHAIRPERSON HOOD: All right. Vice Chair, no, you're going to have to stay with this. Thank you. You can keep going.

VICE CHAIR MILLER: Okay. We'll see if anybody else has issues with it too. But -- so WIN -- that working group did suggest that 15 percent should be the minimum, given the amount of relief and extraordinary relief that's being provided in this extraordinary situation -- that would be provided in this extraordinary situation. Are you open to that concept?

MR. BROWN: Well, the number we've floated and that's

in the record and has been a part of discussions, we expect to exceed even the 10 percent level. Our building, given its construction type, would be an eight percent requirement, so we expect to exceed the minimum. I'm not in a position to agree to 15 percent. The extraordinary relief I think we could have a dispute or a discussion about. This is not a PUD; we're not getting any additional density; we're not getting any IZ bonus that typically an IZ project would have, but having said that, we've already committed to exceeding even the 10 percent level.

2.

VICE CHAIR MILLER: Okay. Thank you for that response. Mr. Chairman, I have no further questions at this time. I'm sure I will have some after I hear from the public -- from the Office of Planning and the public testimony, so I turn it back to you, Mr. Chairman. Thank you very much for your responses and thank you for the presentation, Mr. Brown. Mr. Chairman, I turn it back to you. Thank you.

CHAIRPERSON HOOD: Okay. Thank you. Commissioner
Wright, can I come at you now -- can I come at you next?

COMMISSIONER WRIGHT: Yes. I only have one question at the moment. I have a number of thoughts that I want to ponder a little bit more, but one direct question that I have is how will you memorialize that all the tenants of this new building will be students, whether at Wesley or AU? How will that be committed?

MR. BROWN: Only students who are enrolled at one of

the two schools will be eligible to enter into a lease, and those students will only be -- in the unlikely event that a student--

2.

COMMISSIONER WRIGHT: But how are you committing to that in a public way? I understand you're saying that today in 2024. How are you committing to that in perpetuity?

MR. BROWN: Well, that would be -- it was in a set of draft conditions to the Campus Plan, and we would certainly continue that in the conditions in the Campus Plan Order, among a whole host of other things of critical importance. I know for ANC 3D, the continued maintenance of the green open space are areas that they wanted to see continued basically perpetually, so those are all things that would be in the conditions.

COMMISSIONER WRIGHT: That would be in the Campus Plan conditions. My other question, 'cause I know it was mentioned in one of the letters or testimony that has been submitted already, what are you doing about pedestrian connections between the two campuses? Are you going to be able, since there will be residents of both -- if this is approved, there would be residents who would be going both to Wesley and to American University, would you facilitate pedestrian connections between the two properties?

MR. BROWN: Well, currently, there's a fence between the two properties with a limited-access gate. It would not -- as a condition of American University, we would very much like to see ease of access for these residents of this dorm on the

Wesley campus through that gate or some similar gate and would encourage that, but that's not -- we can't do that unilaterally. I think that's one of the issues that -- or recent discussions with American University would allow to occur. I don't want to speak for American University, but that's certainly something that -- that's clearly something that we'd like to pursue. It makes sense.

23

24

25

COMMISSIONER WRIGHT: Yeah. I think that that would be really important. And, in fact, one of the things that I'm interested in, although I don't know how deeply to delve into this, is the actual arrangements that you have between yourselves and American University. I almost wondered why they weren't coapplicants of the zoning text amendment, And I think that would But I think it's actually make even for a stronger case. important in future discussions, as this continues, for us to really understand the relationship between Wesley and American University for this project, because, again, if it's really intended to be a dormitory or a residential building for both universities, it needs to be, you know, discussed in that way at every instance. So I think those are my only comments or questions at the moment.

REVEREND MCALLISTER-WILSON: Let me respond briefly to say that the connection between the two institutions is historic. We're both institutions related to United Methodist Church, we share some joint degree programs, and always had a good

relationship with AU. It's only with the arrival of the new President a few months ago that AU has been willing to talk with us about these matters. And I'm very much looking forward to President Alger and his team working with us to address all of this, because there's a lot of deep connections between these institutions, and that is true at the student level, but also the administrators and faculty and staff as well.

COMMISSIONER WRIGHT: Thank you. I don't have anything else at the moment.

CHAIRPERSON HOOD: Okav. Thank you. Commissioner 11 Imamura, any questions or comments?

COMMISSIONER IMAMURA: Thank you, Mr. Chairman. No real questions, just maybe a comment or two. I think picking up on Commissioner Wright's comment, this is something that the Commission has asked for the past couple of years now. I know that we've been at this for a while. Mr. Brown and Dr. McAllister-Wilson, I'm as eager as you are to reach a resolution on this. And, Ms. Elliott, thank you for your explanation as well tonight. I don't have any questions. I'm interested to hear what the public -- the public testimony, but I was pleased to see that there was a letter finally in the record from AU, again, two years ongoing, so it's trending in a better direction, so -- but to Commissioner's Wright point, I'd like to see a little bit more work there, but that's all that I have to share. Thank you, Mr. Chairman.

CHAIRPERSON HOOD: Okay. Thank you. Commissioner Stidham, any questions or comments?

25

COMMISSIONER STIDHAM: No questions or comments. I also am very eager to hear from the public, so that's it.

CHAIRPERSON HOOD: Okay. I will tell you, Mr. Brown Wilson -- President McAllister-Wilson, Elliott's submission or appreciate hearing Ms. her oral presentation to us this evening. It helped me understand and get -- try to get there better. I know there's some things that we need to kind of fine tune and was glad to see that we -- as my colleague, Commissioner Imamura, and others have mentioned, was glad to see that we finally got some kind of spark from American University. And I appreciate the analysis that Ms. Elliott gave us. I think -- I think it's -- it definitely helped But let me ask this, Mr. President. You have mentioned -you say something to us every time, and it sticks with me for sure -- you have to take other -- I always -- you always make sure that you give me the last sentence of, "If not, we have to look somewhere else." You know nobody wants -- I believe even the residents -- nobody wants you all to leave, I mean, so I want to say that publicly. I think -- I even think the people who may be in opposition of how we're getting there -- nobody, I think, wants that. Do you get that feeling? Do you feel like people want you to leave? I'm just curious.

REVEREND MCALLISTER-WILSON: No, you're quite right.

Everyone we've spoken with, all of the -- all of the opposition, both as groups and individuals, have expressed the desire that we thrive in place. This was a remarkable opportunity 60-plus years ago for this institution to be on this property and remain so. And everyone we've talked with, especially us, want to thrive in place.

2.

CHAIRPERSON HOOD: Okay. I'm glad to hear you say it. But I want to say this for those coming, and I'm not sure what's going to be said -- I agree with my colleagues, let me hear what -- but I think this -- as we mentioned, this has been around for a while. We've set it back. We've been tossing and turning, trying to figure out a way, and I think we've come a lot closer to making this a reality, as opposed to where we were when we first started.

I would like to hear -- 'cause one of the questions I do want to ask the opposition is -- and I'm saying this so they can get ready for it, but one of the questions I know that I want to ask is, what other alternative do you have? We've done -- we have moved and pushed back -- what other alternative do you have to make sure that Wesley's able to stay in the city, which I've heard everybody say -- and I will take it back if somebody says we didn't say that, and I'm speaking to those in opposition -- what other alternatives -- and I know some of the alternatives you gave us, but it doesn't fit our requirements -- so what other things, other than this text amendment and if we move forward

with some of the tightening up, which my colleagues have already mentioned -- what other alternative -- because if we keep this any longer, then Wesley will be coming -- you know, they're going to be around for a long time.

2.

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

And here's the other thing, I want to say this, and I'm not lecturing; I'm just saying it. What I've learned being on this Commission and what I've heard all over the city, and I'm not minimizing any ANCs -- at the last hearing we had a couple of weeks ago, one of the ANC Commissioners caught me in the street and said, "Anthony, do not minimize ANC's positions." "You know I don't do that." She said, "Well, it sounded that way." So sometimes we get chastised even when we're in the street. And this is a good friend of mine. But I think that -- through this all, I think that the issue is to come up with a win-win, especially so a campus can thrive, because what I've learned to come accustomed to -- and I'm saying this to those in opposition, and I know you all are probably going to blast me -- what I've learned to understand, everything does not stay the same; things do change. We have to try to make things work, try to make things fit, and try to figure it out, so we can do that together, so anyway -- all right. Anything else? And that was just my soap box going off on the corner. All right. Anybody else have any follow-up questions or comments?

(No response.)

CHAIRPERSON HOOD: All right. Ms. Schellin, do we have

1	any other government agencies? I don't think so.
2	MS. SCHELLIN: I do not believe we have anyone here,
3	but let me double-check. Let's see, I can't remember I know
4	we didn't have any who signed up ahead of time, so
5	CHAIRPERSON HOOD: Well, let's
6	MS. SCHELLIN: I'm going to say no.
7	CHAIRPERSON HOOD: And I'm sure they'll contact us if
8	we've messed up, so
9	MS. SCHELLIN: That is correct.
10	CHAIRPERSON HOOD: Okay. So let's go to any ANCs. And
11	this ANC issue is citywide I believe, even though I think it's
12	only
13	MS. SCHELLIN: No, it was only specific.
14	CHAIRPERSON HOOD: It was specific? Okay. Normally,
15	a text amendment is to everybody, so I figured everybody
16	MS. SCHELLIN: Well, yeah, but this was for a specific
17	area only
18	CHAIRPERSON HOOD: Okay. All right.
19	MS. SCHELLIN: and regarded this university, but
20	so ANC 3E and 3D.
21	CHAIRPERSON HOOD: 3E and 3D. Let's bring them up.
22	MS. SCHELLIN: Yes. And the representatives let me
23	see. I'm sorry. Let me find out who the representatives are
24	for these. I believe it's Mr. Elkins and Mr. Bender, but I want
25	to make sure. Mr. Brown, is that correct, Mr. Elkins and Mr.

1 Bender, or do I have --2 MR. BROWN: It could be the Chair, Tricia Duncan, from ANC 3D. 3 4 MS. SCHELLIN: Oh, I'm sorry. 5 CHAIRPERSON HOOD: And Mr. Elkins -- bring them all up. 6 Bring everybody up. Bring them all up, if they're here. 7 MR. BROWN: And Mr. Bender from 3E. 8 MS. SCHELLIN: I don't see Ms. Duncan, unless I've --9 CHAIRPERSON HOOD: I think Mr. Elkins -- Commissioner 10 Elkins is speaking for -- the way I read the submission was he's 11 speaking for 3D. 12 MS. SCHELLIN: Yeah, that's what I thought too, yeah, 13 and he's on. 14 CHAIRPERSON HOOD: If Duncan is here, bring her up to. 15 Bring everybody. 16 MS. SCHELLIN: She's not. CHAIRPERSON HOOD: Okay. All right. So what we'll do 17 18 is --19 MS. SCHELLIN: And I don't see Mr. Bender, unless 20 they've already brought him up. 21 CHAIRPERSON HOOD: No, Mr. Bender's here. 22 MS. SCHELLIN: Mr. Bender's up. Okay. Good. I think 23 that's it. 24 CHAIRPERSON HOOD: Okay. I done been in trouble once 25 already

1	MS. SCHELLIN: I'm sure Mr. Elkins or Mr. Bender will
2	let us know if we've missed anyone, but I think that's it.
3	CHAIRPERSON HOOD: Okay. I don't want to get in anymore
4	trouble with ANCs, so I don't
5	MS. SCHELLIN: Right. I think that's it for the ANCs.
6	CHAIRPERSON HOOD: All right. Mr Commissioner
7	Bender, do you want to go first? I think the majority of it
8	is in your area, correct, or am I
9	ANC COMMISSIONER BENDER: Well, it's all of Wesley
10	Theological Seminary is in our area, but a lot of the private
11	residences are in 3D.
12	CHAIRPERSON HOOD: So who would like to go first, either
13	Commissioner Bender or Commissioner Elkins; which one of y'all
14	would like to go? I'm going to leave that up to you all to make
15	that decision.
16	ANC COMMISSIONER BENDER: I'm happy to go first, but
17	I'm also happy to wait.
18	CHAIRPERSON HOOD: All right. Since you're happy, go
19	right ahead, Commissioner Bender.
20	ANC COMMISSIONER BENDER: Okay. And, Mr. Commissioner,
21	I need about 20 minutes. Is that okay?
22	CHAIRPERSON HOOD: I don't think we have a limit for
23	Commissioners.
24	MS. SCHELLIN: We do. It's on rule-makings, it's
25	only five minutes for ANCs, three minutes for SMDs, three minutes

1	for individuals.
2	CHAIRPERSON HOOD: Oh, okay.
3	MS. LOVICK: That is correct.
4	MS. SCHELLIN: Rule-making it's just five minutes.
5	There are no parties. ANCs get five minutes.
6	MS. LOVICK: Sorry. Excuse me.
7	CHAIRPERSON HOOD: Ms. Lovick.
8	MS. LOVICK: Hi. I'm just wondering, shouldn't OP
9	I just wanted to ask, because
10	MS. SCHELLIN: Yes, OP needs to go if they didn't. I
11	thought they went.
12	MS. LOVICK: No.
13	CHAIRPERSON HOOD: No, no, they didn't. Okay. You
14	know, we don't do a whole lot of rule-making, so you're right.
15	Commissioners, let's keep them up. Let's go to the Office of
16	Planning. Thank you, Ms. Lovick.
17	MR. LAWSON: There we go. Good evening, Mr. Chair and
18	members of the Commission and members of the ANC. Nice to see
19	you all. My name's Joel Lawson. I'm with the DC Office of
20	Planning and I am filling in tonight for Maxine Brown-Roberts on
21	this case. I'm going to keep this very short, because I know
22	that you're looking forward to hearing from the community.
23	In response to discussions with and filings by the
24	applicant, other District staff, ANCs, community individuals, in
25	our most recent report at Exhibit 28 (indiscernible) recommended

- language for Subtitle X, Campus Plan Regulations, Section 101.5, 1 2. as well as Subtitle C, Chapter 10 --
- MS. LOVICK: Wait. Sorry. I'm having trouble hearing 3 4 Apologies for interjecting, but is there -- is there an issue with your audio? Or maybe it's just me.
- 6 VICE CHAIR MILLER: Audio was going in and out for me 7 too.
- 8 MS. LOVICK: Okay. Sorry. I just need to be able to 9 I can't hear. I apologize. hear it.
- MR. LAWSON: All right. Is this better? I'll try to 10 11 speak up.
- 12 CHAIRPERSON HOOD: Sometimes -- let me just say this. 13 I allowed it to go for a few minutes. I was having the same 14 problem. Sometimes it works itself out, but, Mr. Lawson, if you 15 could try again.
- 16 I'm sorry. Is this better? MR. LAWSON:

5

19

20

21

22

23

24

25

- 17 CHAIRPERSON HOOD: Yeah. If you sit closer to your 18 mic.
  - MR. LAWSON: Sounds great. I will do that. So, as I was saying, the we proposed two sections to -- for text amendments in the regulations and we have discussed the changes with the applicant. The applicant has already discussed those as part of These text amendments are intended to their presentation. address a need by Wesley to provide this income-generating use, which will be for student housing for Wesley and AU students, to

allow them to stay at the site, to continue their mission within the District, and OP is trying to balance that with protecting the integrity of the zoning regulations and processes. The proposed language is intended to apply only to this unique site and this unique situation, as the applicant stated. Should this text amendment proceed forward, the proposed University housing development would still require further processing review before this Commission. On balance, the proposal is not inconsistent with the Comprehensive Plan, including when viewed through a racial equity lens, detailed in the OP reports at Exhibits 10 and 28 and in the applicant's fillings.

2.

2.2

There is certainly some opposition that continues to various aspects of this proposal. There is also support in the community. OP appreciates the input and comments from both proponents and opponents of this case, as well as the applicant's willingness to discuss this (indiscernible). We'd request flexibility to continue to work with (indiscernible) staff on any final language that may be considered by the Commission. And, with that, thank you.

CHAIRPERSON HOOD: Okay. Thank you, Mr. Lawson. Let's see if my colleagues have any questions of the Office of Planning. Vice Chair Miller.

VICE CHAIR MILLER: Thank you, Mr. Chairman, and thank you, Mr. Lawson, for the Office of Planning's report in -- the most recent report on this case and all of the work that your

office has done in the past and to date. Let me ask you about the inclusionary zoning and the alternative language that your office has proposed and Wesley has accepted. Can you just briefly summarize what the -- what requirements -- what the IZ requirement would be under that provision?

1

2.

3

4

19

20

21

22

23

24

25

MR. LAWSON: Oh, I agree with the applicant's assessment. It would be the basic IZ requirement. It's not an unusual requirement. It's not something unspecific, in terms of the -- in terms of inclusionary zoning, so depending on the construction type, it would be eight or ten percent of the requirement. The provisions have built in some assurances. Ιt builds in some flexibility that's normally available to an applicant, as part of the -- as a part of a BZA request for IZ offsite flexibility. It would also provide some certainty, and that's what the text amendment is intended to do, but it's essentially a requirement that would be required otherwise.

VICE CHAIR MILLER: Has the -- thank you, Mr. Lawson for that response. The existing -- the current provision of the regulations for - offsite IZ, there is a -- there is a current provision for -- that allows for offsite provision of inclusionary zoning, correct?

MR. LAWSON: Correct.

VICE CHAIR MILLER: And how -- I think I was involved in one BZA case where that was applied. Is there more than one? Has it been applied very often?

MR. LAWSON: It's being applied very, very infrequently. It's not normally something that we specifically encourage applicants to do. IZ is intended to provide affordable housing, you know, on individual properties to spread affordable housing throughout all parts of the city. In this case, the IZ use would obviously be targeted to the neighborhood. I don't actually remember a BZA case where this was dealt with. There were one and maybe two Zoning Commission cases --

VICE CHAIR MILLER: It might have been a Zoning Commissioner -- I was remembering a Habitat for Humanity case.

MR. LAWSON: Yes, that was a Zoning Commission case from four or five years ago -- at least four or five years ago. Yeah, so it's not something that we've seen very often and obviously something that you've not seen very often either.

VICE CHAIR MILLER: And more specific requirements associated with that, such as the concept of increasing the minimum set-aside beyond the minimum eight to ten percent -- ten percent you said would apply in this case -- that could be memorialized in the Campus Plan condition?

MR. LAWSON: I'm not sure -- if the Commission decides to proceed forward with that, I'm not sure, honestly, the best way that that would happen, whether it would happen through the text amendment or whether it would happen through the Campus Plan further processing or maybe a little bit of both. If the Commission decides to go down a route like that and the applicant

is amenable to that, then that is language we'd have to work out with the applicant, who is not OP. We'd have to work that out with the applicant and probably (indiscernible) staff.

VICE CHAIR MILLER: Thank you for that response. That's it, Mr. Chairman, for my -- for now. Thank you very much.

CHAIRPERSON HOOD: Thank you. Commissioner Wright, any questions of the Office of Planning.

COMMISSIONER WRIGHT: I just wonder -- obviously, somewhere in the city we've approved new dormitory buildings in the past, and probably in the recent past. How did we deal with IZ in those -- in those instances?

MR. LAWSON: That's a great question. And, first of all, because I haven't had a chance to, I'd like to welcome Commissioner Wright to the Commission. It's nice to see you. I don't think I've had an opportunity to since you started. Α dormitory is typically not subject to IZ at all. In fact, the zoning regulations specifically exempt dormitories inclusionary zoning. What's different about this case is that a dormitory that would include students from it is two universities. Most dormitories obviously do not (indiscernible) so typically IZ would not apply.

COMMISSIONER WRIGHT: Great. So, basically, if this was a dormitory just for American University or just for Wesley, there would be no question that IZ would not be required, but because it's being used by both schools and there's a -- again,

I think a strong need for more inclusionary zoning in Ward 3 and there seems to be a commitment from Wesley to that concept, they are looking at doing inclusionary zoning at a level that is commensurate with a non-dormitory type of residential building; is that correct?

23

24

25

MR. LAWSON: That is basically correct, yes. was -- if it was a dormitory on a university campus and part of that campus's Campus Plan, then it would not be subject to IZ. So, for example, a dormitory for AU not on the AU campus would have different requirements altogether. And that's what's kind of tripping people up here, in that it's a dormitory for two universities, but I very much agree with your assessment that it is providing a considerable amount of new housing in an area where there is a need for new housing, and it will -- we agree with applicant that it has the potential to free up housing throughout the neighborhood, through the Ward 3 area, that would be then available to other people. And it's been a long time since I was a student, but, certainly, when I was a student, I was definitely looking for lower-rent housing when I was not living on campus, and so I -- we agree with the applicant; it's definitely has the potential to free up lower-cost housing throughout Ward 3 that would otherwise and currently potentially (indiscernible) --

COMMISSIONER WRIGHT: Okay. Thank you so much for explaining some of that to me. Thanks.

I don't have any

to have to

1 MR. LAWSON: Thank you. 2 CHAIRPERSON HOOD: And Commissioner Imamura, any questions? 3 4 COMMISSIONER IMAMURA: No questions; just one comment, 5 that I'm incredibly impressed by the remarkable memory of Vice Chair Miller and Mr. Lawson for a case that happened four years 6 7 ago with the hundred other cases that's probably happened in between since then. So, otherwise, no additional comments or 8 questions. I do want to thank Mr. Lawson and the Office of OP 9 10 for the additional work to finesse and fine tune the language that you always do with these kinds of cases. And I think 11 12 something that struck me, Mr. Lawson, was your -- the language 13 that you used to protect the integrity of the zoning regulations, 14 so I thought that was important. I just want to underscore Mr. Lawson's remarks about that. So thank you, Mr. Lawson. 15 And, 16 Mr. Chairman, I don't have any other questions. 17 CHAIRPERSON HOOD: Thank you. Commissioner Stidham, 18 any questions of the Office of Planning? 19 COMMISSIONER STIDHAM: No questions at this time; just 20 thank you, Mr. Lawson, for your time this evening. 21 CHAIRPERSON HOOD: Okay. And, Mr. Lawson, I join the 22 choruses. Thank you as well. We appreciate all the work that

25

questions.

regulations, which each person gets five minutes, as Ms. Schellin has stated. We have read your submission. I would just hit the highlights. We get what you're saying about the Landmark and Ward 3. We get all that, so I would just say hit the highlights, so we can stay within the required time.

2.

COMMISSIONER BENDER: All right. I thank you, Mr. Chair and fellow Commissioners. I will say we spent a lot of time on this and it was based on the rules that don't say anything specifically about the ANC. I'll do my best. I'm here to present the testimony of 3E. I think I'm supposed to state my address. It's 4411 Fessenden Street, Northwest, Washington, DC 20016.

We are concerned here, Mr. Chair, as we've been from the beginning, with affordable housing. We believe that this is something that requires extraordinary relief and we think that affordable housing should be commensurate. This is a project that couldn't be done by a PUD, much less as a matter of right, because DC law doesn't permit it. If it did, Landmark wouldn't be here. Landmark now asks you to amend the DC Zoning Code just for them and Wesley, but their petition proposed to exempt them entirely from the IZ requirement that would attach to their project if it was a matter of right. They appear to have moved on from that, which we're -- which we appreciate.

OP's supplemental report said -- and I quote, "The clearest impact of the proposed text amendment when viewed through a racial equity lens is the relative lack of any impact."

That's page 12. On page 11, they say, begin quote, "When viewed through a racial equity lens, it's not envisioned or expected that the additional housing on campus for students would have any impact on the cost of housing in Rock Creek West area." OP does allow that it's possible that a few rental housings for non-students might be freed up. We agree with this.

2.

The primary relevant market for Landmark is likely composed of its building and dorms on AU's campus. AU has stated to us directly and in their letter for this matter that they're spending millions of dollars to increase the appeal of their own dorms. And so it's kind of hard to see what Landmark's luxury dorm is going to offer that AU isn't trying to provide. AU also said that they have no wait list for campus housing, they have no need for this project, and they're moving to a two-year oncampus housing requirement for undergraduates that they told me they can accommodate entirely in their existing on-campus housing, so AU doesn't need this project. It's not a dorm for AU. It's a commercial apartment building that will compete with AU.

Meanwhile, Ward 3 desperately needs affordable housing for DC residents. We have the least amount of dedicated affordable housing in the city. The Mayor set a goal of about 2,000 new affordable units in Rock Creek West, and we've only achieved about ten percent of that. If there's anything that would justify changing the Zoning Code to allow Landmark to build

this apartment building, it's the provision of a substantial amount of dedicated affordable housing. We're not aware of any text amendment that has ever exempted a Petitioner from IZ requirements or any text amendment for an individual applicant that has ever provided anything near this kind of -- this scope of relief.

2.

Our big concern -- number one concern here is Landmark keeps saying they want to spend this eight million dollars. We've worked with a developer, who doesn't want to be identified, who looked at numbers and said that the eight million dollars is about half of eight percent IZ, based on their calculations. It's absolutely essential that Landmark have to produce either actual substitute IZ or -- well, that's what they have to do. I mean, this notion that they're just going to give someone eight million dollars, which they've fixated on, is -- should not be acceptable.

And in terms of where that eight million dollars comes from, we were told at a public meeting that it's based on the savings from eliminating 95 parking spaces that they did at our request. We've introduced Landmark to a couple of developers in our neighborhood. So far, they say that they have not been able to do -- to work to get actual IZ done, but they've also said more than once that what they're trying to do is get the minimum IZ -- offsite IZ done with eight million dollars. And the possibility certainly exists that the eight million dollars is

just not enough. You know, there's concerns that -- there are concerns that --

MS. SCHELLIN: Time.

2.

COMMISSIONER BENDER: I'm sorry.

CHAIRPERSON HOOD: Commissioner Bender, just give me your closing thought. Your time is up.

COMMISSIONER BENDER: My closing thought is that more work needs to be done on the -- more work needs to be done on the text amendments. Hopefully, we can provide something in a post-trial submission. I don't think right now that it's -- certainly right now that the Zoning Commission would not be permitted to order more than the bare minimum of offsite IZ, as it currently stands, and so to the extent that that's something that you want to do, and we hope you will, some more work is necessary on that. Thanks, Mr. Chair and Commissioners, and I'm happy to take any questions you have.

CHAIRPERSON HOOD: Okay. Thank you. Commissioner Bender, I do want to point this out though, before we go on. As you know, this is a rule-making case, and typically in rule-making there are no parties. In contested cases -- in a contested case, ANCs are automatic parties, but out of respect for the ANCs, what we do in a rule-making, we call on the ANCs first, even though there are no parties. So that's why you had the same time limit as five and three minutes as for the regular general public, but in a contested case it's different, so I just wanted

to make sure I explain that. All right. Let's see if my colleagues -- and thank you for your presentation. Let's see if my colleagues have any questions. Vice Chair Miller.

VICE CHAIR MILLER: You want to go to Commissioner Elkins first or you want to do 3E -- just 3E?

CHAIRPERSON HOOD: I don't want to mix them up -- mix up the comment sections, because I don't know about you, Vice Chair, but all that that Commissioner Bender said, I want to make sure I focus on him. I want to give everybody the attention needed, so let's go to Commissioner Bender first.

VICE CHAIR MILLER: Okay. Thank you. I think that's perfect. Thank you, Commissioner -- thank you, Chairperson Bender. You're a chairperson, right, of 3E?

COMMISSIONER BENDER: Yeah.

2.

VICE CHAIR MILLER: Thank you, Chair Bender, for your -- all your work on this case from its various iterations up to now. I appreciate your comments, and they've given me a lot of food for thought, and I will continue thinking about them as we go along. I think what I've -- and, you know, you've focused on that the eight million wouldn't cover the basic minimum, based on your own conversations with the developer. The reference to the requirements -- the reference in the provision that's being offered now to the requirements for that amount, as I understand it, would be tied to the square footage of the dormitory to be built at Wesley, so if they said it was -- that

ten percent comes out to about 23,000, so whatever it costs to produce 23,000 square feet of -- if that's the right number -- of affordable housing in Ward 3, would be the -- would be the dollar amount. I don't think the requirement -- or the enforceability of the requirements would get into the dollar amount, so it would be tied to the square footage, whether it's 23,000 or 46,000 or whatever. So I just wanted to make that comment, and I look forward to whatever additional text amendment language your ANC thinks would perfect that provision or, not perfect, help make it more perfect maybe, just to use a phrase like that -- better improved -- and I look forward to your advice or comments on that in the future. That's it, Mr. Chairman. Thank you. Mr. Bender, if you have a comment on that, yeah.

2.

COMMISSIONER BENDER: Well, yeah, just briefly. Thank you very much, Vice Chair Miller. The issue is, I think that the way that the current language reads, you are correct. I do notice though that during their testimony, Mr. Brown talked about how much -- continued to talk about how much IZ he thought eight million dollars was worth, and he mentioned LISC and Summit (phonetic) Development, both good groups who we like. They don't do IZ though, right; they do regular affordable housing. And Landmark has continuously asked to -- or said that what they want to do is to spend eight million dollars on a project like that, and that will be the equivalent of -- now they're saying it's ten percent IZ. My comment is only, we should not go in that

direction. That's -- that puts us in the position of trying to compare apples to oranges, which is -- I don't know how we could really do that. So to the -- yes, I think the language that OP has, at least -- unless it's badly interpreted, would, in fact, require genuine offsite IZ. And like I just said, I feel like the Petitioner is still sort of trying to nudge us away from that.

VICE CHAIR MILLER: Thank you. Thank you, Mr. Chairman.

CHAIRPERSON HOOD: And Commissioner Wright, you have questions or comments?

COMMISSIONER WRIGHT: Not offhand, other than Ι recognize the difficulty in figuring out a formula to calculate how much dollars -- how many dollars are associated with affordability. We worked on that a lot when I was the Planning Director in Montgomery County, and we tried to come up with some formulas. I would just suggest that as we move forward on this, you know, maybe we can look at either offsite IZ that's been required in other parts of the city for other kinds of projects or things that have been done in nearby jurisdictions with offsite affordable housing to try to come up with a rational way to calculate a formula that is a fair formula and that achieves the goal of actually getting the offsite IZ, which is incredibly important -- incredibly important to do. So I don't have answer, but I'm just maybe suggesting -- maybe it's to Office of Planning staff or to our legal staff -- that we should look around for

other examples from nearby jurisdictions or from what's happened in DC in the past to see if we can come up with some models for what the right formula would be.

VOICE: I agree.

CHAIRPERSON HOOD: Okay. I think that's good. So I think to the applicant -- I look to the Petitioners, to the Office of Planning, and to the Commission and everyone, I think Commissioner Wright has given all of us some homework, so I appreciate that, and I actually agree with her as well. Commissioner Imamura, any questions or comments?

COMMISSIONER IMAMURA: Mr. Chairman, yes. Chair Bender, thank you for your presentation this evening, as well as your commitment to affordable housing. It's certainly laudable and commendable and shared particularly in your Ward. So I think what you're championing is important, especially since your particular Ward is only, I think you said, about ten percent of the affordable housing goal set by the Mayor. I'm curious. You know, we are at any extraordinary circumstance here. They are asking for some extraordinary relief. You commented that Wesley has moved a little closer to the position of ANC 3E. unclear about is where is the goalpost. So how can we get to yes, or what is it that would bring ANC 3E to a yes? What is that definitive benchmark for that post?

ANC COMMISSIONER BENDER: Well, I mean, if we were looking to a particular amount of IZ, if we got that granular in

terms of what ANC is looking for, I think we would join the Washington Interfaith Network and say that 15 percent here at the normal IZ distribution. That obviously could be varied if, for instance, we were doing some of the housing at 50 percent and/or 30 percent MFI, which was something that Landmark and Wesley were offering with their so-called student IZ.

In terms of a text amendment -- well, as Joel Lawson said, you know, there are -- in terms of giving you the ability to order that, there are sort of two ways and you could combine them, which is either you could decide on something now, what the proffer would be, if you will, what the amount that'll be required and build that into the text, conditioned upon, you know, that they'll -- this relief is conditioned upon a certain amount. The text amendment could give you the authority in the Campus Planning process to decide on what amount is relevant, you know, or a little of both, which is -- I'd have to give some thought to how that would work. So that's what we want to see in a text amendment, at a minimum, is that you have the authority to do Ideally, it would be that you decide on what's -- what this. the amount is going to be and, ideally, if that's what you're asking, it would be in the vicinity of --

COMMISSIONER IMAMURA: So, I guess, is the expectation -- is your expectation -- because, again, you mentioned that they have moved a little closer in your direction. Is the expectation for them to move the entire way?

1 ANC COMMISSIONER BENDER: The entire way to 15 percent? 2 COMMISSIONER IMAMURA: (Nods head affirmatively.) ANC COMMISSIONER BENDER: Well, I didn't -- it's not 3 like we didn't -- we didn't make an offer expecting to like split 4 5 the middle -- split the difference. I mean, it's not an 6 expectation, but I think -- again, I want to make sure I answer 7 your --8 COMMISSIONER IMAMURA: Is it reasonable to assume that 9 maybe you won't reach the entire goal, all the way to 15, but 10 there's some reasonable number there that's a little closer in 11 that direction? 12 ANC COMMISSIONER BENDER: More is better --13 COMMISSIONER IMAMURA: Sure. 14 ANC COMMISSIONER BENDER: -- Mr. Commissioner. I mean, I certainly -- yeah. I mean, to the extent that this is a 15 16 negotiation between Wesley, Landmark, and ANC 3E, yeah, but --17 COMMISSIONER IMAMURA: Okay. It's fair to assume that 18 in a compromise, you know, nobody gets everything that they want, 19 right? Compromises are built on a lose-lose proposition, right? 20 So I just wanted to put that out there and see, you know, where's 21 that goal post for ANC 3E, so that way we're clear on the 22 Commission and everybody else publicly is also clear on what that goal post is. So, all right, thank you, Chair Bender. 23 24 Chairman, those are all the questions that I have. 25 CHAIRPERSON HOOD: Okay. Thank you. Commissioner

Stidham, any questions or comments?

2.

COMMISSIONER STIDHAM: Just really a clarification on Commissioner Imamura's question to the ANC Commissioner related to the rate. So I think I missed the part of the MFI. Did I hear you say 50 percent -- 50 to 80 percent of MFI for the 15 percent?

ANC COMMISSIONER BENDER: Well, I think the ask would be 15 percent at I think it's normally 60 percent MFI, but I also wanted to make clear that, for instance, if they offered 12 percent with a significant amount at 50 and 30 percent MFI, that certainly could work for us as well, and, in fact, I think it might be preferable, because we have very little housing in that range, particularly 30 percent.

COMMISSIONER STIDHAM: Okay. Thank you. Other than that, Chairman, I don't have any additional questions.

CHAIRPERSON HOOD: Okay. Thank you. Chair Bender, I was glad to hear you say that, because I'm always down to 30 to 50 percent as well, so let's see where we go with this. But let me ask you this. Didn't you all -- I'm trying to remember -- didn't ANC 3E tell us or push us towards a text amendment? Did I have that right or did I --

ANC COMMISSIONER BENDER: Yeah. I mean, we -- what we had suggested was that the way to do this was a citywide text amendment; that is, if we wanted to -- we, as a city, want to allow dorms to serve two institutions, that's something that

should be taken up in a citywide text amendment. You chose to do just an individual property text amendment, and we're not opposed to that. I don't think it's as -- from a public policy perspective, as good a way to do it, but we're -- yeah, we're not -- we're not -- we're not opposed in any way to this simply because it's a single property text amendment. And we did mention text amendments, because our sense was that was the only legal way that this could be done.

2.

CHAIRPERSON HOOD: Okay. And when I look at your -- and let me just say, I could tell you put a lot of time in it, so I see why you need the 20 minutes. You put a lot of time into your document -- into your resolution. When I look at your resolution, under the "Be it resolved", you did kind of opine on number one. But has this been -- and I'm sure it has -- has this been discussed counsel for Wesley? Have you all discussed like those -- I want to call them conditions, but they're not -- the three I guess --

ANC COMMISSIONER BENDER: Uh-huh.

CHAIRPERSON HOOD: -- proposals that 3E would like to see? Has these three things been presented to Wesley or to their counsel?

ANC COMMISSIONER BENDER: I believe they have. Would you give me just one sec? I've got all these Word documents here and --

CHAIRPERSON HOOD: Page 11, where you have your --

1	ANC COMMISSIONER BENDER: and so I just actually
2	want to look at the language. Let's see I mean, yes as a
3	general matter, yes, that we absolutely, that we'd like to see
4	a text amendment that essentially is enforceable and that
5	provides more than you know, provides IZ commensurate to the
6	relief sought, and yes.
7	CHAIRPERSON HOOD: Okay. I think you've answered my
8	question, so thank you and we appreciate all the work that ANC
9	3E has done, so thank you on that. All right. Hold tight. We
10	may have to come back to you. I don't think so. Commissioner
11	Elkins are you the Chair, Commissioner Elkins?
12	ANC CHAIRMAN EMERITUS ELKINS: No, I'm not. I'm
13	emeritus. We have term limits on 3D, so I can't be Chair.
14	CHAIRPERSON HOOD: Okay.
15	MR. ELKINS: But I appreciate the honor of being
16	emeritus. Thank you.
17	CHAIRPERSON HOOD: Okay.
18	ANC CHAIRMAN EMERITUS ELKINS: I am speaking on behalf
19	of all of ANC 3D. You will find our letter in the record, and I
20	would like to summarize it. In our view, this is just a common
21	sense proposition that the Zoning Commission should authorize the
22	building of this dormitory by way of the text amendments and
23	here's why.
24	First, we detail our letter in our letter the reason
25	we conclude that the proposed building does not pose any

objectional impact on the neighborhood. Secondly, American University has 5,000 graduate and undergraduate students for whom it cannot provide housing on its campus, and yet it has invited them to come to the District to study at AU, but live off campus. These students take up housing that would otherwise be occupied by DC residents, including teachers, police officers, and others. A Wesley dorm would help.

24

25

Thirdly, while the two campuses, Wesley and American, are institutionally separate, for the neighborhood, from a land use perspective, it is one large property in the middle of our neighborhood. Therefore, a common dormitory makes a lot of sense. We know of only four people who live close to the Seminary who want -- who do want Wesley to stay, but who object to the building. Two are a couple who live directly across from the Seminary and will be able to see the new building, and two live nearby, but out of site of the building and are on the Board of Directors of Neighbors for a Livable Community. What do these four neighbors say about the proposed building? And here's our quick reply, all of which are addressed in more detail in our letter. First, they say that we will have more students on the public sidewalks. This is true, but it's hard to find the use of public sidewalks as objectionable. Secondly, they say they will be able to see the building. But if all buildings on campuses had to be located out of sight of the neighborhood, most of our universities would have to pack up and leave the District.

Thirdly, they say the proposed building would add too much density to the neighborhood. This is not a proposal to build a mansion right in the middle of a neighborhood of small houses. In short, density, in and of itself, is not in our view objectionable. It sometimes is, but not in this case.

2.

Fourth, they say the building will hurt American University. Our answer is, that's not what American University says in its statement to the Commission. Fifthly, they argue that Wesley will never leave, so it's okay for neighbors to try to prevent Wesley from constructing this building. Our answer is, this is pure conjecture, which we address in more detail in our letter. Sixth, they also argue that American University or other academic institutions will come to Wesley's rescue. Our answer is, there's no factual basis for these assertions. Seventh, they say that ANC 3D proposes that Wesley move downtown. This is simply a mischaracterization of our letter.

One of the witnesses in opposition implies in his statement that ANC 3D Commissioners may be simply expressing our personal opinions about the project, rather than those of neighborhood residents. This is really a silly argument. Here are the facts. ANC 3D held many open discussions about the Wesley project. In 2023, we had three discussions, including a special meeting with a two-and-a-half hour discussion, and then we passed resolutions at three additional monthly meetings. In 2024, we discussed and passed resolutions at five separate monthly

meetings. Contrast this with how the two organizations in opposition have determined that they are not expressing their personal opinions. You can ask them how many public meetings they held to learn neighbors' views. I think the answer will be the same as usual, zero.

2.

On the basis of ANC 3D's multiple public meetings with neighbors, we can confidently say that we believe we understand and agree with our constituents in Spring Valley, mainly everyone wants Wesley to stay, even including the opponents in this hearing today, and most neighbors either find the proposed building to be okay or simply don't care one way or the other. The two organizations in opposition have brought forth numerous legal objections to the approval of these text amendments. They have expressed great worry about the zoning regulations and any precedent their approval might set. Certainly, any legal issues brought forward need to be seriously considered by this Commission, but, to paraphrase from Shakespeare's Hamlet, me thinks thou doth protest too much.

Finally, on affordable housing, the underlying zoning here is RA-1, so if Wesley sold the property to a developer, we would have single-family homes by right, likely large and multimillion dollars, and very few affordable actions -- affordable options for anyone. So we're concerned that the Commission give Wesley the flexibility to work out the affordable housing issue in the context of the Campus Plan and not restrict

the flexibility in any way in designing the program at this point in time by amending the text amendments. And although I don't know what a good procedure would be here, I offer -- I venture to offer that perhaps the Commission could make its final decisions on both these text amendments and the completed Campus Plan on the same day in the future, so that they can be appropriately coordinated once Wesley has worked out what they're going to do on affordable housing. So we do urge your Commission to move as quickly as possible. We shouldn't let the clock runout on this important decision for Wesley. And, Mr. Chairman, I would ask permission to submit this oral history in writing to the record after this hearing. Thank you.

2.

CHAIRPERSON HOOD: Okay. Yeah. I do know that we have an additional comment period. Thank you, Chairman -- I think you said Chairman Emeritus -- I think that's what you said, but thank you. But let me just say, that's why we wanted -- when I looked through the record, I saw that ANC 3E had some issues and I saw where you all -- that's why I wanted to take them separately, so I just wanted to say that's why I didn't take them together. Okay. Vice Chair Miller.

VICE CHAIR MILLER: Thank you, Mr. Chairman, and thank you, Chuck Elkins, for presenting ANC 3D's testimony and all of the work and community engagement that ANC 3D has done with your constituents with -- on this -- on this case and many other issues in the neighborhood. I appreciate the thoughtfulness of the

testimony that you've provided today and previously in the
previous iterations of this of this case. And I think the
suggestion of taking final action on the Campus Plan and the text
amendment, if that's possible, might be something worth
considering at least, if that is possible, so to insure that
they're they obviously are tied together. One facilitates the
other and one limits the other, so they are in tandem to it
would be useful if we could do that final action at the same
time, but there may be a sequence that needs to be to occur.
I don't know. So thank you just thank you for all of ANC 3D's
work. We I certainly appreciate it. Thank you, Mr. Chairman.
CHAIRPERSON HOOD: Thank you. Commissioner Wright, any
questions or comments?
COMMISSIONER WRIGHT: No. Thank you for your very
concise testimony. It was very helpful.
CHAIRDERSON HOOD: Commissioner Imamura any questions

CHAIRPERSON HOOD: Commissioner Imamura, any questions or comments?

COMMISSIONER IMAMURA: Thank you, Mr. Chairman. Just maybe a comment or two. One, I remain convinced, Commissioner Elkins, that you ought to do voiceovers and narrations for documentaries. About your testimony tonight, I do appreciate the fact that you remind everybody that it is RA-1 and what a future without Wesley might look like, particularly for the open space and how that might impact the neighborhood character, so I appreciate that aspect of your testimony tonight. So, yeah,

thank you for the work that you do on behalf of your community 2. and your ANC and for coming tonight to share your testimony with us. And, Mr. Chairman, that's all that I have. 3 CHAIRPERSON HOOD: 4 Okay. Thank you. Commissioner 5 Stidham, any questions or comments? 6 COMMISSIONER STIDHAM: No questions or comments; just 7 thank you for your perspective. Greatly appreciated. CHAIRPERSON HOOD: And, Chairman Emeritus, thank you 8 9 as well, as well as Commissioner -- Chair Bender. We thank you 10 both -- both ANCs for your perspectives and your comments, and we'll see how we move forward, so thank you both. All right. 11 12 Ms. Schelling, let's call -- let's just call five up. I don't 13 think we need to do --14 MS. SCHELLIN: Okay. We'll start with -CHAIRPERSON HOOD: Yeah, let's just call five. 15 16 MS. SCHELLIN: All right. Let me get to the list. 17 Starting with proponents, we have William Clarkson, 18 representing Spring Valley Neighborhood Association. So he has five minutes. Skip her. Then we have -- I'm sorry. That might 19 20 be our only -- let's see, Steven Carta (phonetic) was part of the 21 proponent -- I mean, the Petitioner, and I believe -- yeah, and 22 Tucker Snipes. So that's the only person in support. 23 CHAIRPERSON HOOD: Okay. I was going to ask you to 24 keep up with the time, but I think I can keep up with this time. 25 MS. SCHELLIN: Yes.

CHAIRPERSON HOOD: Okay. I'm just -- Mr. Clarkson, you may begin.

MR. CLARKSON: Can you all hear me?

CHAIRPERSON HOOD: Yes, we can.

MR. CLARKSON: Great. Thanks. I'll try to be as brief as possible. Chairman Hood and Commissioners, my name is William Clarkson, and I'm Co-President of Spring Valley Neighborhood Association, SVNA. SVNA has been an active member on the Seminary's Community Liaison Committee. It has participated as a party in support of the previous cases regarding this proposed project. We really appreciate the opportunity to take part in this important proceeding.

SVNA supports the proposed text amendments. We believe it is the best path forward for Wesley, as it seeks to remain on its campus in Spring Valley. As the Office of Planning hearing report states, the proposed text amendments, in conjunction with its Campus Plan, would not be consistent with the Comprehensive Plan maps and City of Rock Creek West area elements, including when evaluated through the requirements of the Zoning Commission's racial equity tool, and would allow the University to, quote, "thrive in place". Simply put, the Seminary has been a great neighbor and a valued part of our community.

Throughout this multiyear process, Wesley has continued to make a concerted good faith effort to proactively engage with community stakeholders and to address concerns about potential

objectionable impacts raised by neighbors, neighbors who actually reside in the affected nearby neighborhoods. I want to be clear on that point. With respect to objectionable -- potential objectionable impacts, our elected ANC 3D representatives, particularly Chairperson Tricia Duncan, who represents 3D-01, Spring Valley, and Chairman Emeritus Chuck Elkins, deserve a great deal of credit for going to extraordinary lengths to try and discern whether individual neighbors had any legitimate concerns about potential objectionable impacts to this project and, if so, what those specific concerns are.

While some residents might consider it objectionable for a new building to even partly be visible in the neighborhood or object to additional students walking on public sidewalks in front of their homes, please know that these concerns by no means reflect the majority view in our community. Frankly, many of our neighbors probably haven't spent much time analyzing the potential citywide legal and regulatory implications of the proposed text amendments. They are, however, very concerned about potential impacts on our community, including what could happen if Wesley is forced to close and sell the campus property.

While the ultimate goal of Wesley's opponents might be to preserve the neighborhood in amber, the sale of the campus property could lead to far more development, no affordable housing, and the loss of most of the property's publicly-accessible green space. Many of us are here today because we

deeply care about our community and recognize the importance of participating in good faith in a transparent manner. Moving forward, we look forward to continuing to work with Wesley, our elected ANC 3D and 3E representatives, American University, and other stakeholders who are genuinely focused on finding a solution to keep Wesley in place.

2.

One final point, and this was raised earlier, but we totally agree with the importance of engaging with -- Wesley and AU engaging substantively on these issues. We've been advocating that for a while. Commissioner Elkins, he's on -- I know he has been advocating that, as have others that you'll hear from or have heard from tonight. Our organization, SVNA, serves with others on the American University Neighborhood Partnership, and if there's an opportunity to help facilitate further engagement between AU and Wesley through the Partnership, we would definitely like to explore that possibility, if appropriate of course. And, again, thank you so much for our time and for all your work and other's work, the Office of Planning, on this multi-year process through different iterations and cases. Thank you.

CHAIRPERSON HOOD: Okay. Thank you. Let's see if we have any questions or comments for you. Vice Chair Miller.

VICE CHAIR MILLER: Thank you, Mr. Chairman. No questions, but thank you, Mr. Clarkson for all of your participation -- your organization, Spring Valley Neighborhood Association's community engagement and active work on this case

1	and other issues in your in the neighborhood and the
2	thoughtfulness that you bring to this hearing today. We really
3	appreciate it. Thank you.
4	MR. CLARKSON: Thank you.
5	CHAIRPERSON HOOD: Commissioner Wright, any questions
6	or comments?
7	COMMISSIONER WRIGHT: No questions. Thank you so much
8	for your testimony. It was very helpful.
9	CHAIRPERSON HOOD: Commissioner Imamura, any questions
10	or comments?
11	COMMISSIONER IMAMURA: Thank you, Mr. Chairman. I just
12	align myself with Vice Chair Miller's comments, Mr. Clarkson, and
13	would just add continued engagement over, as you've said, this
14	multiyear process, so and I think Wesley continues to hear
15	from multiple parties the need for additional conversations
16	between Wesley and AU, so it sounds like they're moving in that
17	direction, but more is better. So thank you, Mr. Clarkson, for
18	your testimony tonight.
19	MR. CLARKSON: Thank you.
20	CHAIRPERSON HOOD: All right. And Commissioner
21	Stidham, any questions or comments?
22	COMMISSIONER STIDHAM: No questions or comments, but
23	thank you for your testimony.
24	MR. CLARKSON: Thank you.
25	CHAIRPERSON HOOD: I, too, join the choruses. Thank

you, Mr. Clarkson, for all your work. It's not -- as the Vice 2. Chair mentioned, not just in this case, but all the time, so we appreciate you coming down and providing testimony. Thank you. 3 4 MR. CLARKSON: Thank you. 5 CHAIRPERSON HOOD: All right. Ms. Schellin, I think 6 now we're going to opponents. I think we have more than one, so 7 I'm going to need you to help me keep the time. MS. SCHELLIN: You still want five at a time? 8 9 CHAIRPERSON HOOD: Let's do four. 10 MS. SCHELLIN: Okay. 11 CHAIRPERSON HOOD: There's quite a bit of screen 12 filling up, so let's do four. 13 MS. SCHELLIN: Okay. We have Robert Scholz, Josie 14 Scholz, Jeffrey Kraskin, and the fourth one would be Mary Buckles with Spring Valley Wesley Heights Citizens Association. 15 That's 16 four. 17 CHAIRPERSON HOOD: Okay. Thank you. I'm going to go 18 by the names I see on my screen. Let's go with Josie Scholz 19 first. 20 MS. SCHOLZ: I'm unmuted. Can you hear me? 21 CHAIRPERSON HOOD: Yes, we can hear you. You may begin. 22 MS. SCHOLZ: Okay. Hi. I'm Josie Scholz. I've lived 23 for 40-plus years across from Wesley. I opposed their Campus Plan and PUD in '22 and '23, and I also opposed these new text 24 25 amendments. Our neighborhood associations, NLC, and SVWHCA,

argued from the first that the Campus Plan and PUD violated zoning regs, and now that Wesley and the Zoning Commission agree that they do, they want the Zoning Commission to amend their regs, creating a pot (sic) zoning -- a spot zoning carve-out so that they alone, among DC academic campuses, can significantly monetize their campus property. I strongly agree with these neighborhood associations and with ANC 3E that the text amendments don't fit ZC rules.

2.

Wesley, a good neighbor, wants to thrive in place. I wish they could do so, other than by building a supersized luxury residence with swimming pool to target AU students for their rent. In Wesley's fall issue of <u>Calling</u>, Wesley's President states that Wesley is planning to build a new school student residence hall, which not only will make Wesley one of the finest physical campuses in the country, but it will also produce a significant financial resource from the AU students who will occupy most of the building.

Landmark, Wesley -- Landmark, the developer, Wesley, and Landmark's investors are the winners in this, but there will be losers. Number one, AU, with the current -- as of today's post, a current 60-million-dollar shortfall, having their students and their poached by their sister Methodist institution next door; Number two, AU students enrolled for an academic year paying market-rate rent for 12 months while harming their institution's finances; number three, Wesley grad students being

in the minority on their own campus; number four, the Zoning Commission asked to subvert its rules for one institution; number five, neighbors living across from a building covering 72 percent of the built campus and at eight stories, more than two times taller than the rest of the campus buildings and violating residential zoning height.

2.

The building will bring around 500 more residents to University Avenue, a quiet corner of Spring Valley. I just want to say, talking about them on sidewalks, we don't even have sidewalks in the streets, and neighbors across from the building -- we already said that -- but even if Wesley and Landmark -- even Wesley and Landmark might be losers when AU, as they said in their recent filing, begins to require undergrads to live on campus for two years, reducing the number of students Landmark can draw on to fill its rooms. Landmark usually builds near university campuses with 10,000 students. AU's juniors and seniors are less than that.

If Wesley wants to sell its campus, the 99-year lease -- ground lease might limit their options. In neighborhood meetings, Wesley made some adaptations to neighbors' concerns, but the height, the mass, the occupant number really never changed, because the three principals, in order to gain their financial benefit --

MS. SCHELLIN: Time.

MS. SCHOLZ: -- it must be large enough to make the

1	profit they seek.
2	CHAIRPERSON HOOD: Thank you. Ms. Scholz, do you have
3	a closing though?
4	MS. SCHOLZ: Thank you very much.
5	CHAIRPERSON HOOD: Thank you. Can I send this my
6	testimony in or no?
7	CHAIRPERSON HOOD: We have your do we have I
8	didn't see I know I have your husband's, but, yes, you can.
9	MS. SCHOLZ: Okay. Thank you.
10	CHAIRPERSON HOOD: There's a comment period, right, Ms.
11	Schellin? I don't want to break I don't want to break
12	MS. SCHELLIN: If she wants to submit what she said
13	this evening, if she could do that by tomorrow noon.
14	MS. SCHOLZ: Okay. Thank you.
15	CHAIRPERSON HOOD: Okay. Can you do that tomorrow?
16	Can you do it by tomorrow at noon?
17	MS. SCHOLZ: Okay. Thank you.
18	CHAIRPERSON HOOD: Okay. All right. Let me go to Mr.
19	Scholtz Mr. Bob Scholz.
20	MR. SCHOLZ: Hi, everyone. My name is Bob Scholz. I'm
21	a retired licensed civil engineer, having worked in real estate
22	development and construction. Josie and I live at 3900 University
23	Avenue, across from Wesley's exit road onto University Avenue.
24	We oppose these text amendments and support the opposition. I
25	disagree with ANC 3D's recent letter stating, "While the new

building will still be visible to a few homes, this visual impact compares very favorably to that of campus buildings on the nearby American University and George Washington Mount Vernon campuses."

This is a specious and misleading representation.

The proposed eight-story building is perhaps 50 yards from University Avenue, and its ground floor would be placed atop a 50-foot hill above University Avenue, making it, from our point of view and that of our neighbors, a 13-story building. The zoning is RA-1, land to be low to moderate density development. The Wesley -- and Wesley has refused to consider reducing the size of the building, as suggested by a previous ANC 3D Chair.

The tall AU buildings are further from University Avenue and are significantly less objectionable. Additional foreseeable impacts are parking, traffic, and any rowdy behavior of 500-plus AU undergraduates on our side of the AU security fence, part of the reason that the AU security fence was installed 20 years or so ago. Following the zoning laws and rules is in the best interest of the entire community. There are many uncertainties that could lead to unintended consequences during the 99-year lease of the proposed -- of this proposal.

The Zoning Commission has already approved in AU's Campus Plan a 500-bed dormitory that will complete (sic) -- compete with the project under consideration. During this long process between the neighbors of Wesley, the split in the United Methodist Church has partially healed. Wesley has been a good

neighbor, and I hope that differences between the two Methodist 1 2. factions continues to improve, creating an increasingly larger pool of donors to support Wesley as it is now developed, so that 3 in the future --4 5 MS. SCHELLIN: Time. 6 MR. SCHOLTZ: -- it cannot only survive, but also 7 thrive, as Wesley defines "thrive". In summary, I oppose Wesley's 8 text amendments and humbly ask Commissioners, as good stewards 9 of the regulations, to deny these two text amendments and bring 10 this long process to an end. CHAIRPERSON HOOD: Thank you. 11 12 MR. SCHOLTZ: May I submit my adjusted written 13 testimony? 14 CHAIRPERSON HOOD: Yeah, it was adjusted, 'cause we 15 have your -- yeah, you can do submit your adjustment. Can you 16 do it by 12 noon tomorrow?

17 MR. SCHOLTZ: I will do it by 12 noon tomorrow.

CHAIRPERSON HOOD: All right. Thank you. Hold tight.

We may have some questions for you. Let's go to Mr. Jeffrey

20 Kraskin.

DR. KRASKIN: Good evening, Chairman Hood and Commissioners.

23 CHAIRPERSON HOOD: Good evening.

DR. KRASKIN: My name is Jeff -- Dr. Jeffrey Kraskin.

25 I'm a fourth-generation Washingtonian, and I lived in Spring

Valley for over 62 years. I submitted my written testimony into the record of this case, but today, since my time is short, I'll elaborate on some of that I submitted.

2.

Throughout my adult life, I served the District of Columbia in both elected and appointed positions. Additionally, I served in numerous capacities in Spring Valley and Wesley Heights communities in Ward 3. When I was an ANC Commissioner and officer of SVWHCA, I saw numerous issues associated with the Seminary. These included the ringing of the Bell Tower to the creation of the now-referred new dorm.

I recall the construction of the Bell Tower and the 1961 placement of the John Wesley riding the horse statue. There was a time as a young child that I was concerned he might ride into my bedroom, since he was aimed at my window. While I thrived as a child and an adult only 140 feet away from the Seminary, I always considered the Seminary as a friend to the community. Today the issue before you is a consideration of text amendments as a means to circumvent existing zoning regulations associated not only with campus plans, but inclusionary zoning regulations, and impacting various other areas of land use regulations and definitions.

During the other Seminary cases, there have been moments when the Seminary has been addressed as if it were a church. The Seminary is not a church. It is an educational institution, no different than any other institution in DC. The

Wesley Seminary is a graduate school program, not an undergraduate school. Yes, it has a chapel, but that's a working laboratory for the school. Most hospitals have chapels, but that does not make them a church. The word "seminary" mean simply a school for training of priests, ministers, rabbis, et cetera.

2.

Further, there's a misinterpretation of the word "thrive", which has been going on and on. To thrive is to grow, develop, and flourish. Yeah, thrive; it's a wonderful marketing term. I can certainly give credit to Seminary President David McAllister-Wilson, who has numerous times stated that the Seminary is financially stable. While some may applaud the Seminary's leadership for attempting to monetize the Seminary property, the method chosen is and continues to not be within the existing zoning regulations, as related to residential property utilized for educational purposes.

Again, I want to amend (sic) -- commend -- I want to commend ANC 3D for suggesting that the Seminary purchase a building in a DC commercial zone and retrofit it, creating a multi-use building for both educational and residential purposes, if that had to happen. And as mentioned already, today's Washington Post Metro front page regarding AU and its 60-million-dollar deficit plays a critical part of this discussion.

In reality, the Landmark deal would be great for AU on AU's land to build the already-approved residences for 500 students. Landmark would be building on AU, for AU, and would

occupy no more build-out than approved. I urge the Commission to end this ongoing search to circumvent regulations, reject these text amendments, direct the Seminary to return with a viable Campus Plan in accordance with all current regulations. Thank you for your attention.

CHAIRPERSON HOOD: Thank you. Next we'll go to, I think, Mary Buckles. Forgive me if I'm mispronouncing your name.

MS. BUCKLES: Can you hear me?

2.

CHAIRPERSON HOOD: Yes, we can now, yes.

MS. BUCKLES: My name is Mary Buckles. I live at 4652 Upton Street. I am a Spring Valley resident and I'm testifying as a member of the Board of Directors of the Spring Valley Wesley Heights Citizens Association. We strongly oppose the proposed text amendments that are the subject of this case. In partnership with Neighbors for a Livable Community, we submitted a detailed statement to the Commission outlining the nine reasons for our opposition. I refer you to that statement.

The spot zoning requested by Wesley would give unprecedented special access to Landmark for the developer's commercial use of Wesley's land that isn't permitted under the Campus Plan and inclusionary zoning, and it is inconsistent with the property's underlying RA-1 zoning. In this case, Wesley repeats the same arguments with the same faulty and discredited reasoning that it offered the Commission in two separate but related cases. Wesley's still telling you its Landmark project

is not commercial activity, but asks you to exempt the project from the commercial guardrails through the text amendment to the Campus Plan rules. If the Landmark project is not commercial activity, as Wesley argues, why is Wesley speaking (sic) -- seeking an exemption from the commercial activity rules?

2.

The Commission already has the authority to determine if Wesley's proposal meets the Campus Plan standards. What is before the Commission is whether the rules should be changed to permit a commercial activity solely on Wesley's campus that is not permitted under the Campus Plan, IZ, and PUD rules. We do not believe the proposed text amendment is justified, for all the reasons cited in our pre-hearing statement.

Wesley and Landmark continue to cherry-pick for the rules for a zoning solution they hope will lead to the project's approval, but the real problem is that the Landmark project is unambiguously at odds with multiple provisions of the zoning rules. Even if the proposed text amendments are approved, the Landmark project still would not comply with the zoning regs. It seems that the zoning issues raised by Landmark increase with each new application filed by Wesley.

Wesley justifies the amendments by continuing to rely on this vague assertion to thrive. At the same time, Wesley has asserted that its survival is not at risk and that it is financially secure. As it has done in the past, Wesley has upped the ante by threatening to relocate from the current site, but

they've offered no substantive evidence to justify the extraordinary relief being sought. This case is distinguished by the applicant's failure to provide any evidence of a financial hardship or, in the words of the zoning regs, that the applicant is being denied economically viable use of its land. Wesley also argues this is not spot zoning, because no adverse use impacts have been identified.

24

25

Wesley should revisit the record in the two previous related cases in which we clearly state the Landmark building is, "likely to become objectionable to neighboring properties", close quote, due to height, density, and scale, increased public safety risks, stormwater impacts, transformation of Wesley from a graduate-level campus for the ministry to an undergraduate annex for AU, in which AU students would outnumber Wesley students by three to one, just to name a few of the adverse impacts that we've raised. Wesley's own application in this case warns the project could lead to, quote, "future development of the property", close quote, that would include, quote, "additional residential and retail density, resulting in increased traffic that could be a burden on neighbors", close quote.

In 2021, the Commission approved two new dorms on the AU campus adjacent to the proposed Landmark building. The Commission should consider the objectionable impacts associated with the totality of housing so many students immediately

adjacent to the University Avenue neighbors. As mentioned by some others, the <u>Washington Post</u> reported just yesterday that AU has a 60-million-dollar budget shortfall, which it attributes to undergraduate enrolling (sic) -- enrollment falling below budget targets.

In trying to bolster Wesley's revenue stream, the Commission approval of these text amendments may come at the expense of AU's housing revenue for students. At least AU, faced with the prospect of cutting programs, is being transparent about its budget roles. The Commission's role is to regulate land use, not take extraordinary measures to bolster Wesley's revenue stream or to create an economic windfall for a private developer like Landmark. Rewriting of rules for a single applicant should not be an option, when the applicant's proposal deviates so egregiously from the zoning standards.

After this three-year circuitous route of review, debate, and deliberation on the Landmark project, a decision by the Commission to approve flawed text amendments, based on a legally insufficient and defective application, will shake public confidence in the integrity of the District zoning process. SVWHCA urges the Commission to reject these text amendments. Thank you very much.

CHAIRPERSON HOOD: Okay. Thank you. Ms. Schellin, did we bring one other person up or -- I saw a name I didn't recognize.

1	MS. SCHELLIN: I thought that let's see, just to
2	make sure, we should have had
3	CHAIRPERSON HOOD: Tucker Snipes?
4	VOICE: Blaine.
5	MS. SCHELLIN: No, Mr. and Mrs. Scholz, and then we had
6	Ms. Buckles and Blaine Carter.
7	CHAIRPERSON HOOD: And we had Dr. Kraskin, so we need
8	to get
9	MS. SCHELLIN: I'm sorry. No, that you just had the
10	four, yeah. Blaine Carter will be next. Yeah, you just wanted
11	four. I'm sorry.
12	CHAIRPERSON HOOD: Yeah, just four.
13	MS. SCHELLIN: So that was it.
14	CHAIRPERSON HOOD: Okay. We're good. All right. Let's
15	see if we have any questions of that panel. Vice Chair Miller.
16	VICE CHAIR MILLER: Thank you, Mr. Chairman, and thank
17	you, Bob and Josie Scholz and Dr. Jeffrey Kraskin and Mary Buckles
18	on behalf of the Spring Valley Wesley Heights Citizens
19	Association, all of you, for your testimony this evening and for
20	your pre-hearing statements and all of your work in the community
21	and on this case and in other on other issues. I appreciate
22	your comments. I don't have any questions at this time, Mr.
23	Chairman. Thank you.
24	CHAIRPERSON HOOD: Thank you. Commissioner Wright, any
25	questions or comments?

COMMISSIONER WRIGHT: No questions at this time. I guess -- and maybe some of my other colleagues can help me out with this, but, correct me if I'm wrong, doing the zoning text amendment does not sort of comment on the design of the building; is that correct? The design of the building would come up during the Campus Plan discussion?

CHAIRPERSON HOOD: You're correct. The text does not -- we don't do design in the text.

COMMISSIONER WRIGHT: Right. So really what's before us right now is deciding, you know, if building another dormitory at this location is appropriate and what to do with the IZ issue that we discussed previously. I think that whoever had suggested the idea of doing -- if we could do the Campus Plan and the zoning text amendment at the same time had a good idea, because I realize that a lot of people's feelings about the zoning text amendment are related to how they might feel about issues that will be decided in the Campus Plan, but, just from a technical perspective, they are two separate sets of issues. Is that correct?

CHAIRPERSON HOOD: That's correct.

COMMISSIONER WRIGHT: Okay. Thanks. I just wanted to make sure -- again, as the new Commissioner, I wanted to make sure I was understanding things correctly.

CHAIRPERSON HOOD: And I'm sure if I misspoke, I'm sure

I'll be corrected. I always am. But I will tell you,

1	Commissioner Wright, you can only use "new" one time. I'm just
2	joking.
3	MS. SCHELLIN: They're also two different processes.
4	So with the text with what you're hearing tonight, it's a two
5	vote and the Campus Plan is a one vote, so you cannot proceed
6	with the Campus Plan until you decide this case first. So you
7	need to take final action, move forward with this case before you
8	can move forward with the Campus Plan case, if that makes sense.
9	COMMISSIONER WRIGHT: Yes. Thank you very much for
10	that clarification. I appreciate it.
11	CHAIRPERSON HOOD: Okay. All right. Thank you, Sharon,
12	for helping us.
13	MS. SCHELLIN: Right. So we need to get the order
14	published and then we can move forward.
15	CHAIRPERSON HOOD: Well, let me say it like this, if
16	we go
17	MS. SCHELLIN: Or final action rather.
18	CHAIRPERSON HOOD: But let me just say this, so the
19	public won't say, "Oh, they already decided". No, we have not
20	decided how we're going to move with this yet, so I want to put
21	that out there.
22	MS. SCHELLIN: And that's exactly why this case has to
23	happen first. And until that is done, we cannot schedule the
24	other case until at least you take final action.
25	CHAIRPERSON HOOD: Let me Sharon, let me just say

this. 1 This case may happen; it may not happen. I don't know. 2. I don't want to put any preconceived notions out there that the Commission has already made their minds up. The five of us will 3 make our minds up, we will deliberate, and we will discuss it. 4 5 So thank you for that clarification. 6 MS. SCHELLIN: I just wanted to make sure that they 7 understood why staff was not scheduling. Until you guys do what 8 you want to do, staff can't move forward with anything on the other case. 9 10 CHAIRPERSON HOOD: Okay. Okay. I got you. MS. SCHELLIN: Yeah, because typically we would just 11 12 schedule a Campus Plan case, and I can't do that until you guys 13 decide what you're going to do on this case. That's all I was 14 saying --15 CHAIRPERSON HOOD: Okay. All right. 16 MS. SCHELLING -- trying to say. Maybe I didn't put 17 that out there clearly.

CHAIRPERSON HOOD: Okay. Yeah. Good, good. I don't

20 this and we're going to move on, but I understand it once you

want anybody to think that we've already -- we're going to do

21 clarified it, so thank you. All right. Commissioner Imamura,

22 any questions or comments of this panel?

19

23

24

25

COMMISSIONER IMAMURA: Thank you, Mr. Chairman. I think it's important that Commissioner Wright brought up that question, just as a reminder for everybody, that these are two

separate but, yes, interrelated issues, but two separate issues, nonetheless, that need to be evaluated -- decided. I do appreciate and look forward always to hearing the opposition. You bring an important voice to the conversation, and it's -- it helps us reach a more balanced outcome, as Chairman Hood often says.

And I would say, Dr. Kraskin, I think what I heard you say was that there was some level of concern, and forgive me if I don't get this quite right, but that even Landmark may decide to do something similar on AU's campus. And I would posit to say that I'm guessing that any university within the District of Columbia may reach out to Wesley, if they had such an idea, and given that this has been such an incredible challenge to overcome over the past couple years.

So certainly to Chairman Hood's comment that a decision has not been made; we've still been at this for quite some time to find the appropriate solution for this, but I would guess that perhaps any other university would probably -- after watching this play out, might think otherwise, given the challenges that Wesley's gone through to this stage. So that's all that I have. Thank you, Mr. Chairman. Nothing further.

DR. KRASKIN: Mr. Chairman, may I just correct any misinterpretation of what I said?

CHAIRPERSON HOOD: Did somebody misinterpret?

DR. KRASKIN: Well, I just want to make sure that was

1	just since my name was mentioned, my comment regarding
2	CHAIRPERSON HOOD: Go right ahead. Go right ahead.
3	DR. KRASKIN: My comment regarding AU and Landmark was
4	simply AU would not have to have any of these text amendments.
5	That's all.
6	CHAIRPERSON HOOD: Okay. All right. Thank you.
7	Commissioner Stidham, any questions or comments of this panel?
8	COMMISSIONER STIDHAM: No, not at this time, but thank
9	you for your testimony everyone.
10	CHAIRPERSON HOOD: Okay. I, too, want to thank everyone
11	for their testimony and we hear you loud and clear and have heard
12	you loud and clear. All right. We can take everybody down. Ms.
13	Schellin, can we put bring four more residents up or four more
14	people who may be in opposition? Do we have four more?
15	MS. SCHELLIN: We have exactly four.
16	CHAIRPERSON HOOD: Oh.
17	MS. SCHELLIN: So this will be the last panel, and this
18	is the end of the testimony for this evening
19	CHAIRPERSON HOOD: Okay.
20	MS. SCHELLIN: as there are no other people signed
21	up, so I will call them now. Blaine Carter gets five minutes
22	with Neighbors for a Livable Community. And then we have Alma
23	Gates, Thomas Smith, and last but not least, Nancy MacWood. She
24	gets five minutes also with the Committee of 100. That's it.
25	CHAIRPERSON HOOD: Okay. Let's go to Blaine Carter

first, and in that order. You may begin.

2.

MR. CARTER: Good evening. And I'm right at five minutes, so I'll be concluding just as it is. My name is Blaine Carter, and I live at 3718 University Avenue in Spring Valley, and serve as a Board member for the Neighbors for a Livable Community, NLC, and work in the commercial real estate industry. I have for 40 years.

NLC opposes the text amendments that are the subject of this case. Wesley says the relief provided by these text amendments is needed because Landmark's project is unique. There is nothing unique about the project which would warrant such serious breach of the zoning regulations, including the Subtitle B use definitions, one of the several zoning issues not addressed by the text amendment. The Commission is being asked to change the zoning rules so that the Wesley land can be used for Landmark's commercial speculation. Landmark is seeking to exploit the zoning process to operate for-profit-making business not permitted on a college campus. The Landmark process is a commercial activity not permitted under the Campus Plan rules.

In July '22, then Zoning Commissioner Peter May said it best, quote, "It would be a commercial operation within the campus." This action would clearly set a precedent for them." That is in the transcript, July 14th, 2020, pages 22 and 23. During deliberations in October '22, he added, quote, "It's a sort of workaround and in-around to get around the regulation's

limitations within the zoning regulations when it comes to Campus Plans, but also a way around the zoning regulations that would normally apply for an apartment building of that size." That's in the transcript of October 13th, '22. The new Landmark operation will constitute 72 percent of the developed space on the Campus Plan -- on the campus -- Wesley's campus. Wesley students will play the de minimis role in this building. This building may enhance Wesley revenue, but it will be a bonanza for Landmark.

2.

Housing AU students is not part of Wesley's mission. As Commissioner May said, "Wesley's sole objective in housing AU students is to provide income. Contrary to assertions made by Wesley, the Landmark development does not comply with the residential uses permitted under Subtitle B use definitions, because AU students are not enrolled at Wesley. OP's report last week said the purpose of the Campus Plan text amendment is to clarify the Landmark project is not a commercial use. This contradicts OP's own setdown report, which said, quote, "Wesley has conceded that the ground lease is a private developer to construct and operate a dormitory which would include non-Wesley students is considered a commercial use and would not meet the requirements of Subtitle X, Section 101.3(b).

We would also add it does not comply with Subtitle X, Section 101.4, which clearly states, "The Campus Plan process shall not serve as a process to create general commercial

activities or developments unrelated to the educational mission of the applicant." A commercial (sic) is a commercial activity. No language can change that. You can call a horse a cow, but you're in for a surprise if you try and get milk out of it. If the Landmark project is not a commercial activity, then the proposed text amendment is unnecessary. The Commission could have made that determination two years ago in ZC Case Number 22-13. Commissioner May's comments are illustrative of why the Commission did not make that determination.

2.

Landmark is seeking to leverage the District's Campus Plan rules with Wesley's help to compete directly with AU's student housing program. A recent filing by Wesley clearly states that AU is not partnering with Wesley or Landmark and it is focused on its own housing program, including changing its housing policies to require students to live on campus for two years. The 2-16 Campus Plan regulations were crafted very carefully and skillfully with extensive legal analysis and community input. If the Commission is determined to change its rules, you should be expected to assess whether all colleges and universities in the District of Columbia need more flexible use of their land to allow commercial uses not permitted in the 2016 zoning regs.

The Wesley and OP alternative text amendments have turned this hearing upside down. Wesley's initial text amendment would exempt Landmark from providing an IZ. This is unacceptable,

but the public has had no time to examine or assess the alternative. The zoning regulations include timelines for public notice and review for a reason. Throwing alternative text amendments into the pot at the 11th hour does not make for a transparent or fair process.

2.

Zoning regulations should be predictable. Spot zoning like the proposed -- like those proposed in these text amendments is anything but predictable. Approval of these regulations will undermine both the Campus Plan and IZ and serve as a precedent in any case in which an applicant offers vague assertions of financial need. NLC calls on the Commission to reject these text amendments. Thank you.

CHAIRPERSON HOOD: Okay. Thank you. Hold tight. We may have some questions for you. Ms. Gates.

MS. GATES: Chairman Hood, would it be all right if Tom
Smith went next?

CHAIRPERSON HOOD: Okay. Tom Smith.

MR. SMITH: Thanks, Alma. My name is Tom Smith. I served ten years on ANC 3D, six as Chair, representing Wesley Seminary and Wesley's neighbors. In that capacity, I worked successfully from 2010 to 2012 to bridge disagreements between neighbors and Wesley on construction of what is known as the new residence hall along University Avenue. Wesley claimed new housing for its students would secure its future at the site. Wesley announced its intent to partner with a student housing

developer in 2016 during my ANC tenure. This time Wesley said housing AU students on its campus would secure its future. All we've heard tonight from Wesley is a rehash of the arguments and assertions made over the last three years without the benefit of any evidence. Ms. Elliott's interpretation of Subtitle B rules does not hold up to scrutiny, as previous hearings in this matter have demonstrated.

2.

Neighbors' concerns about commercial encroachment are not theoretical. During my ANC tenure in 2011, AU proposed the development of a commercial business zone on its east campus, adjacent to Wesley Heights and Westover Place. After strong opposition, AU withdrew the proposal. That experience prompted ANC 3D and neighborhood groups to advocate for tighter limits on commercial uses on a college campus as part of the 2016 zoning regulations rewrite. The 2016 regulations were carefully crafted to protect the neighborhood from commercial uses on college campuses like the proposed new Landmark building.

The relief being sought by Wesley through the text amendments is extraordinary. In the absence of any evidence in the record to justify the relief, what is it that makes Wesley so special that this issue is still before the Commission after nearly three years of hearings and deliberations? Is it Wesley's threat to leave the property, one that it has made on previous occasions over the last 20 years?

The Zoning Commission should not engage in spot zoning

simply to enable an educational institution to monetize the value of its property when its scheme is so blatantly contrary to the city's rules. The burden is on Wesley to demonstrate that compliance with the rules will result in an economic hardship. Wesley has not done that. Is it fear that the property might be purchased for a new housing development? Nothing stays the same, as Chairman Hood said earlier.

2.

Housing in Ward 3, including affordable housing, is a District priority. The Landmark project should be reviewed within the context of the zoning regulations, not speculation on how the property might be used in the future if it is sold. These text amendments, which are inextricably linked with the Campus Plan case, are not being offered to correct an inequity or error in the zoning regulations; they are being proposed to undo what neighbors fought for, to limit the scope of commercial activity on residentially-zoned land available for university education use. They are being proposed to secure more cash for Wesley and to help a national student housing developer (indiscernible) -- DC market.

MS. SCHELLIN: (Indiscernible) strong word.

21 CHAIRPERSON HOOD: One second. Ms. Schellin, can you 22 mute yourself, unless you were telling me he was --

MS. SCHELLIN: Sorry. I'm reading. Sorry.

CHAIRPERSON HOOD: All right.

MR. SMITH: Contrary to OP's reasoning, everything you

do is a precedent. If you can't approve this project under the Campus Plan rules, the PUD rules, the IZ rules, with all the zoning mechanisms for seeking relief in those rules in place, then you should be wary of spot zoning text amendments and their unintended or unanticipated consequences. Thank you very much.

2.

CHAIRPERSON HOOD: Okay. Thank you. Hold tight. We may have some questions. Ms. Gates, can I come to you now or you want to go to somebody else?

MS. GATES: No, thank you. I will go.

CHAIRPERSON HOOD: Okay. All right. We'll come to you.

MS. GATES: I am Alma Gates, a Board member of Neighbors for a Livable Community and a 12-year former ANC 3D Commissioner. NLC has done a thorough job reviewing the zoning issues in this submission at Exhibit 27, but there remain unresolved issues in this case. Wesley has chosen thrive as its theme for its long overdue Campus Plan. At the same time Wesley is proposing to thrive, it is threatening to vacate its campus if its plan is not approved.

ANC 3D should be commended for its suggested sustainable solution that Wesley move their operation downtown, buy a building, and use it for academic, administrative, and housing needs. Monetizing Wesley's campus is at the core of its plan, to lease a significant portion of its open space to Landmark Properties to build and manage a 659-bed commercial student

apartment building targeted at American University students. A November 8th letter from AU to the Commission sets the record straight on discussions with Wesley. It states, "We have shared that AU remains focused on fulfilling our educational mission and future vision, as detailed in our 2021 Campus Plan, which includes maximizing on-campus housing for our students. We are looking to create a vibrant, high-quality on-campus experience for our students that promotes access to academic opportunities, community-building, student retention, progress to graduation."

2.

Wesley has proposed two text amendments to the zoning regulations which equate to spot zoning. However, Wesley's proposed plan and text amendments are significantly weakened by AU's statement regarding housing its students on its campus. At this point, the amendments may be unnecessary. A special exception might be a better solution than a carve-out for the few AU students who opt to live in the Landmark student apartments. Once the regulations are changed for Wesley, any DC institution is free to follow precedent and apply for a carve-out. The intent of the zoning regulations would become pointless.

The Zoning Commission is left with little to consider in its deliberations. AU has finally made its position clear and in so doing squashed the necessity of Wesley's proposed commercial student apartment building. Without the apartment building, there's no need for the text amendments or the unresolved IZ requirements; and without the text amendments, the

existing zoning regulations prohibit Wesley's plan to house 1 2. students other than its own. However, Wesley would remain without a Campus Plan. 3 4 CHAIRPERSON HOOD: Okay. Thank you, Ms. Gates. Ms. 5 Schellin, I think the last person I have is Commissioner MacWood, 6 right? 7 MS SCHELLIN: Yes. CHAIRPERSON HOOD: Is that it, Commissioner MacWood? 8 9 Commissioner. You're still a Commissioner, right, Ms. 10 MacWood? 11 MS. MACWOOD: No, Mr. Chairman. I haven't been a 12 Commissioner for two years. 13 CHAIRPERSON HOOD: Oh, it shows I'm not -- keeping up 14 on stuff. Anyway, go right ahead. 15 MS. MACWOOD: Good evening. My name is Nancy MacWood. 16 I'm the Vice Chair of the Committee of 100, and I'm testifying 17 on its behalf. The proposed text amendments would exempt the 18 proposed apartment building on the Wesley campus from two zoning 19 regulations; the prohibition on other than incidental use of

23 These two fundamental zoning regulations are at the 24 heart of the Campus Plan and affordable housing requirements set 25 forth in the zoning regulations. Any proposal to exempt Wesley

campus property for commercial purposes and the requirement that

the proposed apartment project comply with DC's exclusionary

20

21

2.2

zoning requirements.

from these central requirements should be subject to strict scrutiny and a clear -- and clear a high hurdle. The proposed text amendments, which are in the nature of spot zoning, do not pass this hurdle, as they would undermine the integrity of the zoning process generally and the Campus Plan and IZ rules in particular. They should be rejected.

The central element of Wesley's proposed Campus Plan is a proposal to construct a nine-story 659-bed luxury apartment building on the Wesley campus. Landmark Properties, a for-profit developer, will own the building, manage rental of the units, and derive commercial profit from the venture. Approximately 570 of the 659 residents of the apartment building will not be Wesley students. If approved, the proposed apartment building — these text amendments, if approved, the proposed apartment building will occupy approximately 72 percent of the gross floor area of Wesley's campus and will be the dominant use of Wesley's land.

In order to protect adjacent residential neighborhoods, DC's regulations embrace the principle of establishing land use compatibility between college campuses and surrounding neighborhoods. This restriction is reinforced by the paramount land use element of the Comprehensive Plan, which states that the District and, by implication, the Commission should prevent the encroachment of inappropriate commercial uses into residential areas.

It's hard not to find that these text amendments are

designed to create a substantial commercial use only for the benefit of Wesley and Landmark, at least until other institutions come knocking on your door if this is approved. DC's regulations also require residential developments with more than ten units to reduce an affordable housing set-aside. The exemption for housing developed by or on behalf of a local college or university exclusively for its students, faculty, or staff is inapplicable here. Consequently, Wesley has proposed alternative exemptions which involve a financial contribution for offsite IZ. There is simply no basis in DC law which would allow Wesley to buy its way out of its exclusionary zoning obligation.

2.

Committee 100 is aware that the Office of Planning, in an 11th-hour filing, has offered a third alternative proposal on IZ. Under that alternative, Wesley would be obligated to provide the base level of offsite IZ, eight or ten percent. Since Wesley is requesting extraordinary -- an extraordinary exemption, and extraordinary is the right word, the IZ commitment should be much higher, as many testifiers have indicated tonight. Since we know nothing about what offsite projects might be funded under any of the alternatives, including the Office of Planning's or the terms thereof, all three of the alternatives should be rejected as being too vague.

An applicant before the Zoning Commission should not simply seek exemptions through the text amendment process whenever the zoning rules provide a roadblock to the applicant's

plans. The petitions here undermine the very integrity of the zoning process and should be rejected. Thank you.

CHAIRPERSON HOOD: Okay. Thank you. Ms. Schellin, I think that's it, right -- all we have, right?

MS. SCHELLIN: Yes, that is correct.

1

25

CHAIRPERSON HOOD: Okay. All right. Let's see if we have any questions or comments, but let me just say this. I'm hearing a lot of comments about spot zoning, and I will tell my colleagues, I do want to talk to our legal counsel, not necessarily about spot zoning. I'm sure that -- I have every bit of confidence in the -- our legal counsel, and if that was spot zoning, unless they're going to tell me later, I'm sure they would have mentioned it to me. There's some other questions I'm sure I have, but I wanted to put on the record, if this was spot zoning, I think we would have known it by now, and I'm not sure if this falls under spot zoning. So I do know that we have great legal counsel. They work very hard, they do their research, and I'm sure if that was it, I would've known that by now. So I'll just put that out there like that, but we'll see. Let me open it up to any questions or comments. Vice Chair Miller.

VICE CHAIR MILLER: Thank you, Mr. Chairman, and thank you, Nancy MacWood on behalf of Committee 100, and Blaine Carter on behalf of Neighbors for a Livable City, and Tom Smith and Alma Gates for your longstanding involvement in the neighborhood and all of your work over the years and on this case. I don't

really -- I don't have any questions. I think I would just make this comment, that we appreciate the -- as others have said, the opposition testimony. I think it has reshaped the proposal, at least twice, and including the most recent alternative text amendment that was -- that language that's been provided that does require the general offsite requirement provisions of the existing zoning regulations to apply in this case. So I think it has been helpful. I appreciate all your work. I will consider the comments. I read the pre-hearing statements, and I appreciate all the work that's been done. Thank you, Mr. Chairman.

2.

CHAIRPERSON HOOD: Thank you. Commissioner Wright, any questions or comments of this panel?

COMMISSIONER WRIGHT: Just a couple of comments. Well, first of all, thank you to everyone who has testified. It really has given a lot of food for thought. One of the things that I am wrestling with and thinking about, based on all of the testimony, is when does a university housing building become a commercial development? And everyone agrees this is a building that will be housing students. It will not be rented to people who are not students. And so the question is, when does that become, you know, a commercial enterprise?

A lot of schools are struggling with figuring out how to build housing and are partnering with private developers. This is happening in many places, including -- it happened at my own -- my own child's school, and they're trying to figure out

how to provide housing with their diminished financial capabilities, and a lot of them are looking at ways to do this when you can then partner with a private developer. Does that automatically make the building a commercial development or is it still a dormitory? And that's -- it's sort of the key question that I think we have to wrestle with.

1

2

3

4

14

15

16

17

18

19

20

21

22

23

24

25

I also think, again, the geography of this particular project is somewhat unique. I was trying to think of other campuses around Washington, DC that are so close to each other, that are, you know, absolutely adjacent to each other, such that a dormitory on one property could be used by both institutions. And, you know, again, I need to wrap my head around that a little bit more and see if there is another place like that in the District. I'm not sure whether there is or not. I need to think about that a little bit more, 'cause I think that, you know, what a lot of the folks who are objecting to this are bringing up is the idea that this is a commercial project. And what I understand the text amendment to be is just to clarify that this -- that that portion of the text amendment was to clarify that this isn't a commercial project, again, 'cause it is somewhat unique. But I think we're going to see more and more of these joint projects between private institutions and private developers to try to create resources for those -- for those private institutions, 'cause, honestly, no one can afford to do it on their own anymore. They need to come up with creative and different solutions.

1	So, again, there's a lot to ponder here, and, you know,
2	the testimony that has been presented is very, very helpful.
3	It's helping me to frame the issues in my mind, and I look forward
4	to having some additional discussions on this eventually,
5	hopefully in the near future, moving towards some resolution one
6	way or the other.
7	CHAIRPERSON HOOD: Commissioner Wright, that was a very
8	good segue to our discussion, and when we start we're going to
9	pick it right up from there, 'cause that's, I think, a very good
10	way for us to start our deliberations. Okay. So thank you.
11	Commissioner Imamura, any questions or comments of this panel?
12	COMMISSIONER IMAMURA: No, Mr. Chairman. Thank you all
13	for your participation tonight in the public process.
14	CHAIRPERSON HOOD: And Commissioner Stidham, any
15	questions or comments?
16	COMMISSIONER STIDHAM: No, none for me, but thank you
17	for your testimony this evening.
18	CHAIRPERSON HOOD: I, too, want to join in the choruses
19	I've been seeing all night, particularly this panel and other
20	panels as well, but this panel I've seen for a while and you all
21	have been very involved with this process. And even though the
22	outcome sometimes may not always be what we like to see it, you
23	all have stuck to it, and you have definitely made a difference.

24 Even though we may sometimes -- all of us come from different

25 sides, again, as I've always said, we come out with a better

outcome, so thank you all for your testimony and also for staying with us and helping us -- helping this evolve. I think the Vice Chair mentioned how this has evolved to -- even to this point because of the community, and I appreciate it. Let's continue to work together and try to see where we -- where we land and if we can answer some of those questions in which Commissioner Wright was talking about, some of the things that we need to deliberate and grapple upon. I think we will get some kind of resolve at some point, so thank you. Ms. Schellin, we will not be taking --I don't think -- I will not be taking -- we will not -- let me just say I think I can speak for everybody. We have some different things that we need to look at. I do want to talk to counsel about some of the things that have come up and make sure that we are legally on good footing. So can we come up with some dates? Can you not do it -- I know it can't be done before next week.

MS. SCHELLIN: No, our only meeting before the end of the year is going to be December 19th, and I think that gives, with the holidays -- I don't recall everything that was asked for, but I'm sure the Petitioner heard you loud and clear, so anything that you asked the Petitioner for, if they could provide that by -- in a week, the 21st. Mr. Brown, will that work for you? Mr. Brown?

CHAIRPERSON HOOD: While we're waiting on Mr. Brown, I also would like to ask, Ms. Schellin, if you could work with our

counsel. I think we're going to need a little more time than 1 2. our regular time for our closed meeting, so if you all could work that out when we get close to that one. 3 4

MS. SCHELLIN: Yes, we will.

CHAIRPERSON HOOD: Appreciate it.

MS. SCHELLIN: Sure.

MR. BROWN: Ms. Schellin, I'm sorry. I was muted and didn't quite hear you. What was your schedule?

I'm asking if you could provide the MS. SCHELLIN: additional information the Commission asked you for in a week.

MR. BROWN: A week from today?

MS. SCHELLIN: Yes, next Thursday. That would be the --I'm sorry, let me look at that again. That would be the -- today is the 18th -- that would be the 25th.

MR. BROWN: By three p.m.?

MS. SCHELLIN: Yes. And then if you want the Office of Planning to follow up with anything in response to what the Petitioner provides, they could provide their response by December 2nd, and that will allow our legal counsel to take in everything, and then we can put this on for 12/19 for consideration of proposed action. And then the record is closed at this time, other than the two people, Mr. and Mrs. Scholz asked to submit their -- and I believe Mr. Elkins asked to submit the history that he had, and if they could do that by noon tomorrow. That's it.

1	CHAIRPERSON HOOD: Same page?
2	MR. BROWN: Okay. And then and then the Commission
3	will tell us what we need to submit?
4	MS. SCHELLIN: No. You were taking notes, so if you
5	didn't take I mean, if you didn't take the notes this evening,
6	the hearing will be on the Web for you to listen to.
7	MR. BROWN: Well, that's fine. I mean, I've been taking
8	lots of notes, but I had the sense that Chairman had a to-do list
9	for us. If he doesn't, we'll figure it out.
10	CHAIRPERSON HOOD: It was three hours ago probably
11	MS. SCHELLIN: Yes.
12	CHAIRPERSON HOOD: but let me just say this. I'm
13	not sure. I would take you would take what Ms. Schellin said
14	under advisement. Go back and look at the hearing. Don't do it
15	late at night though, but go back and look at the hearing and
16	see if we asked let me ask this. Did any of us ask for
17	anything?
18	MS. LOVICK: Well, that's why I just came up, because
19	I've been listening very attentively and I didn't hear it, and
20	so I want to know
21	COMMISSIONER WRIGHT: Well, I think I had asked for a
22	couple of things.
23	MS. SCHELLIN: Commissioner Miller asked for something.
24	MS. LOVICK: Oh, okay.
25	CHAIRPERSON HOOD: Let's do this. Mr. Brown, we're

going to do you a favor. Let's -- can you all remember what you asked for? I know it was maybe two or three years ago, but, Commissioner Wright, could you mention what you mentioned -- what you asked for?

1

2.

21

22

23

24

25

COMMISSIONER WRIGHT: Right. So what I remember asking for was, specifically, an analysis of what other jurisdictions do about offsite affordable housing, offsite IZ. And, again, I think I mentioned that, you know, in my experience there has been calculations about how much should be assigned for each offsite unit, and we've had a lot -- I know we had a lot of those discussions in Montgomery County, so I would direct that you -someone, whether it's the applicant or Office of Planning, needs to talk to the Planning Department in their -- in Montgomery County about their housing analyses, 'cause they have done work on what the value is of offsite, but I don't want to limit you to only Montgomery County. I think there have been additional discussions in other nearby jurisdictions about this same topic. And I just think that it would be helpful, again, so we aren't reinventing the wheel, to understand what other jurisdictions do about offsite affordable housing. And I would suggest you talk to probably Arlington, Alexandria, Montgomery County, all of whom have pretty progressive affordable housing programs, and that you, you know, take a look at what they do and how that relates to what you, as an applicant, are currently proposing.

You know, the other thing that, again, I was sort of

interested in is, you know, do we have -- I mentioned at the end, do we have other examples, either in the District of Columbia or nearby jurisdictions, where private educational institutions have been partnering with private developers in order to get a -- student housing built. And if we have done that, you know, how has that been handled? I'm just sort of looking for precedents around the region.

2.

And, you know, I think that we should also take a look at how we can tie in appropriate IZ requirements. I think, you know, what I heard from a number of people is, "Can you do more than 10 percent?", and I think that's something that, you know, we probably need you to respond to and to think about; you know, is that going to possible, or if you can do a higher percentage with a range of, you know, 30, 50, 60, 80 percent, whatever the right mix is. I think I was hearing from folks that they wanted a little more information about a different affordable housing or IZ mix. Those were the things I heard, but, you know, I'd ask my colleagues if I missed anything. I probably did. Are there other things that should be discussed?

CHAIRPERSON HOOD: Thank you. Vice Chair Miller, I think you also asked for something, but before you go there -- excuse me -- and before you go there and before I forget, let me seize the moment. Some of the analysis that Commissioner Wright is asking for, the Office of Planning I think also needs to weigh in. I don't want to take it off of the applicant as well, but

the Office of Planning I believe needs to weigh in on the first part of what you mentioned about the analysis and other jurisdictions. I think they have to weigh in as well. Okay. Vice Chair.

VICE CHAIR MILLER: Thank you, Mr. Chairman, and thank you, Commissioner Wright. I think you've covered important requests for information, and that would be useful for us to have, including the request I guess that I was making of the Petitioner and ANC 3E, specifically. I guess I posed the question to them, but I would also include the Office of Planning, and if they have any -- if they have any suggestions for additional or different text amendment language that would increase the minimum set-aside for the -- would increase the amount -- the minimum amount of affordable housing required offsite in the -- pursuant to this text amendment. So if there's language that would work in conjunction with the -- in consult -- well, if there's language that they have to offer for our consideration, either the Petitioner or ANC 3E, who I had the conversation with, or the Office of Planning -- if they have -- if they have suggestions on that point, I would appreciate it.

CHAIRPERSON HOOD: Okay. As long as everything's not a substantial change, I don't think we need other -- and I'm going to look at Ms. Lovick and other legal counsel, and the things that we asked for -- and I'm just going to -- I'm going to ask our legal counsel to tell us legally what -- I want to

just make sure we stay focused. Some of the things may not be 2 in the realm of what we really need, but we're going to get it all in, everything we've asked for what we want -- each 3 4 Commissioner has asked for what they want -- to help us get to a 5 better decision-making, but we want to make sure we stay relevant 6 and also make sure that we stay legally tight is kind of where I 7 Any questions or comments from any of my colleagues? 8 (No response.) 9 Okay. Ms. Schellin, does anybody CHAIRPERSON HOOD: 10 have any questions about what's been asked for? MS. SCHELLIN: I'm just going to say, I think based off 11 12 what Ms. Wright -- Commissioner Wright is asking for, there -- I 13 don't think the Commissioner (sic) can get what -- or the 14 Petitioner is going to be able to get what she's asking for. Typically, that's something OP does, but she's asking the 15 Petitioner for that, so they're going to need a lot more time to 16 17 get what she's asking for I think. 18 CHAIRPERSON HOOD: Okay. 19 She wants MS. SCHELLIN: them to analyze other 20 jurisdictions. There's just no way they can do that in a week. 21 I don't see that happening. CHAIRPERSON HOOD: Okay. 22 23 COMMISSIONER WRIGHT: To be clear, I'm not asking for

HUNT REPORTING COMPANY
Court Reporting and Litigation Support
Serving Maryland, Washington, and Virginia
410-766-HUNT (4868)
1-800-950-DEPO (3376)

them to analyze other jurisdictions. I'm asking them to get

information about what other jurisdictions do. And, I mean,

24

25

maybe that is something that OP can work on, maybe the Petitioner and OP both need to work on it, but I'm not looking for an analysis. I'm just looking for, you know, maybe three phone calls, one to Montgomery County, one to Alexandria, and one to Arlington to ask, "What do you do?".

2.

2.2

MS. SCHELLIN: Okay. So just a couple lines then, nothing major, just what they actually do. Okay. So, Mr. Brown, do you think you can do that in a week?

MR. BROWN: We will certainly try. What -- let me ask you a question. If we -- and if it's OP and us working on this, if we pushed off the initial filing for a week more, does that still leave enough time for OP to respond a week later, before the --

MS. SCHELLIN: The problem is it cuts into our legal staff's time to evaluate and to be able to give the Commission the legal advice they need, so that's our problem. It has nothing to do with OP.

CHAIRPERSON HOOD: Well, let me just say this. If what my colleagues asked for, if it takes time to get it, I want us to get it. If we have to go -- deal with this in January, we will deal with it in January. I just want to make sure we have what we need.

MS. SCHELLIN: Right.

MR. BROWN: Well, why don't we stick with the current schedule and that -- deadlines are good.

_	MS. SCHEDEIN: Okay. Illank you. And the record is
2	closed. I want to clarify one thing. Commissioner Miller, I
3	thought I heard you say you wanted a submission from an ANC. I
1	didn't have anything down coming from any ANC.
5	VICE CHAIR MILLER: I had a conversation I had a
5	dialogue with ANC 3E. I said if they had as a follow-up to
7	their testimony which said they wanted an increased amount, if
3	they had text amendment language I don't know if it works or
9	not; we'd have to consult with our legal counsel, of course
LO	but if they had language that they wanted to offer, I was giving
L1	them an opportunity to offer it.
L2	MS. SCHELLIN: Okay. And not work through OP?
L3	VICE CHAIR MILLER: (Shrugs shoulders and shakes head.)
L4	MS. SCHELLIN: Okay. I'm just trying to figure out,
L5	since we're trying to close the record to everyone, but if you're
L6	going to allow them to submit something else, I'm just trying to
L7	find out if the Commission is looking for revised text again.
L8	That's all I'm trying to figure out.
L9	VICE CHAIR MILLER: I guess I was asking for that, but
20	I don't want to I don't want to complicate things. I mean
21	MS. SCHELLIN: No. If that's what you're asking for.
22	Is the rest of the Commission looking for that revised text too?
23	VICE CHAIR MILLER: I don't know if my colleagues want
24	that or not? You know, it's something I want.
25	MS. SCHELLIN: Yeah. So Commissioner Miller wants the

	revised text from
2	VICE CHAIR MILLER: If they have revised text.
3	MS. SCHELLIN: If they have revised text.
4	CHAIRPERSON HOOD: So let me ask
5	MS. SCHELLIN: So they would submit that by noon
6	tomorrow then is what you're saying?
7	CHAIRPERSON HOOD: Hold on a second. Let me ask Ms.
8	Lovick something, and we'll get to that. Now, revised text, Ms.
9	Lovick, does that mean we have to have a revised hearing?
10	MS. LOVICK: (Shakes head no.)
11	CHAIRPERSON HOOD: Okay. I see you shaking your head
12	no. You're on mute.
13	MS. LOVICK: No, no, we wouldn't have to. I mean, if
14	Commissioner Miller wants for ANC 3E to basically memorialize
15	what it is that they want the minimum IZ set-aside requirement
16	to be, based on the testimony that they provided, he can make
17	that request.
18	CHAIRPERSON HOOD: Okay. Yeah, okay.
19	MS. SCHELLIN: Okay. And that's not revised text;
20	that's just his follow-up to his testimony.
21	VICE CHAIR MILLER: That's correct.
21	
22	MS. LOVICK: Well, it would be revised it would be
	MS. LOVICK: Well, it would be revised it would be a proposal saying
22	

set-aside requirement that is included in the OP proposed text to something that would be a higher minimum. And so it sounds like that's what Commissioner Miller wants. He wants to know exactly what ANC 3E envisions, and then he also wants to know exactly what OP would envision as -- I mean, is that correct, Commissioner Miller, what OP would envision as presumably a higher minimum set-aside?

2.

VICE CHAIR MILLER: They had a suggestion for a higher -- I think I do know the amounts, based on their testimony, but if they had additional language which clarified what the additional minimum set-aside should be in the text amendment, I'd be interested in seeing that. We can work on it. If we don't get it, we'll decide amongst ourselves what we want and work with you to make it legally sufficient.

MS. SCHELLIN: Okay. So you want them to submit that by next Monday or if he already had it, he'd submit it by noon tomorrow. I was just trying to figure out which deadline he had. I couldn't tell if he already had it, but it sounds like he may not have it yet, so we'll give him till noon -- I mean, till three o'clock Monday, the 25th, the same as the Petitioner, the 25th. And if the Petitioner wants to --

VICE CHAIR MILLER: That sounds reasonable to me.

MS. SCHELLIN: Yeah. And then if the Petitioner wants to respond to it, he can do that on the same date as OP submits theirs, which I believe was the 3rd, so that takes care of that.

1	And I think that was it. Nobody else was submitting anything,
2	other than I did get an e-mail from Tom Smith asking if 'cause
3	they forgot to ask Ms. Buckles Mr. Smith, and the other person
4	that wanted to submit their written testimony was Mary Buckles
5	on behalf of Spring Valley, Tom Smith, and Blaine Carter, and,
6	of course, Dr. Kraskin. I believe he had already asked. So if
7	I have permission to put in those testimonies, they've already
8	sent them to me.
9	CHAIRPERSON HOOD: So, Ms. Schellin, so they have
10	something additional from what we already have?
11	MS. SCHELLIN: No. It was their written testimony.
12	They didn't have they didn't make the 24-hour deadline
13	CHAIRPERSON HOOD: Oh.
14	MS. SCHELLIN: so I just forgot to ask on the record,
15	so I'm just asking you after the fact.
16	CHAIRPERSON HOOD: Yeah, that's fine, that's fine.
17	MS. SCHELLIN: So they don't have to request to reopen
18	the record to submit their oral their written testimony they
19	gave this evening.
20	CHAIRPERSON HOOD: Okay. That's fine. I still don't
21	understand that, because it's already in the record, but anyway.
22	MS. SCHELLIN: No, they sent it to me asking if it
23	could be accepted, so I'm asking you if I can accept their written
24	testimony they gave this evening into the record, 'cause they did
25	not ask.

1	CHAIRPERSON HOOD: Okay. Yeah, it can be accepted into
2	the record.
3	MS. SCHELLIN: Okay. Thank you.
4	CHAIRPERSON HOOD: I don't want to complicate it more.
5	I just don't understand. Maybe it's getting late. Anyway, so,
6	all right, anything else?
7	MS. SCHELLIN: No, sir.
8	CHAIRPERSON HOOD: Did somebody say something? Mr.
9	Brown, did you say something?
10	MR. BROWN: No, I did not. I did not.
11	CHAIRPERSON HOOD: Okay. So the Zoning Commission will
12	meet again November the 21st, Zoning Commission Case Number 16-
13	18G, Georgetown University. And for those that may not be on
14	that particular night, let me wish you all a happy holiday with
15	you and your family and a safe one, and for those who will join
16	us on the 21st, we'll probably say the same thing, so thanks
17	everyone for their participation in this hearing tonight. Follow
18	the office if you want to see what our progress is, as we make a
19	decision. With that, this hearing is adjourned. Goodnight,
20	everyone, and thank you.
21	(Whereupon, the above-entitled matter went off the
22	record at 7:15 p.m.)
23	
24
